Highest temp. for any Dec. 70; Lowest temp. for any Dec. 50; Highest temp. yesterday 59; Lowest temp. last night 44; Precipitation yesterday .0; Precipitation from Dec. 1 .19; Deficit from Dec. 1 .88; Deficit from Sept. 1, 1944 2.78.

In the Day's News

(Continued from page 1)

Their army which recently crossed the Danube south of Budapest is making the best progress. It seems to have found a soft spot.

IN the Pacific our Saipan-based B-29s raid Tokyo for the fourth time in ten days.

A Saipan dispatch says: "Despite long distances, B-29s from Saipan and China are hitting the Jap home islands with GREATER FREQUENCY and BIGGER BOMBLOADS than in the opening of our air campaign against Germany."

THE fourth raid was the TOUGHEST yet, with heavier Jap anti-aircraft and fighter opposition, but its results are described as the best yet. (We're learning by experience.)

THE prime target of this raid, as of the others, is a big Jap aircraft plant. We're beginning in earnest to SMASH THE NESTS in which Jap planes are hatched.

THERE is a worried note from Koino (as heard on the Tokyo radio). More MUNITIONS OUTPUT, he says, is Japan's most urgent need. He says the Philippines are VITAL and the enemy there (meaning us) MUST be CRUSHED.

ADDDING to Koino's worries, our submarines sink 20 more Jap ships, bringing their total bag since Pearl Harbor to 874. In the Pacific war, nothing can be more important right now than sinking Jap ships.

ANY time these days we're in danger of becoming complacent about the Pacific. We need only to turn to China, where the news is uniformly bad. The Japs are less than 75 miles from Kwoiyang, on the upper Burma road (we have an important airbase at Kwoiyang). Chungking is roughly 200 miles north of Kwoiyang. Our China B-29 base is approximately 150 miles northwest of Chungking.

In an effort to better our China position, we've QUADRUPLED the tonnage of our transport planes carrying supplies over the hump from India.

THERE is another political shakeup in China.

T. V. Soong, succeeding his brother-in-law H. H. Kung, becomes premier of the Chungking government, permitting (it is reported) to concentrate on his commander-in-chief job.

The Soong, the Kung and the Chiang families are all moved up in China's Chungking government.

THESE frequent shakeups sound like an indication of Chungking's realization of the seriousness of the situation. An interesting censored slant is the statement that Soong is supposed to be more sympathetic to the Chinese communists. One can't help guessing that the communist situation is the sore spot in

REMEMBER PEARL HARBOR

By Charles V. Stanton

THREE years ago today this nation was shaken as never before in its history, when news blared through our loud speakers and was spread upon our newspapers that the Japs in a sneak attack had blasted Pearl Harbor, our vital Hawaiian naval base. We were staggered by that blow. We were left groggy by the solar plexus punch. But we came up fighting.

Today we commemorate that tragedy. We envision again torn, sinking ships that a few moments before had been proud warriors of the sea. We remember again the rows upon rows of aircraft that died upon the ground, raked with incendiary bullets. We picture anew waters aflame with blazing oil, through which crippled vessels churned out to sea to escape the hail of destruction rained from the sky in the surprise assault. Most of all we recall with mingled sorrow and pride the thousands of brave, gallant men who gave their lives in that hopeless struggle, three years ago today.

Remember Pearl Harbor? How can we forget it! How can we forget the treachery of our enemy? How can we forget the betrayal that cost us so dearly in men, ships and planes?

THE story of Pearl Harbor still remains a secret. For some reason the American public has been denied the facts. We are informed the story cannot be told because it involves military security.

Army and navy boards of inquiry just recently issued a report stating it found errors of judgment in both Washington and Hawaii, but discovered no grounds for court-martial proceedings.

This latest report does not conform to the findings of the commission, appointed by the President immediately after the disaster and headed by Supreme Court Justice Owen J. Roberts, which declared there was "dereliction of duty" by the army and navy commanders at Pearl Harbor.

If, as the army and navy boards report, there are no grounds for court-martial, why are not Rear Admiral Kimmel and Major General Short, who were relieved of command at Pearl Harbor, returned to active service?

It is apparent that something "smells" in the matter of responsibility for that tragedy, and the odor cannot be destroyed by any amount of "whitewash." The American public will never be satisfied until it is told the truth—all the truth—and is permitted to act as its own jury.

But there are more immediate and pressing problems than determination of past "errors of judgment." One of those problems is to see that the sneak attack on Pearl Harbor is properly avenged and that its perpetrators are finally and decisively beaten and that they, thereafter, are kept in bonds which will prevent any future acts of aggression.

THERE were Douglas county boys at Pearl Harbor. Delbert Barnes paid the supreme sacrifice. Jack Gibbs, air force officer, fought back helplessly from the ground amid the wreckage of planes blazing from incendiary bullets. Joe Brumbach downed a Jap plane with a machine gun cradled in his arms. Clint Gorthy, a civilian employe, won a citation for his bravery in rescue work. And there were others.

All of us cannot bear arms against the Japanese. We must leave that task to the young, brave heroes who have fought the bestial enemy back through stinking jungle and who today can see the glorious dawning of victory. Spearheading that advance are our own boys—the boys of the 41st division who have been in combat zone longer than any troops in our nation's history. They are most feared, most successful, most efficient.

But, although we can't bear arms, we can help to avenge Pearl Harbor. We can invest those idle dollars in war bonds to help speed the day of victory and the return of our boys who have been too long away from home.

Remember Pearl Harbor! Buy a Bond today!

China's affairs.

OUTSIDE the shooting war, the weekend's most interesting development is a bloody tussle that has broken out in Greece.

It started Sunday, when LEFTISTS clashed in Athens with the British-sponsored Greek police. There were 21 deaths and 140 injuries (as so far reported). Monday a general strike was ordered (presumably by the leftists), and more or less all services in Athens, including unloading of food-relief ships, seem to be paralyzed.

Martial law has been declared. BRITISH tanks and armed parachute troops are patrolling the streets. British and Greek (government) planes are circling low over the city.

AS in all these heavily-censored POLITICAL warfare developments, we have to do a lot of guessing as to what is back of it all.

So here goes: The British (whose policy requires a "sphere of influence" in Greece) are backing the Greek government, which is a carry-over from the pre-war monarchy.

The "leftists" (known in Greece as the EAM) are outsiders who want in. They appear to be communist-minded.

There are slants in the news that help to guide us in our guesswork.

The EAM battery in the ruckus is said to have been: "Beans, lentils, but NO KING only democracy!" Demonstrators in Athens parade past the British embassy carrying placards read-

those who know are telling us little.

Anyway, it is becoming obvious that Europe isn't going to be all sweetness and light the day after the war ends.

GRAY HAIR? Restores Color Naturally

Grayvita Vitamins WORK—Restores Color Naturally. Yes, you can't see the color over have reported GRAYVITA WORK, and that their gray hair is returning to its natural color. GRAYVITA Vitamins contain the same amount of "anti-gray hair vitamins" (Over 600 hair units) as are found in a leading hair-restoring preparation. Of those tested, 84% had return of hair color. GRAYVITA Vitamins are non-toxic, can't harm your "hair-restoring" 30 day supply, \$1.50; 100 days, \$4.00.

November Sales Of O. & C. Timber Post New Record

O and C timber sales made in November by the General Land Office of the department of the interior broke all sales records for timber value in a single month, according to W. H. Horning, chief forester for the O. & C. administration.

November sales included 37 separate tracts of timber carrying an estimated total volume of 117,651,700 board feet valued at \$547,325.55.

These 37 timber tracts were located in eleven of the eighteen Oregon counties having O. & C. re-vested railroad lands within their boundaries. Those involved included Benton, Clackamas, Columbia, Coos, Douglas, Jackson, Josephine, Klamath, Lane, Linn and Polk counties.

All five of the O. & C. administrative districts were represented, including field offices at Salem, Eugene, Roseburg, Coos Bay and Medford.

Thirty of the 110 sustained yield operating areas were represented. Each of these has a capacity to sustain an average sized Oregon sawmill on a continuous lumber production basis. The disposition of timber on each tract was based on the timber-producing capacity of the local operating area. Thus perpetual production of timber at a stabilized rate is accomplished on the re-vested grant lands.

Mr. Horning states that sustained yield cutting of timber on O. & C. lands is not only a limit which must not be exceeded; it also is the amount which must be

produced to supply the needs of local industry. He points out that a steady flow of timber to market must continue permanently. To workers, that means steady employment. To the counties which receive 50 per cent of the earnings in place of taxes, it means a secure source of county income.

The bursting of an inflated paper bag raises the average person's brain pressure four times higher than morphine or nitroglycerine, two of the world's most powerful drugs.

DO YOUR EARS "POP" WHEN YOU GO OVER the MOUNTAINS?

The same changes of altitude that hurt your ears affect your baking. It's a difference in air pressure. So—in order that people who live in the low altitude of the Pacific Slope can be sure of perfect baking results, Mary Mills has developed SEA LEVEL RECIPES Provided exclusively with Fisher's Blend Flour

FISHER'S BLEND FLOUR There's a folder of Sea Level Recipes in every sack of this famous flour. Fisher's Blend Flour and these recipes are not distributed nationally, so they do not have to be averaged out to fit general conditions—They are localized. Try this Sea Level Recipe.

MAHOGANY MOCHA CAKE... Mary Mills TESTED SEA-LEVEL RECIPE! A Mary Mills' recipe tested especially for Sea-Level baking with enriched Fisher's Blend Flour. 1/2 cup unsweetened cocoa 1/2 cup hot strong coffee 1/2 cup soft shortening 1/2 cups sugar 3 eggs 1 teaspoon vanilla 1/4 teaspoon maple flavoring 2 cups Enriched Fisher's Blend Flour 2 teaspoons double-acting or 4 teaspoons single-acting baking powder 1/2 teaspoon soda 1/2 teaspoon salt 1/2 cup milk or water Spread in two 9-inch layer pans, which have been greased, lined with waxed paper and greased again. Bake at 375° F. 25 to 30 minutes. Delicious with mocha, fudge, or seven-minute frosting. Ask your Grocer for Fisher's Blend Flour and bake by the Sea Level Recipes in every sack. "BLEND'S MAH FRIEND"
