

Enlargement Of Vets' Hospital Facilities Urged

PORTLAND, Ore., June 3—(AP)—Enlargement of Pacific northwest hospital facilities for war veterans by more than 5,000 beds was urged today by an American Legion rehabilitation and World War II liaison conference.

Delegates from Oregon, Washington, Idaho and Alaska asked the veterans' administration for: 1500 general medical and tuberculosis beds and 500 beds for mental patients in Oregon; 1500 general medical beds in western Washington; 500 general medical and 500 tuberculosis beds in eastern Washington; 500 additional beds in Idaho; at least one veterans' hospital in Alaska.

Other resolutions urged transfer of army and navy relief administration from the American Red Cross back to the army and navy; that veterans discharged for disability be given 90 instead of 40 days to apply for their old jobs; that discharge papers record all technical training; improved rating schedule to determine disability payments; return of rating authority to regional offices from area offices; discharge of neuropsychiatric cases through installations nearest their homes.

Year's Extension Of Price Control Given Approval

WASHINGTON, June 3—(AP)—Prospects that congress will recess in two weeks for the conventions brightened today as the house banking committee, unanimously approving a year's extension of wartime price control, avoided another legislative battle on the issue of outlasting consumer food subsidies.

The committee compromised the question by saying the present subsidies on meat, butter and flour may continue, but prohibited consumer price aid on any other food items. One major issue, embodied in a move led by Senator Bankhead (D-Ala.) to provide special standards for the textile industry, was put into a separate price control extension measure by the senate banking committee. Rep. Brown (D-Ga.) announced he would seek to insert the Bankhead proposal into the house bill. Cotton now is the only major farm commodity selling below parity.

The senate and house will debate separate OPA extension bills next week. The house bill provides changes which include:

1. Liberalization of the court procedures under price control to erase the 60-day limit for challenging the legality of an OPA

regulation, and permitting such tests at any time.

2. Rigid restrictions against OPA forcing changes in accustomed business practices.

3. The president "shall" correct any gross inequities under price control. The law now says he "may alter" such inequities.

Pershing Sure of Allied Triumph

WASHINGTON, June 6—(AP)—Gen. John J. Pershing, who commanded American armies in France in the World war, issued the following statement following the announcement that a new expeditionary force had landed in France:

"American troops have landed in western Europe.

"As the overmastering military might of the allies advances it will be joined by the men of the occupied countries, whose land has been overrun by the enemy but whose spirit remains unconquered.

"Twenty-six years ago American soldiers, in cooperation with their allies, were locked in mortal combat with the German enemy. Their march of victory was never halted until the enemy laid down his arms in defeat. The American soldier of 1917-1918, fighting in a war of liberation, wrote by his deeds, one of the most glorious pages of military history.

"Today, the sons of American soldiers of 1917-1918 are engaged in a like war of liberation. It is their task to bring freedom to peoples who have been enslaved. I have every confidence that they, together with their gallant brothers-in-arms, will win through to victory."
