Manthel, of Princeton, Wis., surrounded by a "sea" of his wares somewhere aboard the combat cutter in the Atlantic, pauses in the midst of baking Thanksgiving pies to sample one of his culinary masterpieces. Postwar Security Uncertainty May Slow Ship Output

A CIO leader predicted today a "serious lag" in building needed ships unless shipyard workers win a "feeling of security."

The workers, particularly on the west coast, are quitting to secure "jobs which would give them soon greater degree of postwar security," said President John Green of the CIO shipbuilders.

In a plea to the War Labor board's shipbuilding commission, Green said "certainly severance pay, based on length of service, would tend to give the workers a feeling of security and keep them in the industry."

"What are we going to eat after the terminations begin in the industry?" Green asked. "Unemployment insurance? It would barely just begin to pay the rent."

The hearing specifically involved approximately 500,000 workers at about 50 east coast yards but Green spoke for ship workers on the gulf and Pacific coasts as well. WLB removed the question of any general pay increase from consideration by the commission, reserving this until such time as the nation's wage stabilization policy may be changed.

AFL spokesmen decided to remain away from the hearing. They contended a general pay increase was the "real issue" and termed the CIO-sponsored collateral wage demands extraneous.

It is expected eight or more prospective officials will take the tests, Monger reports.

"LIKE TO SWAP NIGHT CLUBS, PAL?"

"Sorry, chum—no ringside seats. You sit in the mud, see?"

"You got a floor show of lizards and mosquitoes crawling over your face."

"You got a nice little 4-piece orchestra of Jap mortars, Zeros, machine guns, and your best friend screaming in the next foxhole."

"Come any time, pal. The show goes on all night. For a long time. There's never a cover charge. Not even for the flag they put over you when they carry you out."

We're all human.

We all like to go dancing or see a show or

buy an extra suit or dress occasionally. But this war still has a long way to go. There are still 75 million Japs who don't believe in surrendering.

So during this 6th War Loan, how about putting all that luxury money into something a little more permanent—an extra \$100 War Bond at least—to help get this thing really over and bring those boys of ours home?

It'll hurt. But not as much as the Jap bayonet in your neighbor's stomach. You get something back—in ten years —\$4 for every \$3 invested. He doesn't.
