

Keep well at any cost this summer! You owe it to yourself, to your country, and to your friends. Those who keep healthy are helping to fight this war just as much as soldiers on the battlefronts! We are all under wartime tension . . . more reason than ever to stock up on drugs that will help to keep you feeling "up to par." As well as being health-conscious, Americans know how vitally important it is to save every possible cent. Stop here for real values at prices which have never been lower. Prepare ahead for the low resistance which comes with winter, and for the colds that always come with winter. You need plenty of good, red blood for strength, energy, and endurance, results of perfect health . . . our wartime weapon!
