**A MOMENT'S CARELESSNESS . . .** *and millions of dollars in payrolls and thousands of happy days of sport go up in smoke!*

Our forests offer *more* than just payrolls and sport—although each acre of forest land provides more than 30 days of work in harvesting and processing the wood alone. They offer *more* than that! Forest products industries are the "heart" of prosperity in this area . . . a great natural resource that starts dollars rolling through grocery stores, banks, clothing stores and all community business. They are the original source of a great volume of taxes that support schools and government itself.

Our forests are a sacred heritage—yours, and all who live here. With this heritage goes the responsibility of *preservation.* Members of the industry are preventing and fighting fires—and they are growing new trees to replace those harvested. But your help is needed, too! Each of us must act as a good neighbor in preserving our mutual wealth.

**PASS THE WORD ALONG!** Warn all to be extremely careful of fire in the woods. Report every fire the moment you see it; (just call "operator"). These simple neighborly but important acts will *Keep Fire Out!*

Fish and game cannot survive in barren mountains; they thrive in our evergreen forests.

Wood products industries account for 60% of our economic wealth.
