(Continued from page 1)

wasn't as bad as we thought it might be than to expect the best and learn that it is WORSE than we had planned for.

If we have to fight the way clear through THE JAP WAY (digging every Jap out of every hole) it will last a long time and cost a lot.

THE Russians are beginning to admit American and British correspondents to Berlin. Eddy Gilmore, for the AP, paints a vivid picture of it for us.

Berlin, he says, is a hot desert of a hundred thousand dunes made up of bricks, stone and powdered masonry. It is worse ruined than London after the first blitz, or Warsaw or Stalingrad.

Standing in the city's center, Gilmore says, he couldn't see a building for TWO MILES where he could have set up an apple-selling stand.

JAP leaders please note. If they want NATIONAL SUICIDE, they will get it. Germany is the proof that we have the power to DESTROY JAPAN.

THE new Borneo landing is apparently an exclusive Australian show, except for the naval and air cover under which it was made.

It seems to be going pretty well. The Australians are reported to have BRACKETED the entrances to Brunei bay, the port outlet for all north Borneo's oil wealth.

Getting a firm grip on Borneo's oil would help GREATLY in reducing our supply problem in the Pacific war.

IT is beginning to seem probable that the Australians, the Dutch and the British will take over the fighting in the Dutch East Indies and MOST of southeast Asia, leaving us free to fight the Japs in China and the Jap homeland.

EISENHOWER and Montgomery have been awarded the Russian jeweled order of victory, the HIGHEST Russian decoration. They are the first non-Russians EVER to receive it. It has been awarded to only SEVEN Russians. It is studded with diamonds and rubies, and its physical value is placed at around \$12,000.

EISENHOWER (now in London, on his way back to this country) spoke recently at his headquarters at Frankfurt-on-Main, to high ranking leaders of the U. S., Britain and Russia, telling them: "Russia and THE ALIENS (meaning U. S. and Britain) are united in their desire for a lasting, firmly-based peace which will afford for the common men of all nations the opportunities that we fought to preserve for them."

He praised Marshal Zhukov, who in turn referred to Eisenhower as "belonging to the immortal great of all time."

JUST words, of course. But WORDS, if honestly spoken by sincere men of deeds, can help to

SCHOOL CONSOLIDATION

By Charles V. Stanton

Voters in the Roseburg and Edenbower school districts will decide Monday, June 18, whether the two districts should be consolidated. Judging from the lack of public discussion of this issue, it seems safe, at the present time, to assume that a very light vote will be cast. Yet this is a matter that should be of interest to every person who has the welfare of our schools at heart.

In our opinion, the consolidation should receive unanimous approval. It will be of benefit to both districts. At the same time, it will give pupils from Edenbower the educational advantages to be found in larger school systems.

Both districts are virtually free from debt, so the matter of one district assuming obligations of the other—an item which frequently enters into a consolidation issue—is not present. The Roseburg district, it is true, has an outstanding bond indebtedness of about \$50,000, but it has an equivalent amount of cash on hand in special funds earmarked for construction of a new school building and repairs to existing buildings.

The Roseburg district is planning to construct as soon as possible a new elementary school building on property recently purchased in Riverside. This building, when erected, will provide accommodations for the grade school pupils from Edenbower. It is hardly probable that the building will be authorized and built in time for occupancy this year, and plans are now being made to partition off extra classrooms in existing buildings to give needed space for anticipated growth.

If Edenbower should elect to continue a separate school system, it will be necessary for that district to enlarge its facilities, employ two more instructors and add considerably to the year's budget, approximately doubling the cost to the taxpayers.

Consolidation under these circumstances appears desirable from every standpoint, but we should have an expression of opinion by a majority of the voters in each district.

The election in Roseburg will be held at the Junior High school building from 2 to 7 p. m. Monday. In addition to voting upon the matter of consolidating with Edenbower, Roseburg voters will be electing a director. The term of A. J. (Bud) Ellison is expiring and he has been nominated for reelection. He is the only candidate regularly nominated. He has served most efficiently for two years as chairman of the board, giving a great deal of time and attention to school affairs, and is to be commended for the efficient leadership he has provided.

Edenbower voters will cast their ballots at the Edenbower school. In addition to voting for or against consolidation, they will be confronted with two budget forms, one to be adopted if consolidation is approved, the other a budget in excess of the six per cent limitation to be put into effect if consolidation fails.

It is necessary that voters in both Roseburg and Edenbower give their approval to consolidation if the districts are to be united.

DAILY DEVOTIONS DR. CHARLES A. EDWARDS

It is not degrading for man to seek refuge in certain circumstances of life. Even the strongest sometimes find their solace in need of superhuman aid. The proud stoic would consider it humiliating to ask aid of anyone and would prefer to commit suicide. But the Christ way is different. He has taught us how to face the stern realities of life. There come to men, even to those with hearts strong and brave, moments when they seem to be threatened by overwhelming forces when fear, doubt and despair envelope their souls in gloom. Moments when they feel their feet sinking in the quicksands and their minds powerless to solve life's problems when their hearts are lured by temptation and their will seem powerless to resist. When the foundations seem to be crumbling like this, what shall men do? When suffering, doubt and sin overwhelm him, where shall he flee? Listen, my friend, to one who had passed through such troubles and found rest and security. "Lead me to the rock that is higher than I. For Thou hast been a shelter for me, and a strong tower from the enemy." In perfect confidence I trust in the goodness and care of My Heavenly Father.—Amen.

ALLAY THE SUSPICIONS that have been holding up British-American-Russian co-operation in solving the tremendous problems that face us in Europe and throughout the world.

FOREIGN observers in Moscow say they note CONSIDERABLE IMPROVEMENT in Russian-American relations following the Hopkins-Stalin talks that have been going on in Moscow.

The French press agency (Havas) says Hopkins has obtained the release of 16 of the 17 Polish underground leaders arrested a while back by the Russians, who accused them of subversive activities. That alone would go quite a way toward smoothing down British-American-Russian relations.

A LOT of us haven't thought much of Hopkins in the past. We may have been wrong. If he is the right man to deal with Stalin, and if he gets results, let's be men enough to give him FULL CREDIT.

Truman Approves Changes in Federal Reserve Bank Law

WASHINGTON, June 13.—(AP) President Truman yesterday signed legislation reducing the required gold reserve of federal reserve banks to 25 per cent of deposits and federal reserve notes in circulation.

Heretofore, the banks have been required to maintain gold reserves equal to 35 per cent of deposits and 40 per cent of notes.

The legislation also repeals two provisions of the 1933 emergency banking act—the treasury's authority for issuance of federal reserve bank notes which require no gold backing.

In addition, it continues in perpetuity an authorization for use of direct obligations of the United States as collateral for reserve notes.

The federal reserve system asked the reduction in required gold reserves with the explanation that reserves have been shrinking due to the fact that American purchases abroad during the war have been paid for in gold while this country's exports have been chiefly under lend-lease, bringing no return flow of gold.

Maximum Production of Fall Pigs Is Necessary

Need for high U. S. fall pig production is emphasized by official USDA estimates that world hog numbers at the beginning of 1945 were nearly 10 per cent below a year earlier—255 million head compared to 280 million head. This was 15 per cent below the 1940 record level and 10 per cent down from the 1936-40 average.

The 1944 to 1945 decline is attributed mainly to reduced numbers in the United States and Canada where record numbers held the world total close to the pre-war level until the beginning of 1943 despite sharp reductions in various parts of the world from the peak number of 294 million head in 1940. Sharp drops took place in the enemy occupied countries. Russia went from 78 million in 1940 to about 40 million at the start of 1945. Grain was needed for human consumption.

Mrs. M. S. Graves, Native Of Oakland, Passes On

SEATTLE, June 12.—(AP)—Mrs. Martha Sheffield Graves, 88, widow of Dr. O. M. Graves, first practicing dentist in Yakima, died yesterday in a hospital here. Born in Oakland, Or., Mrs. Graves was an early resident of Dayton and Pomeroy. Before she came to Seattle 35 years ago she had resided in Yakima 25 years.

Davidson, Leone, Top Mat Meanies, Next Headliners

A "command" performance, a match between Buck Davidson and Antone Leone, will be staged at the Roseburg armory next Saturday night—the headline attraction of Matchmaker Don Owen's weekly wrestling show. Douglas county mat followers have been requesting the match for several weeks, and after last week's "bottle royal", it looks like a natural.

Neither Leone or Davidson won the free-for-all here last week, but they were involved in plenty of fireworks during the grappling extravaganza. Davidson was instrumental in eliminating Leone (with the aid of the victorious Otis Clingman, as the third man—in a field that also included Tex Hager and Kenny Ackles.

Leone, after being eliminated, roared back with a smashing victory over Ackles in one of the extra bouts, and Davidson, although beaten by Clingman in a decision, handed the ex-navy champion such a terrific physical beating he was unable to fill early-week engagements.

Both main-eventers are villains, and local fans can expect one of the most bitter battles in mat history. The sneering Leone, an aggressive meanie who claims to be a Frenchman, will hold a weight advantage over Davidson, but the ex-marine is capable of handling himself against the slugging New Yorker. The match is certain to be a knock-down and drag-out affair in which nothing in particular is at stake—except the reputation of the opponents as top-flight mat villains.

The bout, along with another interesting tilt promoted by Owen, is expected to attract even a larger crowd than last week's highly successful "bond show".

Owen was unable to announce the principals of the semi-final bout, but promised two of the best matmen obtainable. He urged fans to make early reservations for what is sure to be a Donnybrook.

Oaks, Under New Boss, Regain Third Place in League

(By the Associated Press) Oakland, with a new skipper at the helm, was back in third place in the Pacific Coast Baseball league today, aided by Sacramento's loss to San Diego.

Big news in the circuit yesterday was the replacement of Dolph Camilli by Billy Raimondi, veteran catcher, as manager of the Accorns. Conflicting statements marked the shakeup.

Camilli said he was "fired"; the front office announced he had resigned; but it was common knowledge through the league that the club's owners were dissatisfied with the former big-league star's failure to play first base often instead of directing his team from the bench.

Under 32-year-old Raimondi, who has been with the Oaks for 12 years, the East-Bay club edged out San Francisco 3-2 last night. Sacramento's 5-4 loss to San Diego dropped the Solons into fourth, a half game behind the Oaks.

The resurgent Hollywood Stars came through with an 11-inning, 5-4 victory over Los Angeles, winning on Manager Fauselt's pinch single with the sacks loaded.

Portland and Seattle, one-two at the top of the loop, will open their crucial series on the Beavers' home diamond tonight.

DIAL-LOG

By SUSAN

We're just brimming over with advance information these days, and today we're so happy to say that your old friend "The Man On the Street" will return to the air next Monday at 1:00 o'clock. No time restrictions have lifted, so he's back again. Same time, same station, same sponsor—even that same man, Marshall, presiding at the mike in the same old way. Note here to Dusty Rogers and fans: B's of good cheer, the old dusties will still spin each day, probably in the same time slot. That's for next Monday. And be sure you remember to tune in on Saturday at 1:00 to hear the boys in Britain send a cheer to the direction of Roseburg and Douglas county.

Early Cut of Red Clover Insures 2nd Crop Seed

WEA urges farmers to cut the first crop of red clover enough to allow maximum seed production from the second crop. Besides allowing time for vitally needed seed production for summer growth, early cutting will assure better protein content in hay. Both domestic and export demand for the seed is high compared to production prospects. There are special AAA payments for harvesting this seed.

The production output of both the average farm workers and the factory employee has increased greatly during the war. The Bureau of Agricultural Economics reports that agricultural production per farm employee in 1944 was 25 per cent above 1933, compared with an increase of 33 per cent per worker for industrial production.

Pope's Efforts to Keep Italy Out of War Finally Told

VATICAN CITY, June 12.—(AP)—The Vatican, in an 18-page pamphlet outlining the Holy See's efforts to keep Italy out of war, disclosed today that Pope Pius XII personally appealed to Benito Mussolini in a letter April 24, 1940, to "spare our and your beloved country such a great calamity."

The letter was written less than two months before Italy entered the conflict. Mussolini replied six days later, the pamphlet said, with a declaration that "if Italy should take up arms tomorrow it will be as clear as the sun to everyone that honor and interest in the future will absolutely demand her to do it."

The Pope asserted that the history of the church demonstrated it had never accepted a formula of peace "at any cost" of "peace without justice," of peace which might irreparably compromise the destiny of the Italian people.

Mussolini irritated On May 13, less than a month before Italy's declared war, the Holy See, said the Pope then, told the Pope that Mussolini was "irritated" at the pontiff's telegrams of sympathy to the low country rulers following the German invasion. Alfieri, who had been Italian ambassador to the Holy See, saw the Pope then in a farewell audience.

The Pope, the pamphlet said, replied that he merely had done his duty and "we are not even afraid of being sent to a concentration camp."

Appeals to King and Queen

Other "torvent hints" in favor of peace for Italy were made by the pontiff to King Vittorio Emanuele and the Queen when they visited the Vatican Jan. 21, 1939, and again when the pontiff called on them at the royal palace on Jan. 28, 1939, the pamphlet added.

It declared the Pope was particularly interested in keeping Italy out of the war because it was the seat of the Vatican.

It was the second time this month that the Vatican, perhaps in answer to Moscow criticism of its attitude toward the war and fascism, had made pronouncements concerning its position.

Pope Pius himself, in an address to the cardinals June 2, reviewed the Vatican's policy toward Germany, sharply attacking national socialism, and declaring that "nobody could accuse the church of not having denounced and exposed in time the true nature of the national socialist movement and the danger in which it exposed Christian civilization."

Maximum Production of Fall Pigs Is Necessary

Need for high U.
