

### Dorothy L. Moore Tells Lions Club Of Softball Wins

Dorothy L. Moore, physical education instructor at the Roseburg senior high school, was guest speaker last night at the Roseburg Lions club dinner meeting held in the new banquet room of the Rainbow grille.

Miss Moore, who recently returned from Cleveland, Ohio, after participating as catcher with a softball team from Oregon which won the world championship softball title, gave a fascinating account of the experiences of herself and teammates. After winning over all opposition in Oregon and the northwest and taking the regional softball title in eight rugged games in Seattle, Miss Moore told club members how twelve girls set out for the east in two station wagons to participate in the national softball tournament.

She related the team's experiences in crossing the continent and how the Oregon players, who were unknown in the east, were ignored and denied any publicity by eastern sports writers until after their team had won three straight games in the national tournament.

Miss Moore discussed each game played and told of the reactions of her teammates as they progressed in the finals by defeating great softball teams from Oklahoma, Denver, Omaha, Connecticut and Arizona. She expressed her fondness for the northwest and stated that her greatest desire was to return to her home state after her team had won the world's championship.

Dr. W. Bruce Tuck and Carl Felker were introduced as new members of the Lions club and presented with pins by Tail-Twister Joseph Wikoff.

Lion Earl Henry, chairman of the safety patrol committee, reported that as soon as equipment is available, student safety patrols would be in operation at all of the Roseburg schools.

tween Russia and Poland "which go deep into history."

"At their only meeting," he declared, "neither our secretary of state nor the under-secretary was present. Instead, Mr. Roosevelt took along Mr. Harry Hopkins, who acquired his training in foreign affairs in running the WPA. But because of the secret nature of the meeting, American public opinion has been silenced by the fear that some delicate negotiation might be embarrassed."

Dewey asserted that the alliance agreement under which Romania quit the war as an axis country last Sept. 12 was signed for the United States by a Russian representative.

"This was no military armistice," the candidate declared. "That agreement fixed the future frontiers of Romania. It disposed of Bessarabia and Transylvania, two of the worst trouble spots of Europe. It dealt with economic matters."

Dewey said that the day after it was signed, Secretary of State Hull declined comment "on the ground that the terms had not been received from Moscow in time for study."

Italy Said Neglected

The republican nominee quoted a vice president of the International Ladies' garment Workers union as reporting on his return from Italy that there was "mass unemployment, hunger, despair, degradation, delinquency and painful disappointment" there because the allies have not "helped the Italian people to help themselves."

"The Italian people deserve something better than the impoverished, inefficient administration which personal new deal government is giving them," he said.

Plan For Germany Pleases

Dewey interpolated at this point "just an hour ago, I was happy to learn that allied headquarters had announced a program for the occupation of Germany."

Supreme headquarters, allied expeditionary forces, announced that extermination of nazism and stern but just treatment for Germans generally were the terms of military law being imposed in German territory as it is wrested from Hitler's army.

Dewey asserted that "the unfortunate consequences of Mr. Roosevelt's personal antipathy for General (Charles) DeGaulle are too well known." He said the United States first had backed Admiral Darlan and then General Giraud.

"Mr. Roosevelt's persistent re-

fusal to grant recognition to the DeGaulle government of France is contributing to the increasing chaos behind our lines at a critical period of the war," he said. "The result is today," he declared, "that no one knows what our foreign policy is with respect to Poland, France, Germany, Romania and other countries of Europe, or to that matter, South America or China. We have no hint of what commitments may have been made and American opinion is stifled and ineffective."
