WAVE ENLISTMENTS INCREASE IN DISTRICT

A 25 per cent increase in enlistments of Waves in June over the average for the first five months of 1944 has been recorded as an indication of the increasing popularity of this women's service, reports Chief W. E. Bell of the Roseburg navy recruiting station, which handles Wave applications in this area.

More Waves are enlisting in Oregon now than ever before owing to three main factors:

First, the scores of Oregon Waves who have returned to their homes on leave in the past three months have brought back enthusiastic reports of the interesting and important jobs in the navy.

Second, Oregon women have responded to the urgent need for more Waves to release navy men for service at sea or at advanced bases—keeping foremost Oregon's outstanding record for volunteers for the navy.

Third, the opening of many new phases of naval activity and new naval stations and aviation centers to Waves has stimulated the interest of many more young women.

Oregon has been among the leading states in the nation for the enlistment of Waves on a per capita basis, the recruiter adds, and is now well up towards the top position in this war effort.

Oregon's increase in Wave enlistments has been well ahead of the national increase which has shown a gain of 22 per cent in recent weeks over the average for the first 20 weeks of 1944.

Attractive uniforms, vital war jobs, opportunities for training at the nation's leading colleges, excellent pay, travel, a sense of satisfaction in handling a vital and important war job, and uniformly interesting work are other factors about the Waves which have helped increase enlistments.

Have a Coca-Cola—Let's relax a bit

...or a little minute long enough for a big rest

This year again, communities are growing vegetables. Hard-working gardeners grow tired and thirsty. Just three words, Have a "Coke", always sound like music at times like that. With ice-cold Coca-Cola in your refrigerator you are ready for the pause that refreshes at any time. Plan to have a supply on hand, ice-cold. Coca-Cola stands for the pause that refreshes,—has become a symbol of friendly refreshment to folks at work and at war.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
