In the Day's News

(Continued from page 1)

think them out. Unbelievable mud stops everything on wheels, but we parachute supplies down to our troops from planes.

Nimitz, in a congratulatory message to the hard-fighting ground troops, says: "The battle of Okinawa will end in the next three or four days if we can maintain our present high speed maneuvers."

ADMIRAL MITSCHER, back in Washington, says the Jap suicide plane menace is not as bad as it sounds.

"In all the time I've been in the Pacific," he adds, "only 10% of them get through our defenses. Of this 10%, 90% are shot down. Only one per cent close in for the kill—and even that can be practically eliminated by redesigning of equipment aboard our ships."

He says it is actually just dive bombing except that they sacrifice a man with each plane. He concedes, however, that the suicide technique is more accurate than ordinary dive bombing.

THE Chinese say (perhaps significantly) that the Japs have been falling back on Canton for several weeks. Recent reports have asserted that they are tearing up their rail communications north of Canton. Presumably they plan a typical suicide stand there.

IN London Churchill, flatly contradicting DeGaulle, says the British DIDN'T stir up trouble in Syria.

He asserts: "We have absolutely NO ambitions of ANY kind in the Levant states. We are ready to withdraw ALL our troops there the moment a treaty is effected between the French and the Levant countries (Lebanon and Syria)."

When Churchill speaks squarely and without any qualification of his words, we have the feeling that we can believe him.

FROM the meeting of the allied military commanders (Russian, British, U. S. and French) in Berlin, we get some carefully worded hints as to what is to happen to Germany.

There will be four occupation zones—an "eastern" held by the Russians, a "northwestern" by the British, a "southwestern" by the United States and a "western" by the French. In addition, there will be an overriding Greater Berlin zone to be administered by an inter-allied governmental authority composed of representatives of each of the four powers. Each zone will have its own commander-in-chief, who will be supreme in his particular area, but the four will act jointly in matters concerning Germany as a whole.

GERMANY will be cut down to pre-Hitler size, with Austria and Czechoslovakia split off. Her ships and communications of all kinds will be turned over to allied control, her planes will be grounded and her war factories will be placed at allied disposal.

JAP papers please copy. That is EXACTLY what the Jap suicide "flight to the last cave and the last hole and the last Jap, know we're licked but go on fighting anyway" policy is leading to. Its results will be far worse than unconditional surrender.

WE mustn't, of course, put ourselves in the position of the

EFFICIENT MUDDLING

By Charles V. Stanton

Since announcement was made of OPA crackdowns on sugar users, the rationing office has been besieged by housewives, anxious to obtain quotas for canning. Limitations to ten pounds per person, recently announced, are not popularly received.

OPA muddling is being done most efficiently. It would not be possible, we believe, for any organization to get things so effectively tangled, as the OPA has done, without having planned it that way.

The meat situation is a good example. Even the OPA admits we have more meat on the hoof than ever before. We have an abundant supply of live animals to meet all military and civilian needs, plus lend-lease requirements, if the meat could be properly marketed.

We need price and rationing controls only when supply is less than demand. When supply is equal to demand there is no need for control. Judging from reports, we have reached an equality point in volume of meat on the hoof.

Here in Douglas county we have a normal annual lamb crop of approximately 50,000 head. In 1944 we had a slightly better than average crop, but, just at the time the lambs were starting to market, the OPA slapped on ration points, buyers quit the field, and farmers took heavy losses.

Lamb and mutton carries only a slightly lower point value than beef. The dollar and cents prices on various cuts are higher than beef.

Another problem is that of transportation. There are, we are informed, only three double-deck trucks in Douglas county suitable for transporting lambs in large quantities, and one of these is out of operation because of lack of tires.

The OPA, if it so desired, could fill empty meat markets with mutton and lamb almost over night by eliminating ration points and putting a floor under the price to the grower so he would have assurance needed to contract transportation.

But present indications are that most of our sheepmen must carry over a large number of lambs for another year, providing they can find feed, which offers another economically unsound condition, insofar as the government is concerned, for feeding costs are deductible items in farm income tax reports, and the government, along with the farmer, is losing revenue.

cowboy who laughed himself weak over the way the bull was going to look when he rubbed his nose in the dirt, but to our western minds the whole Jap suicide complex looks silly.

It makes a crazy kind of sense ONLY on the assumption that their leaders think there are TOO MANY JAPS anyway and that cutting down their number will help to solve future problems.

On that cold-blooded basis, there might be something to it. Japan's area (148,756 square miles) is about one and a half times Oregon's. Japan's population (estimated in 1938 at 72,222,700) is nearly 70 TIMES Oregon's.

Weatherly Brothers Meet by Chance on Two

REEDSPORT — Norman Weatherly, Scottsburg turkey raiser and president of the Port of Umpqua commission, reports that in a recent letter received from his two sons, PFC Henry Weatherly, 32nd U. S. Inf. 7th division, and Harry Weatherly, H. A. C. 1st class, First Marine division, they stated that they happened to meet on two Jims and spent two days together, May 18-19. Henry was at a rest station and Harry, learning of his whereabouts, got leave for the short visit.

Marries as "Favor," Returns His Allotments

CHICAGO, June 7 —(AP)—Back in 1941 when Mary Lou Marshall was 15, she told Superior Judge John A. Sbarbaro yesterday, she married an Iowa farm youth, Alvin Wasson, "as a favor."

Wasson, now 23 and a corporal stationed in Italy, had begged her to marry him to protect him from the advances of another woman who wanted to marry him, Mrs. Wasson told the court. She testified, in her petition for an annulment of their marriage, she had never lived with her husband.

Then she handed the court 18 allotment checks totaling \$900. "When Alvin went in the army I handed all his allotment checks," Mrs. Wasson told Judge Sbarbaro. "I didn't think that I was entitled to them."

A. Bottleson Funeral Is Dated at Dixon, Calif.

Funeral services for A. Bottleson, who died at Dixon, Calif., Tuesday, will be held Friday in that city, according to word received here by friends. Mr. Bottleson worked in the shipyards in Portland until just recently, when he and his wife moved to Dixon, where their son resides.

PORTLAND, June 6 —(AP)—Portland board No. 1 has denied the request of a woman for a ration of canning sugar for her baby. When the clerk asked the baby's name the woman replied with devastating feminine logic: "Oh, the baby isn't born yet; but I want to get my canning done before I go to the hospital."

Hotels, Cafes to Get Less Food In July, August

WASHINGTON, June 7 —(AP)—Hotels and restaurants will get less meats, fats, canned fruits, vegetables and sugar during July and August.

The reductions, soon to be announced by OPA, will be 20 per cent for meats and fats, 12 to 15 per cent for fruits and vegetables, and 20 to 25 per cent for sugar.

It was reported that OPA has received numerous complaints from housewives that public eating places have been receiving too much of the scarce food supply.

Civilians will be allotted about the same amount of meat for the July-September period as for the current quarter although total supplies are expected to be nine per cent smaller.

This was announced today by the War Food Administration in a statement showing how next quarter's supply will be divided.

Carrying out earlier official forecasts, the statement said that, due to the prospective reduced level of summer slaughter and to a lack of reserves, no meat will be allotted for lend-lease or foreign relief during the coming quarter.

Circus to Show in Roseburg Friday

Tomorrow is circus day—Russel Bros. Pan-Pacific circus day—but there is much activity today on the show grounds at Bellows field, where Dan Dix, the veteran 24-hour man, is getting everything ready for the arrival of the big show, which exhibits here at 3 and 8 p. m. Friday, June 8.

The ancient Greeks had an approximately correct idea of the size of the earth, and it is believed they had computed circumference within less than five per cent of error by 150 B. C.

Peacetime Draft Law Opposed By Education Heads

WASHINGTON, June 6 —(AP)—The spokesman for a large segment of American education cautioned today against "regimentation of the mind" he said would result from a peacetime draft law.

First of a group of opposition witnesses expected to be heard during the next three days, A. J. Brumbaugh, vice president of the American council on education, told the house postwar military policy committee.

The opposition of representatives of higher education to immediate action on conscription is due primarily to the fear of what universal military training will do in regimenting the minds of our youths.

"It is impossible to give only military training—the body cannot be regimented without comparable regimentation of the mind." For congress to act now on a peacetime draft program, Brumbaugh said, is to declare "in advance that we have no faith in collective security and international action" and to assert "that we believe that World War III is inevitable and that it will come soon."

DIAL-LOG

By SUSAN. We've been trying to hear the new "Smile Time" show at 7:15 in the morning, but, since early rising is not included in our good habits, we've missed it. However, on no less authority than Mr. Walters, who is up with the birds to get KRRN on the air at 6:30 each a. m., and quoting Mr. Chandler, our chief engineer, "It's corn, but cream style." Gib says it's good for a few good laughs if they believe that it is now wise to enact legislation requiring universal military service.

tonight, but don't think that throws him off his stride. Briefly, tonight's plot concerns five murders in different parts of the country and a weird scheme of espionage. And, we ask you, what more could any who-dunn-it fan ask of thirty minutes.

First Meet of Allied Council Ends "Abruptly"

LONDON, June 6 —(AP)—A hint that the site of the next "Big Three" parley already had been set was given commons today, as one report that the first meeting of the delegates to the allied control council in Berlin had "ended abruptly" created new anxiety here.

Gen. Eisenhower and Marshal Montgomery left soon after the Berlin meeting without attending a Russian banquet, saying they had to return to their headquarters.

The first brief Berlin meeting of U. S., British, Russian, and French delegates left unsettled details concerning the organization of the allied control council and how it will govern Germany.

Electrical Inspection Fees Report Corrected

Statements made concerning procedure in handling electrical inspection fees, in connection with city budget studies, are incorrect, Erwin Short, chief of police, who also serves as electrical inspector, reported today. Inspection fees are not retained by the inspector, he said, but are turned over to the city treasurer and a flat allowance of \$15 per month is paid from the general fund for the service.

S-T-R-E-T-C-H-I

S-T-R-E-T-C-H-I hint that the site of the next "Big Three" parley already had been set was given commons today, as one report that the first meeting of the delegates to the allied control council in Berlin had "ended abruptly" created new anxiety here.
