In the Day's News

(Continued from page 1)

"retaining their loot" or "finding safe haven for their wealth" in neutral countries.

THE signs of the all-out offensive referred to by Goebbels are apparent in the news.

North of Aachen, our American First Army has cracked the first hard crust of the westwall, and is still, in its third day of the offensive, gaining ground against the secondary positions.

It isn't yet a complete breakthrough which means smashing past ALL prepared obstacles, widening out the wedge thus created and fanning out in the rear of the WHOLE DEFENSIVE SYSTEM.

But that might happen any time, as it did in Normandy.

IN order to keep the situation clear in your mind, remember that the Siegfried line is shaped much like the "pully-bone" of a chicken.

Back of the fortifications we are attacking now is another line of forts ON THE RHINE. We'll have to crack the second line when we get through the first.

UNLESS—The British should crash through at Nijmegen and Arrhen and CIRCLE THE END above where the pully-bones come together.

They still hold their threatening position there.

AT Metz, farther south, American TANKDOZERS (trucks with a bulldozing blade ahead) are rumbling forward, crushing Germans in the ruins of their pillboxes.

Our boys are spurring the underground fortifications full of crude oil, setting fire to it and ROASTING the trapped nazis.

That gives an idea of the kind of fighting the Germans are up against.

IT looks as if the Russians are opening up on Hungary in earnest, driving in from three directions. (Hungary is ripe and ready to be plucked, but is still frightened by goy German threats.)

Taking Hungary will close off ALL the Balkans.

Most of Poland is gone already. Finland is through as a German satellite. Sweden is getting eager by the day as the threat of German reprisal grows less.

The loss of Normandy and Denmark is only a question of time. Italy's fall is nearing.

THE time is drastically close when the nazis will be driven clear back to their own borders and compelled to live off their own fat.

They KNOW IT. Hence the talk of taking to the brush and fighting to the death as guerrillas—which is doubtless only a blind for their real last-ditch purpose to flee by plane, some dark night and leave the mess behind.

HERE on the Pacific coast, where our chief interest in the European war is to get it out of the way so we can get ahead

LIMITED BARGAIN OFFER

By Charles V. Stanton

WE are announcing today our 1944 bargain offer to News-Review subscribers. We regret that it is necessary this year to impose certain limitations. Heretofore, we have offered inducements to new subscribers, but are prevented by existing regulations from doing so this year.

As everyone doubtless knows, newspapers have been greatly restricted in the amount of paper they are permitted to use. Drastic cuts in newsprint have been made from time to time. A still further reduction, particularly affecting small newspapers, was made October 1, and the News-Review will have less paper in the last quarter of this year than was obtainable previously.

This situation is partially our own fault. Because there has been an increasing shortage of newsprint, we have used every possible conservation measure. We restyled our newspaper to permit a greater amount of reading matter without utilizing additional space. We eliminated all unessential features and reduced our newsprint consumption as efficiently as we could.

We expect to have ample supplies to carry on a normal business and to continue to furnish you a lively newspaper. We may be forced to do some "squeezing" but we propose to maintain as high standards of service for our readers and our advertisers as in the past.

But, because we are so closely restricted on newsprint, we find it impossible to offer any special inducement to new subscribers. We regret this situation. We are proud of the News-Review. We believe we have an excellent daily newspaper. We think it should be in every home. It is our earnest desire to have every family in Douglas county on our subscription list.

But we can't do that this year. For several months we have been refusing to accept subscriptions from outside the state of Oregon. Starting the first of the month, we stopped taking subscriptions from outside Douglas county. These restrictions do not apply to personnel in the military services, as the men and women in uniform will get their newspapers from home just as long as we can stay in business.

On the other hand, we have subscribers who have been loyal patrons of the News-Review year-after-year. Some of them have been subscribers nearly as long as this publication has been in existence. Great numbers of these regular subscribers have enjoyed our annual bargain rates.

Consequently, from October 9 to 23, inclusive, we will accept RENEWAL subscriptions at the bargain rates, which will be found advertised elsewhere in today's paper. These rates apply only to those persons who are now subscribers.

We regret the necessity of this limitation. It isn't that we don't want new business. But we are faced by regulations which make it impossible for us to increase our existing circulation by any appreciable amount.

with our REAL war, we are interested in Washington dispatches indicating that Admiral King himself is apparently getting ready to devote a lot of his time to the Pacific war.

THE war in the Pacific, in the comparatively minor way in which it has had to be waged while we are kicking Hitler, is going well EXCEPT IN CHINA. As to which a recent dispatch says: "American warplanes, crowded into their ONLY REMAINING AIRBASE in south China, are maintaining a constant attack on THREATENING Jap columns."

ON the home political front, Dewey forecasts a 300 BILLION dollar debt at the end of the year and says that to support such a debt we must keep business more active than ever before, for only out of huge business volume can we get the huge volume of taxes that will be needed.

Remember that after the war the INTEREST BURDEN alone will be greater than the entire pre-New Deal cost of federal government. That will create a problem. Most of Oregon's cities and counties are quite familiar with this problem. For years roughly HALF of the taxes we've paid

OUT OUR WAY

Cardinals Win Second Tilt of Series, 3 to 2

Relief Hurler Donnelly Saves Thrilling Game, Which Goes 11 Innings

ST. LOUIS, Oct. 6 (AP)—Encouraged by the phenomenal blitzing of young "Blix" Donnelly, manager Southworth of the Cardinals put the finger on another freshman right-hander today when he named Teddy Wilks to oppose 26-year-old Jack Kramer of the Browns in the third game of the world series that is knotted at one game each.

Southworth gambled heavily yesterday and won on Donnelly, a minor league no-hit maestro who had a mediocre 2-1 victory record all season. It was the fourth relief innings the rookie threw, and a catlike play on a last-inning bunt that were largely responsible for the red birds' 3-2 triumph in the 11-frame no-wringer.

When the Browns' defense cracked wide open in the third and fourth innings, it looked like "no contest" but Stephens' over-the-head catch on Kurowski's foul line fly to start an eighth-inning double play was out of this world.

O'Dea actually won the game for the National leaguers from pitcher Bob Muncrief with his pinch single in the 11th scoring Sanders who had singled and been bunted over to second by Kurowski but you never would know it today. Donnelly, a 29-year-oldster who was making his second major league appearance in 103 days, was the No. 1 attraction.

Brown's Error Costly Before Donnelly came on the scene, the Cards had hopped into the lead in the third when Pithers' Nels Potter tumbled Lamer's pop bunt and threw wild past first for two errors after Goyhan had singled. That set the stage for Verban to score on Bergame's infield out. Again in the fourth the red birds rang the bell when they loaded the bases on Sanders' walk, Kurowski's single and an error by Christian on Marion's hopper. Sanders came in on Verban's fly.

Lamer had allowed only three hits in nine innings until the seventh when he was hit by Verban's lead-off single. Bergame's pinch single scored Hayworth after the catcher had converted Moore's second one-bagger with a double.

Donnelly replaced Lamer after Kurowski opened the eighth with a double and he struck out the side, picked up another victim in the ninth, two in the tenth and made it seven by whiffing Hayworth in the eleventh inning. McQuinn had opened the Browns' 14th with a double but was cut down at third when Donnelly hopped on Christian's bunt and fanned a throw to Kurowski, nipping the opening game hero in a photo finish. That probably meant the ball game as the next man Moore, flied to deep right.

rine corps combat correspondent. PFC Skinner, who participated in the battle for Saipan, returned to the bivouac area carrying a red walking cane, wearing a battered Panama hat and a varicolored grass skirt, and bedecked with numerous other souvenirs of battle.

As a result of his appearance, he promptly was given the title of Mayor of Saipan, which appears to have become a permanent title.

Northwestern Turkey Growers Name Officers SALT LAKE CITY, Oct. 6 (AP)—Murray Howarth of Orange Grove, Cal., was named president of the Northwestern Turkey Growers' association at the close of a three-day convention. He succeeds Glen C. Biddleman of Kinsley, Kas.

Other new officers include H. V. Cutler, Denver, first vice-president; and J. C. Leedy, Brooks, Colo., third vice-president.

Gas Coupons Stolen PORTLAND, Oct. 5 (AP)—Ration stamps good for 1700 gallons of gasoline were stolen from an oil truck at Portland yesterday.

Baptist Radio Program For Sunday Canceled Because of network commitments to broadcast the World Series. Sunday, Roseburg Radio Station KRRR will not be able to furnish time for the usual Sunday morning program from the Baptist church. It was an honor and privilege for the Rev. M. S. Senter, pastor of the church, in providing listeners to attend the morning service in person. Pvt. L. E. Skinner Now Dubbed "Mayor of Saipan" Leonard E. Skinner, son of Mr. and Mrs. R. L. Skinner, Myrtle Creek, has been dubbed "Mayor of Saipan" by his marine corps buddies according to a report by Sgt. Alvin Branson, a

DIAL LOG Double or Nothing at 6:30 tonight comes from Pawling, the home of Lowell Thomas, our famous news commentator—and so he will act as assistant emcee. There is an Army Air Force convalescent center located there and the quiz show journeys up to entertain them—so Lowell Thomas will pose a special set of questions on news of the day. Of course you'll hear him again at 7:15—that's when he gives you all the answers to your questions as to what's been happening in the world today. Eight o'clock—and it's time to draw up the easy chair and enjoy the blood and gore of the big top-round welterweight bout between Rocky Graziano and Danny Kapilow—or aren't welterweight bouts gory? Frankly we don't know much about it. Anyway this fight is to be broadcast from St. Nicholas Arena—and Steve Ellis and Tom Slater will be on hand to do the broadcasting, since the team of Dunphy and Corum will still be in St. Louis at the ball game. We have been having an awful time trying to decide whether we'd be having a ball game on Sunday or not—but the Thursday game has finally ended and now we know for sure that we'll be playing ball again at 11:45 come Sunday.

THE OLD JUDGE SAYS... "It sounds almost like a miracle, Judge... how did we ever do it?" "The American industry did it, Sally. When the Japs conquered the chief natural rubber producing centers of the world they thought they had dealt a death blow to our war effort. But, in less than two years, we are producing enough synthetic rubber in this country to supply all our military and essential civilian requirements. "Our rubber experts knew how to make it but the most practical process at the time required huge amounts of industrial alcohol... far beyond the already over-

taxed capacity of our industrial alcohol plants. So, overnight, our country's beverage distillers stopped making whiskey and produced hundreds of millions of gallons of the vitally needed alcohol. "As a matter of fact, Sally, a high government official said recently "...synthetic rubber is from 6 to 9 months ahead of where it could have been if alcohol had not been available for butadiene production." "We were really fortunate, weren't we Judge, to have a beverage distilling industry in existence... able to help perform this great wartime miracle!"
