### Relieve that Tormenting

**PIN-WORM ITCH**  
Too Embarrassing to Talk About!

It is no longer necessary to put up with the trouble caused by Pin-Worms. Don't let your child or yourself suffer that tormenting, embarrassing rectal itching, or take chances with the internal distress. Medical science has now discovered a new and highly effective way to deal with this stubborn and troublesome infection. This important scientific discovery is a remarkable drug known as gentian violet. It is the vital element in P.W., the new Pin-Worm treatment developed by the laboratories of Dr. D. Jayne & Son, America's leading specialists in worm medicines. P.W. tablets are small and easy to take, and they act in a special way to destroy the only creature.

Watch for the warning signs: itching nose and seat, uneasy stomach, bed-wetting, uneven appetite. Remember that there is a treatment that works on Pin-Worms as no old-fashioned "worm expeller" or "worm candy" could. So if you even suspect Pin-Worms, get a box of P.W. right away, and follow the directions carefully. P.W. means Pin-Worm relief!
