TO A MAN WHO'S HANDY WITH HIS HANDS

If you like mechanical work (even though you're not experienced), Southern Pacific has an opening for you that is well worth looking into. The job: Helper in one of the fine crafts at the S. P. shops or roundhouse... working on locomotives or rolling stock. You'll see the "inside" of railroading... be in something big... find railroad more interesting than other work. Friendly people to work with... a chance to really learn a top craft with a fine outfit. Above all, a job with a permanent company—a job you'll like. Liberal age limits. New higher wages. Railroad pass privileges. Fine pension plan. Medical services. Vacations with pay. Swell social activities. This is no fly-by-night opportunity. It's for a man who's sincere in wanting the right connection with the right outfit. If you join up with S. P., we're pretty sure you'll not regret it.

Increase Your Profits!

Egg prices are advancing and have hit the ceiling in some markets. Keep your hens on the job! During these hot days, keep up their appetite by feeding moist mash.

Use milk if you have it. If not, get a barrel of Fermesol. Umpqua Milk Egg Mash, containing CORN, FISHMEAL, and MEATMEAL, moistened with milk or Fermesol will whet the appetite, insure heavy feed intake, and maintain egg production.

DAIRY PRODUCTS STILL HIGH! Keep up the milk flow while pastures are drying up. UMPQUA MILKMAKER is the answer. Always a good feed, UMPQUA MILKMAKER is doubly essential now. It is easier to KEEP UP the milk flow than to BRING IT BACK.

EARLY TURKEYS WILL PROBABLY BRING HIGHER PRICES, according to OPA. Keep your turkeys growing rapidly with UMPQUA TURKEY GROW. UMPQUA TURKEY GROW is high in animal protein, as proved by rapid growth of the flocks being fed UMPQUA TURKEY FEEDS.

In answer to many inquiries—YES, UMPQUA POULTRY AND TURKEY FEEDS, both MASH and SCRATCH contain CORN! And will continue to contain corn for several months at least.

ALSO Umpqua poultry and turkey mash has contained fishmeal and a high proportion of animal proteins all season, and will continue.

You can't make big profits without full feeding. For complete balanced feeds, you can't beat UMPQUA FEEDS.
