The Roseburg High School Indians open their football season playing Lebanon High School Friday night, September 28, at Finley Field.

Coach Fred Ingram reports, the football team this week has been stressing blocking and tackling which has been way under par so far this fall.

To date, the following boys have been working regular positions: Bill Benson 165, left end; Clinton Atterbury 145, right end; Tom McCown 150, left guard; Pat Sullivan 150, right guard; Bill Marsters 185, left tackle; Jim Sims 170, right tackle; Dan Lillard 165, center; Tyler Evans 150, quarterback; Duane Pope 150, left halfback; Edwin Harvay 130, right halfback; John Ulrich 165 fullback.

The coach went on to say that the following boys are looking much better but very green and need a lot of work in learning assignments. Jack Denton and Red Davidson, ends; Henry Kleckor and Lawrence Moore, tackle; Lloyd Mayhorne and John De-

Vaughn, guards; Bob Feldecamp and Fred Oberholzer, center; Bill Anderson and Dick Chartier, halfbacks; Bob Wilhite, quarterback; Bob Colby, fullback. Another week of practice will see these boys giving the starters a lot of competition Ingram said. The Sophomore squad is to play Grants Pass September 26 at Finley Field.

### Acheson's Implied Rap At M'Arthur Draws Fire

(Continued from Page 1)

Arthur, who I think is a great General." It was "a blight on the name" of MacArthur by the acting Secretary of State, Wherry shouted.

Now an Assistant Secretary, Acheson has held the "acting" title since James F. Byrnes left for London to attend a meeting of Big Five Foreign Ministers. Chandler leaped to his feet to agree that MacArthur had been "insulted." The Kentuckian added that it was just one of a long line of gratuitous slights that had been heaped on the Pacific Commander.

Barkley Bids for Peace  
Barkley tried his hand at calming the storm.

He said Acheson probably was making it clear that the Japanese couldn't expect a soft peace. It was "ridiculous" he said, to contend that the acting Secretary had "blackened the name" of MacArthur.

That made Wherry angrier than ever.

If Barkley thought it was ridiculous for him, Wherry, by assuming that Acheson had been acting at the General, the Nebraska said he would leave it to the American People to judge.

### Dewey Mum on Letter Regarding Pearl Harbor

have been terrific, and might just have landed Dewey in the White House.

Chamberlain said Dewey learned long before the 1944 election that America had cracked the Japanese "ultra" code "some time prior to Pearl Harbor and that Roosevelt and his advisers knew what the Japanese were going to do well in advance of the overt rupture of relations."

Herbert Brownell, Republican national chairman, and New York State Banking Superintendent Elliott W. Bell, both mentioned as possessing the information, said they would defer comment until they read the articles.

Chamberlain said Dewey's decision to remain silent came after Gen. Marshall said lives would be lost if the Japanese learned America had cracked the "ultra" code.

"More than 15 hours before Pearl Harbor, Roosevelt and the members of the Washington high command knew that the Japanese envoys were going to break with the U. S. the next day," Chamberlain wrote. "The only thing they did not know was the precise point of the military attack, which they assumed would be toward the East Indies and/or at the Philippines or Guam."

Dewey's Decision Told  
Later today Brownell confirmed the report that Dewey refused to use his information as a presidential campaign weapon. To do so, Gen. Marshall told him, might "disclose to the Japs that our government intelligence service cracked Japan's most secret code."

"In the face of this," Brownell said, "Gov. Dewey decided, and told me, that he would not use the Pearl Harbor data because he believed in Gen. Marshall's integrity and he would rather be defeated for president than to risk sacrificing needlessly the life of a single American boy."

### M'Arthur Reverses O.K. On Top Jap General

to the tales of Japanese surrender-crisis intrigue, reporting that former Premier Suzuki barely escaped with his life from a band of armed Japanese soldiers Aug. 15. The band, evidently answered by surrendering machine-gunned in quick succession two houses from which Suzuki had just departed.

MacArthur's code for the Japanese press specified that news "must adhere strictly to the truth" and said that "nothing may be printed which might directly or indirectly disturb public tranquility."

Had he then restricted the press, which already is American-censored, the code emphasized truth in news and the elimination of propaganda.

MacArthur previously had laid down a set of regulations for Japanese editors. For infractions, he suspended the Domei Agency and two newspapers briefly.

Aussie Renegade Arrested  
The only trace of violence in the occupation thus far was an accidental ammunition explosion that killed one American soldier and injured 60 others near Tokyo. Army authorities said an American soldier touched off the blast by accident and that no Japanese sabotage was suspected.

The roundup of war criminals continued smoothly, with U. S. Eighth Army forces taking Australian John Holland, allegedly linked with Tokyo radio broadcasts, from a barber shop at Sapporo on Hokkaido to join Ex-Premier Tolo's "Pearl Harbor Gang" in jail at Tokyo.

MacArthur's headquarters asked the Japanese Government for information on the whereabouts and welfare of the Turkish Ambassador to Japan and his staff. There was no immediate elaboration. The Ambassador, arrived in Tokyo on May 10, 1944. Turkey severed relations with Japan on June 1, 1945, and declared war shortly afterward.

Seventy-year-old Nobuyuki Governor General of Korea from July 23, 1944, until the American occupation, left Seoul for Japan with his ailing wife.

Jap Garrison Starves  
At Pearl Harbor Admiral Nimitz announced that the Navy's blockade of Woleai in the Caroline Islands was so effective that approximately 5,000 of its original garrison of 6,500 Japanese soldiers starved to death. The underfed survivors surrendered Wednesday.

(In San Francisco Edwin W. Pauley, chief of the American section of the Allied Reparations Commission, said in an interview

that the United States will receive reparations from Japan in the form of material goods, rather than money. He said the amount of indemnities had not been estimated. Pauley was en route to Tokyo.)

### Truman Receives Rebuff On Jobless Aid Proposal

(Continued from Page 1)

WASHINGTON, Sept. 21.—(AP)—Given the rosiest senate re-buff since he took office, President Truman may be in for even rougher treatment in the house on the issue of aid to the jobless.

Mr. Truman's proposal for broad expansion of unemployment compensation was tossed over to the House after the Senate turned thumbs down on a large part of the administration program. The chamber did however, agree to extend unemployment benefits to a maximum of 26 weeks at federal expense and to pay travel expenses for displaced war workers with a limit of \$200.

The senate rejected Mr. Truman's proposal that congress provide benefits up to \$25 a week by supplementing jobless programs administered by the states. This action will result in payments at various state rates, which range from \$15 to \$28.

War Time End Voted  
WASHINGTON, Sept. 21.—(AP)—Congress has voted to end war time at 2 A. M. September 30.

The senate passed a house-approved bill yesterday and sent it to President Truman for his expected signature.

The present price of 97 cents which has been arbitrarily placed in effect just meets production costs. It includes no returns for labor or investment and permits no profit. Producers cannot afford to continue in business for a price of less than \$1.15."

Further complication to the milk situation has been created by threatened strikes in Portland and Grants Pass milksheds. Portland producers are seeking a price of \$1.25 on butterfat, while Grants Pass producers are asking \$1.05.

# IS CHEVRON SUPREME AN AVIATION GASOLINE?

Chevron Supreme comes straight from the skies. It's a highway version of Chevron Aviation Gasoline. But—and this is very important—it's tailored to fit the special requirements of your car's engine. That's why gasoline straight from the tanks of a fighter plane wouldn't give your car any better performance than you get from Chevron Supreme.

New catalysts were developed during the war to manufacture blending agents that would boost Chevron Aviation Gasoline's octane rating. They now give Chevron Supreme an octane rating more than ample for any car on the road today. Some aviation gasolines have a higher octane number, but this surplus octane value would be wasted in an automobile engine not built for it.

You can't buy better gasoline for your car — at any price

## CHEVRON

SUPREME GASOLINE  
STANDARD OF CALIFORNIA

So, there's reserve power—skyway power—in Chevron Supreme, but that's not all. Because it's tailored to automobiles, it spins cold engines into instant action, whisks you away from stoplights, floats you over the loftiest hills. And, after all, that's what you want most in a gasoline.

Standard's National Credit Cards are back! Good throughout the United States and Canada. Apply at any Standard of California office, Standard Station or Dealer, Authorized Distributor or at any Chevron Gas Station. We'll do our best to issue your Card promptly.
