**News of 4-H CLUBS**

The Garden club at Callahan Trail, under the leadership of Mrs. Cathryn Cory, is going ahead in nice shape. They are holding regular meetings and all members have their gardens in good shape. All the gardens were looked over this past week in preparation for the official scoring to be done soon. Members of this club are Glenn Baughman, Glenn, Richard and Donald Wood, Eugene, Stanley, Evelyn and Tracy Hall, Betty Butler and Colleen Pemberton.

Several new enrollments came in during the week. Betty and Albert Hausotter of Riddle enrolled as individual garden club members. Præcella Polvin was enrolled in canning club and Billy Matthews enrolled in both garden and poultry projects. Bill has a poultry enterprise consisting of 185 laying hens, all owned and operated by him. In addition to his poultry project, he is raising about 1 acre of garden, has two Romney ewes and two Jersey cows.

Most all 4-H club boys and girls are taking an active part in preparation for National Farm Safety week, July 23rd to 30th. All clubs meeting during the week are planning to devote part of the meeting to farm safety. There is a real need for farm safety program when we note that enough time was lost through farm accidents to produce 43 days' food supply for every person in the United States. All county club members are participating in a National Farm Safety contest to help lower the number of farm accidents.

Well, what would you do if you were a slave and perhaps had seen your loved ones tortured or killed? Better not answer that one until you've counted a hundred. That reminds me of a conversation I had the other day with a distinguished American friend who, incidentally, was a soldier in the last war. He got pretty hot over what ought to be done to reform the nazis.

But Not Civilians  
"If I were a soldier again," he exploded. "I'd bayonet every damned nazil civilian I could reach."

"Wait a minute," I said. "It's a hundred to one bet that even if you were commanded to bayonet civilians, you wouldn't do it. Moreover, you wouldn't be ordered to do anything of the kind. That's exactly the sort of thing the allies are fighting to wipe out."

A little later my friend reverted to the subject rather sheepishly.

"About bayoneting civilians," he grunted. "You're right. I couldn't do it."

**Due Punishment Slated**  
Of course he couldn't and no more could any other civilized soldier. But that doesn't mean we've got to be soft with the Hitlerites. As a matter of fact the allied chiefs have promised just that stern retribution. The reich is going to lose territory. It will be deprived of all means of making war. It will be occupied for years by allied troops. Nazism and Prussian militarism are to be wiped out.

Still, with all this, there's something missing. It's the something which my friend had in mind—something over which the enslaved peoples of Europe are brooding—and that has to do with what punishment is to be meted out to individuals for war crimes. From Hitler down to the soldier who commits an atrocity under orders.

All that will be taken care of under the program we've been led to expect. If that is carried out there will be thousands upon thousands of trials for war crimes, and the punishments will fit the crimes.

Presumably there will be many death sentences and many life imprisonments.

And this will be official and legal.

**Boys Start Harvest at Illahee Guard Station**  
May harvesting has started at the Illahee guard station on the North Umpqua river and the work is being done by the fire suppression crew, consisting mostly of Roseburg boys, 16 and 17 years old. The boys are under the direction of Elmer Silsbee, forest guard, who spent last winter at the Illahee station feeding the government stock. It is anticipated, V. V. Harpham, forest supervisor stated, that about 35

**Oregon's August Draft Set at Big Reduction**  
SALEM, Ore., July 18—(AP)—Oregon's draft for August will be only about 30 per cent of what it was a year ago, said Col. Elmer V. Wooton, state selective service director.

Eighty percent of the inductees now being called are under 26, he said, and the remainder include men of draft age who have not obtained jobs in essential occupations.

There has so far been no difficulty obtaining the state's monthly quota, Col. Wooton added.

The secret of silk worm culture was brought to Europe about 522 A. D. by two Nestorian monks who smuggled out of China a quantity of silk worm eggs concealed in the hollows of their suppurating staves.
