TO A MACHINIST WITH "KNOW HOW"

If you figure you know your stuff and want a chance to show it—want to work with men who take pride in their job—If you figure a permanent company is your kind of company, then this is your ad. Here at Southern Pacific, we want men of your type to work in our big railroad shops or roundhouses... to help rebuild and repair locomotives and other railroad equipment. We think you'll like railroading... like seeing a locomotive (that you worked on) go out and do a job pulling war freights or troop trains. And like the men you work with—the kind of fellows you'll want to have drop around to the house. Now, higher railroad wages. Liberal age limits. Medical service. Fine pension plan. Railroad pass privileges. All the things that make this a really good job.

## Beavers Win 7th Straight, Climb Up To Third in Race

(By the Associated Press)

The Portland Beavers won their seventh straight game from the San Francisco Seals yesterday, toning the Seals during a disastrous week's series from a close second to a poor fourth in Coast league baseball standings.

The Beavers narrowly squeezed through a 4 to 3 win in 14 innings of the day's game to keep their record clear but had less difficulty taking the nightcap and series final, 3 to 0, in seven innings.

Hollywood, meanwhile, moved into second place with a double win over Seattle's Rainiers, 11 to 4 and 10 to 3. The victories gave the Stars a 5 to 2 series edge over the Rainiers.

San Francisco snapped its streak of 36 winless innings by scoring in the first frame of the opener with Portland. The Beavers knotted the score at 3-all in the ninth. The winner run was scored in the 14th without benefit of a hit, combining a walk, an error and a fly to the crucial tally. Licka scored his second series shutout in the nightcap.

Los Angeles lost a chance to duplicate Portland's series sweep by dropping an opening game to Sacramento, 2 to 3, as Babbitt held the angels to six hits. The Angels took the second game, 6 to 3, for a 5 to 1 series margin.

San Diego won its double header with Oakland, winning the opener 4 to 0 behind Dasso's seventh-hit pitching and the nightcap 7 to 2 as Oakland booted the ball four times on four sure kills. Team Standings:

## Blody Normandy Trap Grips German Army

(Continued from page 1)

Mans had turned away from Paris to form this trap. Now had come a "definite opportunity for a major allied victory," the ruin of the German Seventh army, Eisenhower said. If the trap succeeds, Paris may fall as a by-product.

Allied air forces in Britain and Italy sent more than 3,500 planes meanwhile in punishing attacks on war production cities and other targets in southern Germany and southern France. Up to 1,500 U. S. bombers struck Mannheim and Ludwigshafen in Germany.

"The victory we can now achieve is definitely greater than any it has so far been possible to accomplish in the west," Eisenhower asserted in an order of the day to land, air and sea arms.

Planes Slaughter Nazis Overhead the skies were filled with bombers and fighters taking terrific toll of Nazi armor and men fleeing on congested roads in every type of vehicle. They were scoring almost without hindrance as von Kluge's legions were flushed from cover onto open roads.

Despite the heavy allied pressure in France, von Kluge had not yet been forced into a rout. Supreme headquarters said resistance continued strong on the German northern flank as von Kluge sought to exploit the bulk of his seventh army. But the price, particularly at the hands of the air forces, was heavy.

A five-day silence was broken in the disclosure that U. S. columns which had plunged eastward from Brittany into Le Mans had then swung northward, taking Alencon and then driving through Argentan in a push to seal off the line where the Germans had fought for weeks by low Caen and along the Orne river. The German pocket was about 30 miles deep.

The American advance was so fast the infantry found the enemy's smoking machineguns with belts still loaded.

So confused was the enemy that remnants of six divisions were found on one narrow three-mile front.

## Japs Handed "Baloney" On U. S. Food Supply

(By the Associated Press)

The shortage of foodstuffs in America is becoming more and more marked. In restaurants and hotels, meat is served only once a week. As far as butter and cheese are concerned, not even a shadow of them can be seen among the citizens of the United States.

"Whiskey and brandy can still be bought today but all such beverages are adulterated and cost at least \$15, sometimes even \$20 a bottle."

## Mine Conference Lists Demands on Money and Taxes

(AP)—A postwar program calling for use of silver and gold as a monetary base, "orderly" transfer of defense plants to private operators, prompt revision of income tax laws, and the freezing of metal stockpiles was prepared today for submission to the governors of western states.

The program was set forth in a series of resolutions adopted at the western mining conference yesterday.

"The American people," the resolution asserted, "favor a sound monetary system, safeguarding their interests against paper inflation."

Prompt revision of federal income tax laws to speed return to a stable peacetime economy, but at the same time bearing in mind the nation's need for large revenues, was recommended.

The resolution said revisions should include levying of taxes for revenue only to "preserve individual incentive and encourage investment of risk capital."

It asserted "the excess profits tax must be quickly repealed," other taxes moderated and simplified and the capital stock tax repealed.

The delegates said double taxation of corporate earnings should be "ameliorated" and capital tax gains limited to 15 per cent.

mounted massive counter-attacks in futile attempts to destroy this threatening wing of Rokossovsky's forces.

The Russians announced Gen. Yeremenko's second Baltic army, now almost half way across Latvia, had killed or captured nearly 70,000 Germans in a month, boosting to 609,526 the Nazi casualties inflicted in the summer offensive.

Yeremenko's legions, captured the rail-highway center of Madona, 75 miles east of Riga. Other units reached within 55 miles of Riga on the southeast in Russia's attempt to smash remnants of two Nazi armies trapped in Estonia and Latvia.

North of Yeremenko's forces, Gen. Maslennikov's troops swept nearly 38 miles inside Estonia and 95 miles from the gulf of Riga. The swift pace seemingly indicated early collapse of German power in the Baltic.
