

# RHS Indians Down Junction City, 24-0

## Art Pollard Sparkplug of Local Eleven

### Victors Score in Every Period, Showing Great Improvement in Form

Running, passing and kicking. Art Pollard, halfback, led the Roseburg Indians to a 24 to 0 victory over the Junction City Tigers on Finlay field here last night. The Indians scored one touchdown in each period, but failed in all conversion attempts.

The Tigers found the Roseburg forward wall impenetrable on defense, while on offensive plays wide holes were open for the Indian ball carriers.

Junction City received the opening kickoff, but failed to gain and kicked out to the Roseburg 35-yard stripe, where the Indians opened a march down the field mixing one pass, Pollard to Harrison, for 15 yards, with smash-through the line to the Junction City 11-yard stripe from which point Pollard scored the first touchdown 10 minutes after the opening whistle.

Near the close of the second period, following Pollard's interception of Nelson's attempted pass to Bennett on the Indians' 44-yard line, the Indians marched to the Junction City 37, where Pollard took the ball on a reverse from Harrison and passed to Jones in the Tigers' end zone.

The Tigers had a bad break in opening the second half when Bennett's kick went out of bounds on the Roseburg 38 and the Indians marched down the field with Pollard tossing a pass from the 24-yard line to Harrison who ran 18 yards to score.

Pollard scored the final touchdown when he intercepted Nelson's attempted pass to Lyons and ran 35 yards to the goal line. Indians greatly improved.

The Indians showed vast improvement in all departments of the game, but particularly in defensive line play and in downfield blocking. The pass defense was also greatly improved. Junction City's backfield was unable to find openings in the Roseburg line and gained very little net yardage until in the fourth period when Coach Mel Ingram sent in nearly all of his sophomore substitutes. Nelson and Bennett were outstanding in the Tiger backfield, carrying the brunt of offensive play throughout the entire game.

The contest was witnessed by a crowd which filled the grandstand and bleachers almost to capacity. The game was sponsored by the Roseburg Kiwanis club, which attended in a body and occupied a reserved section. Each of the civic clubs of the city is sponsoring attendance at home games.

Elated by their victory, the Indians carried Coach Ingram off the field and upon reaching the shower room proceeded to "dunk" the managers.

The Indians will play at Springfield, Oct. 27. The next home game will be played against Ashland Nov. 3.

ly shallow, particularly at the bar. It has been contended by some of the residents of the harbor area that the present arrangement of the jetties produces eddies inside the harbor and that the desired scouring action on the bar cannot be produced until a new south jetty is constructed paralleling the current inside the jetties at almost a right angle as at present.

## Softball Queens Please Roseburg Fans With Skill

Sports fans took much pleasure Friday in demonstrations given by members of the Lind and Pomeroy Forest softball team.

The Tigress found the Roseburg forward wall impenetrable on defense, while on offensive plays wide holes were open for the Indian ball carriers.

Junction City received the opening kickoff, but failed to gain and kicked out to the Roseburg 35-yard stripe, where the Indians opened a march down the field mixing one pass, Pollard to Harrison, for 15 yards, with smash-through the line to the Junction City 11-yard stripe from which point Pollard scored the first touchdown 10 minutes after the opening whistle.

presidential nominee, stood committed. These included:

1. A guarantee of "free collective bargaining through the national labor relations act and with freedom from government dictation."
2. The proposition "that Americans can and must have both economic security and personal freedom."
3. The appointment of "an active, able secretary of labor from the ranks of labor."
4. The abolition of "wasteful, quarrelsome and competing agencies which are strangling collective bargaining."
5. Establishment of the fair employment practices committee as permanent agency.
6. A pledge to "put back into the department of labor the functions that belong in the department of labor."
7. A promise to "do away with special privilege for one group of American workers over another group."
8. A declaration that the department of labor shall exist "not to rule the working men and women of America."
9. A pledge that a new republican administration would move to include under the old age pension and survivors insurance provisions of the social security act 20 million persons not now covered.
10. We shall work to widen the provisions of unemployment insurance to include the groups not now protected," he said.

## Umpqua River Harbor Slated for Improvement

(Continued from page 1)

a suitable channel to serve the Port of Umpqua. Should the need arise for construction of auxiliary works to assist in maintaining a channel of sufficient depth for handling ocean-going traffic, the department will take appropriate action."

Cordon states he will continue to keep in close touch with the project and will confer with the army engineers, when necessary, to assure completion of improvements necessary to maintain satisfactory facilities.

Channel Gets Shallow  
The Umpqua harbor project has recently been receiving much attention because of the fact that the channel, projected for a depth of 26 feet, has become dangerous.

Invasion of Leyte Is Extended by Americans  
(Continued from page 1)

position just below Canebato bay at Palo.

There, Fred Hampson, Associated Press war correspondent, saw four of the landing ships and several smaller craft blown up by Japanese shore guns.

For several hours it was tough and go with the Yankees jumping high-deep into the waters and sloshing ashore through a hail of machinegun bullets while shells of the foe sent up geysers of water.

"Our ground forces are consolidating their beachhead positions and driving inland on all sectors," read today's communique which MacArthur issued shortly after he had stood in a truck, drenched by rain, before a hand microphone and urged the Filipinos to rise and strike blows to speed their hour of deliverance.

"Food and supplies have been landed on schedule against light opposition."

"Our ground casualties in the preliminary operation have been exceedingly light," the communique said.

MacArthur, whose losing fight in 1942 was waged with a courage but incomparably supplied garrison, deprived in the end of all air and naval cover, brought back to the Philippines the greatest mass of men, planes, warships and tanks ever assembled in the Pacific.

Murfin Spencer, Associated Press war correspondent, said the 600-ship convoy carried at least as many as, and perhaps more than, the number of men landed on D-day in Normandy.

Inasmuch as Prime Minister Winston Churchill has disclosed that nearly 250,000 men landed in France the first day, such a sizable force for the Philippines operation might well suggest that even greater operations, with more landings on other islands, are in the offing against the estimated 225,000 Japanese defending the Philippines.

Every report from the invasion scene, while varying in the degree of opposition detailed, placed the Yanks on the move.

On the south end of Canebato bay, Asahel Bush, Associated Press war correspondent, said the town of San Jose was in ruins as a result of the devastating bombardment from warships in Leyte gulf which included the battleship California—the one the Japanese thought they sank at Pearl Harbor.

Bush said "what once was San Jose" was on the point of falling. It is on the inland road to Tulehan, capital of Leyte, on the opposite end of the bay.

Both MacArthur and Adm. Nimitz reported widespread destruction of enemy planes—pushing beyond 1,300 the total wiped out since Oct. 9 in the air offensive building up to the invasion and more blows at Japanese shipping.

Both MacArthur and Adm. Nimitz reported widespread destruction of enemy planes—pushing beyond 1,300 the total wiped out since Oct. 9 in the air offensive building up to the invasion and more blows at Japanese shipping.

The three gas tanks were the center of a Roman candle display as balls of fire shot into the air. Manhole covers and debris hurtled to the height of four-story buildings when nearby gas mains added their explosions to the inferno.

More than 50 private and service ambulances sped between the disaster scene and Cleveland hospitals which had been placed on an emergency basis. Red Cross refugee centers were set up in nearby schools, the army supplied cots and thousands of homeless

British patrols closed in on the Greek town of Lamia, 100 miles northwest of Athens, and the Germans were believed to have withdrawn from the town, which is 65 miles from Thebes, already in allied hands.

## Churchill, Stalin Harmonious In Peace "Progress"

MOSCOW, Oct. 21—(AP)—Moscow's press gave the Churchill-Stalin negotiations profuse praise today, vividly mirroring the good which official Russia believes resulted from the discussions of the two leaders.

Editorials said differences still existed between Great Britain and the Soviet Union on certain European questions but asserted the road appeared clear towards framing a firm hard peace.

A joint communique summing up the 10-day meeting said the two leaders made "important progress" toward settling the Polish dispute, reached an agreement on remaining points in the Bulgarian armistice terms and that their governments have decided to pursue a joint policy in Yugoslavia.

Agreements at the conference were said to have the full approval of the United States government, represented by Ambassador W. Averell Harriman.

Secret Report on Pearl Harbor Attack Assailed  
(Continued from page 1)

ned "Its report has been submitted. It is not clear if it places the responsibility for the Pearl Harbor catastrophe.

"The secretary of the navy raises the question of secrecy.

"This inconsistent and dilatory procedure is hard to understand.

"It is unjust to Admiral Kimmel.

"He is entitled to hear the verdict of the court promptly."

F. D. R. "Knows Nothing"

Subject of much political debate, including assertions by Rep. Maas (R-Minn.) that it was being withheld for political reasons, the report was delivered to Forrestal yesterday, labeled in part as "top secret"—highest naval security classification.

Forrestal immediately notified the court of inquiry which prepared the report that he would ask King to determine how much of its findings might endanger national security if disclosed.

His action came only a few hours after President Roosevelt, saying he knew nothing about it, declined to discuss Maas' comments that the court's report was being delayed because it would be "politically embarrassing to the administration."

Maas has declared that "high officials of the government, civilian and military knew six hours before the attack that Pearl Harbor and the Philippines were to be attacked."

Both Kimmel and Short, top navy and army commanders in the Pacific at that time, were recalled shortly after the Dec. 7, 1941, attack.

Russians Now Aim for Capital of Hungary  
(Continued from page 1)

tives seized in the liberation of Belgrade swelled toward 10,000 as the Russians and Yugoslavs moved up every corner of the broken city, digging storm troops from cellars and attics of blasted buildings. Large numbers of enemy troops were seized along the Danube and Sava, where they had run in desperation before the wildly celebrating troops of Tito.

A great amount of German equipment including tanks and self-propelled guns fell to the conquering Yugoslav-Russian armies after nearly a week of fiery street fighting in the city.

Meanwhile, Marshal Stalin also has announced the capture of Hungary's third city—Debrecen—a conquest that broke the back of German resistance in eastern Hungary after prolonged and furious armored battle estimated to have cost the Germans and Russians a total of 1,000 tanks.

Official Russian silence still enveloped the East Prussian front. But this was not a source of surprise here, for when the news finally is released it is expected to be as sensational as the announcement of the Romanian drive in August.

(Berlin announced last night that Red army troops had penetrated 12 miles inside East Prussia on an 80-mile front. The Germans also said the Russians in Hungary had rolled 30 miles beyond Debrecen.)

The Fourth Ukrainian army was pouring down the Ruthenian highlands for a concentrated drive with the right wing of the second Ukrainian army in an arc north of Budapest calculated to slice in half the German line between central Hungary and southern Slovakia.

Both MacArthur and Adm. Nimitz reported widespread destruction of enemy planes—pushing beyond 1,300 the total wiped out since Oct. 9 in the air offensive building up to the invasion and more blows at Japanese shipping.
