TILLCUM BRIDGE CLUB ENTERTAINED

SUTHERLIN — Beautiful bouquets of roses were used by Mrs. E. H. Randall and daughter, Mary Alice, to carry out a pretty motif for the one-thirty o'clock luncheon, which they gave at their lovely home on Third avenue Tuesday when they entertained the Tillcum bridge club.

Covers were placed for: Mrs. E. J. Loney, Mrs. Walter Roach, Mrs. Harry Barker, Mrs. William DeWitt, Mrs. Lyelle Palmer, Mrs. Brittain Slack, Mrs. Anton Coenbergh, Mrs. A. L. Cooper, Mrs. Elmer Cooper, Mrs. Clifford Parrott, and the hostesses, Mrs. Randall and Mary Alice.

Auction bridge was the diversion of the afternoon with high score going to Mrs. Slack, Mrs. Palmer winning the low score and Mrs. Coenbergh the traveling goose.

FAMILY REUNION IS ENJOYED SUNDAY

SUTHERLIN — Mr. and Mrs. Roy Daubenspeck held a family reunion at their home Sunday. A very lovely one o'clock dinner was served.

Mixed spring flowers were attractively arranged for the table centerpiece and were used in large decorative bouquets about the room.

Covers were placed for: Mr. and Mrs. J. M. Daubenspeck from Vancouver, Wash., Mrs. William Elliott from Florence, Ore., H. F. Daubenspeck and daughter, Carole from Philomath, Ore., Mr. and Mrs. D. M. Daubenspeck and family of Sutherlin and the host and hostess, Mr. and Mrs. Roy Daubenspeck. The pleasant afternoon was spent in visiting.

JACKIE ANNE WELLS CELEBRATES BIRTHDAY

YONCALLA — Jackie Anne Wells, daughter of Mr. and Mrs. Weslie Wells, celebrated her 8th birthday at her home Saturday afternoon. A group of school friends gathered and played games after which the many beautiful birthday gifts were opened and a delicious lunch served to the following: Jackie Anne Wells, Joyce and Maxine Potter, Barbara Broady, Mary Ellen Vroman, Kay Turpin, Virginia and Aletha Houser, Joan Bean, Clara Lantz, Loraine Atkinson, Mrs. Vroman, Mrs. Potter, Mrs. Henry Wells, and Mrs. Lester Wells.

MR. AND MRS. DURR ENTERTAIN SUNDAY

SUTHERLIN — Mr. and Mrs. O. T. Durr entertained at a very lovely buffet-supper Sunday evening at their attractive home east of Sutherlin. Roses formed a pretty motif for the occasion.

Covers were placed for: Donald Robertson, Dickie Coenbergh, Jimmy Lang, Mrs. M. Patterson and sons, Donald and Allan and daughter, Kay, Mr. and Mrs. J. C. Lankford and sons, Cecil and Hugh, and the host and hostess, Mr. and Mrs. Durr and children. The pleasant afternoon was spent in playing out-door games and the evening in dancing.

FOOD DEMONSTRATION TO BE HELD AT CHRISTIAN CHURCH ON THURSDAY

The ladies of the First Christian church will sponsor a canning and freezing demonstration in the basement of the church Thursday beginning at 10:30 a. m. with a noon potluck luncheon. Miss Mary Maw, Douglas home demonstration agent, will be in charge. All women interested are cordially invited to attend.

D. OF U. V. TO MEET FRIDAY NIGHT

Florence Nightingale Tent No. 15, Daughters of Union Veterans of the Civil War will meet Friday evening at seven-thirty o'clock at the Roseburg Woman's clubhouse on South Jackson St. All members are urged to be present.

Public Warning! BEWARE OF PIN-WORMS

Wartime living conditions may be the cause of spreading Pin-Worm infection. Scientific reports in many communities have shown at least one-third of the examined children and grownups to be victims of Pin-Worms—often without knowing what was wrong!

Watch out for the warning signs that mean Pin-Worms in your child or yourself! The tormenting, embarrassing rectal itch, the uneasy stomach, bed-wetting, nervous fidgeting, finicky appetite.

New Discovery Hailed by Doctors

After centuries of distress caused by Pin-Worms, a new and highly effective way to deal with this stubborn pest has recently been discovered. This scientific discovery, hailed by medical authorities, is a remarkable drug, (gum resin violet). It is the vital element in P.W., the new Pin-Worm treatment developed by the laboratories of Dr. J. J. Jazay & Son, America's leading specialists in worm medicine. P.W. tablets are small and easy to take, and they act in a special way to destroy the creatures. So don't take chances with Pin-Worms. At the first warning sign, ask your druggist for P.W., and follow the directions. P.W. means Pin-Worm relief!

JAMES A. STEPHENS HONORED AT DINNER

A delightful dinner honoring Private James A. Stephens was enjoyed Sunday at the home of Mr. and Mrs. H. Hartle in Oakland.

Covers were placed for the guest of honor, Private Stephens, his parents, Mr. and Mrs. Alva Stephens; Herbert Stephens, J. A. Leatherwood, Mr. and Mrs. King Carlisle, E. Jones, Dannie Hartle and the host and hostess, Mr. and Mrs. Hartle. Henry Hartle will soon leave for army service.

ALL-DAY MEETING TO BE HELD ON FRIDAY

An all-day canning and food preservation demonstration will be held Friday at the home of Mrs. Emily Ferguson in Days Creek with Miss Mary Maw, Douglas county home demonstration agent, in charge. The meeting will open at 10:30 a. m. and a potluck luncheon will be held at noon.

All women and 4-H club girls in the community are urged to attend.

ARMY MOTHERS CLUB TO SPONSOR PICNIC

The United States Army Mothers club will sponsor a picnic Sunday, June 25, at five o'clock at the Roseburg Auto camp at Deery Creek bridge. Fathers, mothers, grandparents, sisters, brothers, wives, sons and daughters of men in the U. S. army, are cordially invited to attend.

Mrs. George Frow is acting as chairman of the affair with Mrs. Allie Colford, assisting.

Glendale

GLENDAL — The Presbyterian Daily Vacation Bible school closed with a public program Friday evening. Students were presented in a program of choruses and memory work. A display of handwork was made in the church basement.

Mrs. H. T. Edson and daughter, Effie, were Grants Pass visitors Friday.

Mrs. Darrel Craddock and daughter, Janet, arrived Thursday to visit for two weeks at the home of Mrs. Craddock's parents, Mr. and Mrs. Munyon.

Miss Beth Messner and Miss Joan Carpenter accompanied Reuel Messner to Grants Pass Monday.

Mr. and Mrs. Allen Heller of Marshfield visited Mrs. Mattie Heller over the weekend. Miss Barbara Heller, who has been visiting with her grandmother, returned to Marshfield with her parents Sunday.

Dick Cokram left Friday for his home in Oregon City after filling the pulpit at the Presbyterian church for the last four Sundays.

Mr. and Mrs. I. H. Smith and Pam Albright visited in Corvallis last weekend.

Miss Joan Carpenter arrived from Sutherlin Saturday to visit for three days and to attend the last meeting of Job's Daughters.

Miss Lillian Waterman arrived Saturday from Bridge, Oregon, for a three-day visit and to attend the Job's Daughters meeting.

Sutherlin

Mrs. Brittain Slack has been confined to her home for several days the past week by illness.

Mr. and Mrs. Miles Batchler of Eugene were week end guests at the home of Mr. and Mrs. William Hardisty.

Mrs. Jack Culver, Sr., left for Seattle, Wash., Thursday where she will visit with her sister, Dorothy, for a couple of weeks.

Utility District Bond Proposal Not Referrable, Ruling

SALEM, Ore., June 20—(AP)—The Tillamook peoples' Utility district's \$750,000 bond issue to acquire private utility properties cannot be referred to the people, the state supreme court ruled today in upholding Circuit Judge Peters of Tillamook county.

Voters of the district gave their approval in 1940 to the bond issue. A year ago, the district directors adopted an ordinance providing for issuance of the bonds in accordance with the measure approved by the people.

Eighteen taxpayers then filed a referendum to permit the district voters to decide at the November, 1944, general election whether they want the bond issue, the sponsors of the referendum seeking to have the ordinance put on the ballot.

The supreme court decision, by Chief Justice Bailey, held that the ordinance could not be referred because it was administrative in character, and not legislative; and that the people already had voted on the subject four years ago.

AFL of Oregon Opens State Meet

EUGENE, Ore., June 20—(AP)—President J. D. McDonald opened Oregon State Federation of Labor's 42nd annual convention today with an appeal to workers and management to "continue to maintain and improve our capitalistic system."

"Our capitalistic system has many flaws," McDonald told the 400-odd delegates, "but it allows for free enterprise and individual and collective initiative. A member of management may be a laborer tomorrow... and a laboring man can step into the ranks of management."

In his annual report, D. E. Nickerson, executive secretary, attributed Oregon's record production to cooperation between organized workers and management.

Nickerson described the defeat of Sen. Rufus C. Holman for the republican senatorial nomination as the state's outstanding political event. "However," Nickerson said, "the state federation did not contribute one cent to campaign funds of rival candidates."

He attacked the 3 per cent sales tax as placing the cost of old age relief "on the backs of the poor."

Delegates were told that the state AFL has added 20 organizations, including one central council and three local building trades councils, during the past year.

Non-Support Alleged After Gas Kills Two

BUFFALO, N. Y., June 20—(AP)—The father of an 11-year-old boy and 17-year-old girl, who were found dead of cyanide gas poisoning in their former home, was under arrest today on a non-support charge.

Edward C. Howard, 52, one-armed railroad worker, was apprehended after the bodies of his children had been found yesterday in the kitchen of a house the Howard family had been forced to vacate. The house was being fumigated for new occupants.

Police said the children had been homeless for weeks and, apparently hiding from welfare authorities, had been sleeping in a garage. During a rainstorm Sunday, the boy and girl had forced a cellar window to enter the house, which had been posted with fumigation notices.

The dead children were part of a family of seven which was broken up after the death of the mother five years ago.

Aerialist Holds Circus Spotlight

Exemplifying grace, rhythm, and precision as they clamber up ropes for daring exploits in the dome of the big top, some 20 lithe, dauntless girls defy all laws of gravity in the spectacular ballet of the newly combined Clyde Beatty and Russell Bros. Circus coming to Roseburg Thursday, June 22 for a night performance only.

Star of the ballet is Miss Estrelita, top-ranking exponent of sensational heel and toe catches who is shown here in one of her breath-taking exploits.

Displaying dainty feminine grace, Miss Estrelita holds her spectators literally open-mouthed with astonishment when she clammers her reckless feats with a forward somersault into midair from the flying trapeze catching only by her heels.

The aerial ballet is only one of many innovations in the thrill-filled, action-packed circus program combining the cream of aerial, acrobatic, and arctic talent with the startling and daring wild animal exhibitions of the famed Clyde Beatty.

Continuance of Guayule Program Favored by House

WASHINGTON, June 20—(AP)—The house, by a 288 to 43 record vote, receded today from its insistence upon the abandonment of rubber production from the guayule shrub in the west, and agreed with the senate to maintain the project for another year.

This action virtually assured \$3,020,984 for the cultivation of the 32,000 acres of guayule in the next fiscal year.

Agreement to the senate's position came after Texas and California congressmen declared national rubber stockpiles in this country were nearing exhaustion and that the program should be continued at least as long as the war continued.

Opposition came principally from Reps. Tarver (D-Ga.) and Cannon (D-Mo.), who contended the cost of the program was excessive.

Rep. Anderson (D-Calif.), urging continuation of the program, asked whether this country was to continue to depend on foreign sources for rubber. Marvesting now of guayule planted two years ago when the program was initiated would make the average cost of the rubber produced \$2 per pound, whereas the same plants would in two more years

have a sufficiently high rubber content to bring the production cost down to 53 cents, he added.

NERVE WAS ALL RIGHT

AUGUSTA, Me.,—(AP)—A country doctor answered a call to the log cabin home of a rural resident and saw this sign posted at the entrance to the patient's property:

"Notis. Trespasser will B percutated to the full extent of 2 mongrel dogs which nene was over sochible to strangers & 1 dubble brl shot gun which aint loaded with soft pillers. Damn if I aint gitten tired of this hell raisin on my place."

Wallace Reaches Chungking; Nazis Say Moscow Goal

CHUNGKING, June 20—(AP)—Vice-President Wallace, visiting China as the personal representative of President Roosevelt, arrived in this war capital today and immediately urged closer relations between China and Siberia.

The vice-president, in a statement distributed at the airport after his arrival from Russian territory, quoted Dr. Hu Shih, former Chinese ambassador to the United States, as having said that the boundary between Siberia and China "should be like the frontier between the United States and Canada—not one of separation but one of joining friends together."

Wallace said he wanted to see the land, talk with farmers, visit Chinese and American soldiers and above all discuss with Generalissimo Chiang Kai-Shek "matters of mutual interest and concern."

DNB, German agency, put out this report today: "American Vice-President Wallace, suddenly changing his original plan to travel to Chungking, is now on his way to Moscow, it was learned from a reliable source. German political circles believe that there is a connection between his visit to Moscow and the United States desire to obtain from the soviet union certain naval bases for battle against Japan."

Wallace said he wanted to see the land, talk with farmers, visit Chinese and American soldiers and above all discuss with Generalissimo Chiang Kai-Shek "matters of mutual interest and concern."

Japan's Fears of U. S. Raids From Saipan Disclosed

(By the Associated Press.) Japanese fears that Saipan Island, where American invasion forces are now engaging enemy forces, will be used as a base for shuttle bombing missions over Tokyo by B-29 Superfortresses flying from the island to China were expressed in a Berlin broadcast of a Tokyo dispatch today.

"Competent Japanese sources are fully conscious of the seriousness of the situation," the dispatch said. "American bombers, especially those of the B-29 operating from Saipan air bases, would have no difficulty in launching systematic attacks on

Tokyo, only 2,500 kilometers (1,550 miles) away.

"Contrary to their former attacks on Japan from Chinese bases, the American pilots would have the advantage of having to fly over ground only while actually dropping their bombs," it continued. "The approach and return flights would be made across the sea and thus there would be no danger from Japanese interceptors. It is, moreover, feasible that American bombers attacking Japan proper from Chinese bases might return to base on Saipan, where they could be refueled more easily than in China.

"In view of these facts, it is safely assumed that both sides will fight bitterly for possession of Saipan."

Boron After First Crop Increases Alfalfa Output

Application of borax or boric acid to alfalfa fields where yellowtop has become noticeable following advent of dry weather may be made immediately after removing the first crop, says Dr. W. L. Powers, head of the soils department at Oregon State college. Application of granular borax can be made with a cyclone seeder.

In four-year trials the average increase from an application of

40 pounds an acre of borax has been 14 tons more alfalfa hay a year, Dr. Powers reports. Use of up to 60 pounds an acre in experiments has been profitable where it was evenly spread. If desired, 50 pounds of borax may be mixed with an equal amount of gypsum and then applied with handplanter spreader.

The use of borax in areas where it is needed not only increases yield but also increases chlorophyll and vitamin A content of the hay and promotes branching and longevity of alfalfa. Effects are still measurable after four years. Heavier applications are indivisible where corn or potatoes are to follow within two years.

In using boric acid instead of borax, two pounds of the former contain as much boron as three of borax. An AAA payment of \$1.50 for 55 pounds of boric acid or its equivalent is available this year.
