Relieve that Tormenting

PN-WORMS

It is no longer necessary to put up with the trouble caused by Pin-Worms. Don't let your child or yourself suffer that tormenting, embarrassing rectal itching, or take chances with the internal distress.

Medical science has now discovered a new and highly effective way to deal with this stubborn and troublesome infection. This important scientific discovery is a remarkable drug known as Pin-Worms. It is the vital element in P-W, the new Pin-Worm treatment developed in the laboratories of Dr. D. B. Jones, America's leading specialists in worm medicine. P-W tablets are small and easy to take, and they act in a special way to destroy the ugly creatures.

Watch for the warning signs: itching nose and seat, uneasy stomach, bed-wetting, uneven appetite. Remember that now there is a treatment that works on Pin-Worms as no other treatment. "Warm grass" or "worm candy" could. So if you even suspect Pin-Worms, get a box of P-W right away, and follow the directions carefully. P-W means Pin-Worm relief!
