Argentine Attempt to **Destroy Pan-American** Unit Suspected in U. S

WASHINGTON, July 25-(AP) The recall to Argentina of Ambassador Escobar completes the diplomatic break between Wash-ington and Buenos Aires which has been developing since Farrell regime took office last January.

Diplomatic quarters here awaited with considerable interest to-morrow's promised statement from Buenos Aires as a possible hint whether last night's action is to be followed by the withdrawal of Argentina's ambassadors to other American capitals or whether Escobar is to be the only one

In the latter event, the move would be interpreted in Washington to mean that the Argentine government, headed by President Edelmiro Farrell, is pursuing a policy of trying to drive a wedge into pan-American unity and split off some of the South Amerian countries from the United the few who survived.

LONDON, July 25.—(AP)—A leader of the battered German armies in the east, Marshal Gen. Walter von Model, sent a message of congratulations to Hitler today on his escape from assas-sination last week—perhaps in tacit admission that the nazis at least temporarily control the armed forces of the reich.

The message was broadcast by Transocean after the nazis had hinted they were preparing even more drastic measures to tighten their grip on the war-weary home front and Hitler's hencemen apparently had gained complete mastery of the German army.

At the same time Foreign Secretary Eden told the house of commons the reich government "had been at great pains" to prevent information on the up-heaval in Germany from leaking

Nazis Plan Last Ditch War

Out of a maze of reports of seething turmoil gripping the reich it has become clear that as long as the nazis are directing the war—and without question they are in the driver's seat now they are prepared to carry on even though Germany herself beomes a battle ground.

Transocean news agency in another broadcast said there were indications that "a great number of new decrees, some of them cutting deep into our everyday life, may be expected soon."

There were indications that the gestapo's purge of army conspira-tors whom Hitler said had tried to assassinate him had wiped out only a few of the top men in the novement. (In a broadcast quoting Swiss disaptches, Absie, American transmitter in London, said that

But here I am, loaded with my overseas pack, climbing up the side of the Liggest boat I've ever seen-and glad of it.

Glad I said "good-by" to civilian life months ago-and went into the WAC. Glad I went through all the training and on to active duty.

For, as a Wac, I'm really working for victory. Sharing the hard part of war. And the glory that will come.

I'd rather be with them-in the Army . . .
