The FACTS about DOVER Listen to COLONEL "TED" HOPKINS **Over KRNR** Tonight at 9:15 p.m.

 \mathbf{Y} es, Associated is proud of the men and women who have worked so loyally and unremittingly at our great Avon refinery, turning out record quantities of 100-octane aviation gasoline, special fuels and lubricants for the armed forces.

We're proud, too, of the others patriotically bending every effort to speed completion of our giant new catalytic cracking plant-world's largest Fluid Type Catalytic Cracker unit-which will vastly increase our aviation fuel production still further.

OUTPUT UP MORE THAN FIFTEEN-FOLD

Avon's 100-octane output was large in 1940, for Associated even then was pioneering commercial volume production of this super-fuel. Since Pearl Harbor, it has been doubled, redoubled and doubled again by immediate allout conversion, plus tircless efforts of the good soldiers in laboratory, drafting room and production line. Before this year's end, the new "Cat Cracker" will bring production to more than fifteen-fold the 1940 level. And it will pour out additional thousands of barrels daily of the amazing new superaviation gasoline when the Army calls for it.

Our hats are off to the Citizen Soldiers who have stayed on the job at Aron and at our other refineries-who are finishing the job of helping our fighting forces finish the enemy.

*

TIDE WATER ASSOCIATED OIL COMPANY

Workers in refineries and other war plants are not the only Citizen Soldiers. You, and millions like you, contribute mightily to victory in dozens of civilian activities, a few of which are listed here. Let us all be Citizen Soldiers all the way. Let's stay on the job and finish the job!
