Read How Firestone Factory-Method Recapping Gives New Life To Your Tires!

1. Original Inspection

Actual experience has dictated our inspection standards. They are designed to select only those tires that justify additional labor and material.

2. Buffing

Firestone's Dyna-Balance buffing equipment assures finished treaded tires which conform to the highest balance requirements.

3. Repairing

Rayon repair patches, together with special repair methods, combine to produce the highest quality repair work for broken or weakened areas.

4. Camelback

Firestone Grade A quality GRS Camelback is compounded with Firestone's exclusive ingredient, "Mutac," gives prewar retread mileage to passenger tires.

5. Curing

Firestone's treading cures are governed by strict specifications developed by Firestone Laboratories and controlled with precision equipment.

6. Final Inspection

Only those tires which conform to Firestone's high standards of quality are permitted to pass the strict final inspection.

7. Guaranteed Materials and Workmanship

8. Prompt Service

9. Famous Firestone Gear-Grip Tread on Any Make Tire

10. Grade A Quality Camelback

11. Factory Methods Used Exclusively

12. Extra Tread Depth for Greater Safety, Longer Mileage
