Nazis Fall Back
 Front dispatches pictured this latest offensive as well under way and said the Germans were falling back pell-mell.
 (The Berlin radio, apparently preparing the German people for news of a large-scale withdrawal along the entire eastern front, said: "It is obvious that the front cannot remain as it is. There are

two alternatives. One is a large scale counter-offensive and the other the adaptation of the entire front to new lines. Since we are on the defensive in the east, the second alternative is the one to be applied.")
 Italian front: American Fifth army troops captured Latjacio in a breakthrough of German defenses in the upper Era valley about 17 miles inland from the west coast. The flanking move against Livorno precipitated the bitterest fighting in Italy in recent weeks. French troops captured San Donato 25 miles southwest of Florence.

Aerial front: U. S. heavy bombers 1000 strong bombed Munich in southern Germany for the third straight day and smashed at Saarbrücken in western Germany.

Firemen Called to Paving Plant Blaze

The Roseburg fire department was called today to extinguish a blaze at the city's street repair plant. A pot of heated asphalt caught fire and could not be handled with the fire equipment at the city barn, resulting in a call for aid from the fire department. No serious damage resulted.

New Procedures for Recalling Soldiers Out

WASHINGTON, July 13—(AP)—The war department has decided to discontinue transmitting to theater commanders requests for soldiers overseas to be returned to this country because of illness in the family or other emergency reason.
 This action is necessary, the department announced today, because of the strain imposed on communication facilities by military messages.
 Henceforth, those making such a request will be asked to give it to the American Red Cross which, after an investigation, will make a recommendation through its own channels if it believes return of the soldier is necessary.
 At the same time, the army also announced its discontinuance of the practice of sending overseas requests for information on the condition of specific individuals.

 TO BERLIN than any other fighting front.
 THERE is obviously a race on in the Pacific.
 The Japs are driving hard to open the railroad that leads down from northern China to Canton. It is usually described in the dispatches as the Canton-Hankow or the Canton-Peking line. It is a little more revealing to describe it as the Shanghai-Canton railroad—for Shanghai is a great and accessible port, across the East China sea from Japan, that connects with this railroad to Canton.
 Over this railroad, the Japs want to get men and supplies from their homeland and occupied northern China to the

southern China coast and the interior that lies behind this coast. In this interior most of our airfields are located.

WE need to get ashore on the south China coast. We need to get ashore before the Japs get the shore line strongly held and fortified against us and before they GET TO our airfields in the interior.
 The Japs need to get set before we can get there.
 Hence the race.

WHY, you ask, don't we just sail in and land? We have a navy that is capable of taking care of the Jap navy if it tries to interfere.
 What are we waiting for? This is the answer: We are waiting until we can get BASES within striking distance of the south China coast. Our warships can't steam back to Pearl Harbor, or even to the Marshalls, whenever they run out of fuel

and ammunition. They have to have a base NEARBY.

Getting such a base is what we have been fighting so hard for at Saipan. But it takes time. We must not only get Saipan but must get supplies of fuel and ammunition. We must provide repair facilities, so that our damaged ships can be got back quickly into the fighting.
 That is what we are doing now.

THE Japs are racing to get the south China coast all tied up against us before we can get there. We are racing to get there before the Japs can get it tied up.
 The race is so important that

we can expect something big to happen almost any time.

THE Chinese have been fighting bravely. But they are getting close to the end of their rope. They have been fighting for SEVEN years, and each year of the seven they have had less to fight with.
 If we don't get help to them, we'll LOSE them as effective allies.

YOUR BLOOD?
YOUR BOY?
YOUR BOX?

Waste paper is such an ordinary thing . . . yet it may help to save the life of someone dear to you! For paper is playing a vital role in the war today. It makes containers for blood plasma, and food rations; even parachutes to float supplies down to hard-pressed troops in hot corners.

With wood pulp scarce, the paper industry has had to turn to waste paper for raw material. Waste paper is now our No. 1 war material shortage! Save it, bundle it, turn it in. You'll save lives and shorten the war!
