Commendation For War Job Given Austin V. Dumont

Mrs. Austin V. Dumont, Glide, has received a copy of a commendation conferred June 1, 1944, upon her husband, Private First Class Dumont, by the commanding officer of the 148th infantry.

The commendation, by Colonel L. K. White, is for service with an anti-tank company participating in the Empress Augusta bay engagement on Bougainville islands.

"During the period from November 8, 1943, to April 1, 1944, as a member of the Mine Platoon, Antitank company, 148th infantry, you distinguished yourself by rendering meritorious service in laying out, emplacing, marking and maintaining mine fields in the 148th infantry sector, Empress Augusta Bay area, Bougainville islands," the commendation states.

"This sector, which was about 4,400 yards in length, necessitated the use of mines to prevent the enemy from infiltrating into our lines through the gaps that existed between battalions and companies. In helping to set up these mine fields, you put in many long, hard hours of hazardous work which required the greatest of care and exactness. A total of 900 mines in 16 seperate mine fields were emplaced and marked, yet not a single casualty was suffered. Although it was impossible to carry weapons while laying these mines, you cheerfully and unhsitatingly entered these fields and worked outside the final protective line with the thick jungle only a few yards away.

"You displayed a high devotion to duty in successfully accomplishing this hazardous job. Your excellent work in effectively installing these mines was an important factor in the defense of the regimental sector."

Mrs. Dumont reports that her husband previously has been awardd the infantry combat badge.

Among the horses that perished was Bell Buzzer, which ran seventh in this year's Kentucky derby.

Washington's Cherry Crop Hard Hit by Rain

WENATCHEE, Wash., June 17.—(AP)—Rains yesterday and last night did an estimated $300,000 damage to the Wenatchee valley's million-dollar cherry crop, fruit handlers and growers estimated today.

The Wenatchee valley's crop is estimated at 300 cars, nearly 8,000,000 pounds, with record prices of 12 to 16 cents a pound in prospect.

Growers in early districts, where the fruit would have been ready for harvest today, were undecided this morning whether there was enough undamaged fruit to make picking profitable.

Reports here from the Yakima district indicated the same percentage of loss for that area's 700-car crop.

Routed Deer Refuse to Desert Victory Gardens

SPEARFISH, S. D.—(AP)—Residents of this town put out free meals for Black Hills deer last winter when deep snow covered their natural feed. But when the snows went, the deer didn't. Last week, Dave Harris, game warden, presided at a mass meeting in city hall, then led a drive of 40 residents, equipped with tin pans and noisemakers. They rounded up between 40 and 50 deer from yards and gardens and drove them deep into the wilds of Spearfish canyon. Two hours later five of the deer were back feasting on succulent Victory gardens. Next day the entire herd was back.

Halt on Non-War Connected Meets Asked by ODT

The immediate cancellation of all non-war connected conventions, trade meetings and conferences, as well as all non-essential civilian travel, was demanded at Medford today by Director J. Monroe Johnson of the Office of Defense Transportation.

"With the invasion now actually under way, the demands on the transportation facilities of the country are increasing, not decreasing," Col. Johnson stated. "The pressure of rail shipments of war material has not yet reached its peak. Organized troop movement combined with increased casualty transportation is gaining record-breaking proportions. The hardship involved in the cancellation of business meetings involving travel, cannot be compared with either the outright danger such non-essential travel imposes on the war effort nor with the very real physical hardships now being experienced by our military forces."

"The test of whether a particular convention, meeting or any use of the passenger facilities of either railroads or inter-city buses is of vital and immediate importance to the war lies in the heart of every patriotic American," Col. Johnson said. "In this hour of the greatest and gravest demands on every human and industrial resource of the nation, I do not think it too great a sacrifice to ask that our transportation system be reserved for the use of the military, sorely needed tools of victory and essential governmental business."
