Support Prices For Dried Prunes Carry Increase

Support prices for this year's crop of west coast dried prunes, which reflect increases over 1943 prices of roughly \$30 per ton to growers, were announced Saturday by the War Food administration.

These grower prices are designed to cover higher production costs resulting from reduction in the volume of fresh prunes produced in 1944 and to encourage the drying of sufficient quantities of prunes to meet military, civilian, and lend-lease requirements. Under commodity credit corporation purchase program, the quantities to be sold in normal trade channels at about the same price levels as during 1943, WFA officials said. Dried prunes are required to be set aside for government requirements under war food order 16.

Grower support prices for 1944 dried prunes are: California 3-district 10 cents per pound basis (50 prunes per pound basis) as compared with last year's price of 8 1/2 cents; and for California "outside" district 9 1/2 cents per pound basis as compared with last year's price of 8 1/4 cents. Support prices for Washington and Oregon dried prunes will be the same as for California "outside" district prunes of comparable size.

These basic prices are expected to return to growers an average of \$215 per ton for 3-district as compared with \$185 last year, and \$225 per ton for the northwest as compared with \$195 per ton last year.

Maximum growers' ceiling prices for the 1944 crop will be the same as those support prices, the WFA and office of price administration said.

"A" Gas Ration Renewal Will be Handled by Mail

A streamlined plan for handling renewal of "A" gasoline rations by mail was announced today by McDaniel Brown, district director, OPA, Present "A" ration expires on Sept. 21.

Motorists can obtain their renewal forms at local service stations and garages, except for workers in industries which have plant transportation committees. They will get their forms from the committees and return them to the committees. Instead of to the local OPA board accompanied by the signed back cover of the present "A" book and the rye inspection receipt. If the back cover has been lost or destroyed, the applicant must be able to prove to the satisfaction of the board that the car is actually in use and that no other application has been made for a basic "A" ration.

Applicants temporarily away from their permanent residence may apply at any local board but are urged to mail the renewal blanks to their home boards instead so their records will be complete.

To get telephone or call in person at local boards, Brown requested as no "A" books will be handled out over the counter. Applications will be acted on promptly in the order received so new coupons can be mailed to each applicant before the Sept. 22 validity date.

ONE OF THE BEST friends a man can have both these days and after the war, is a nice little piece of paper.

A crisp green-and-white paper that 10 years hence is going to bring in an extra dollar for every three you put in now.

A piece of paper that can help bring you comfort, peace of mind, security. A War Bond.

That's why, when times are good, and you're making a little extra money, you should collect as many of those pieces of paper as you possibly can. Common sense will tell you that you can't collect too many.

So buy War Bonds. Keep on buying more and more War Bonds. Hang onto them—don't be tempted to cash them in. For after the war you'll have some mighty fine friends in your fistful of War Bonds!
