In the Day's News

(Continued from page 1)

without knowing what it was. Out of the north came the conquering Greek, young Alexander, and overthrew the Pharaohs. Alexander drank himself to death.

Time dragged its slow feet over the sands of Egypt and eventually Alexander's successors found the fallen obelisk, removed it to Alexandria and set it up again, glorifying themselves.

AGAIN the centuries passed. Again the obelisk fell and was forgotten and again generations of men passed over and about it, unheeding and unthinking. In the course of the years, it was recovered by an ARAH, whose rule had succeeded that of the Pharaohs and the Greeks, and was given to the British, whose remote ancestors were living in rude savagery on an island that in the time of Thotmes was not even a part of the known world.

With risk and travail, it was transported to England—after being lost in a storm in the Bay of Biscay, lying for years on the bottom of the ocean and then being recovered and carried on to its destination. It has stood for nearly a hundred years beside the Thames.

Its base is chipped by splinters from German bombs, but it stood secure—as DID BRITAIN.

FARTHER along the Embankment, facing the houses of Parliament, is the heroic equestrian statue of Boadicea, the more or less fabled queen of the Britons who fell defending her island against the legions of Rome.

It must have been a sad day for her people when she fell. It must have seemed to them that the end of the world was here. They must have been even lower in their minds than the shattered, spiritless peoples of western Europe are today.

AND YET—out of the mixture of Romans and Britons that was conquered and further mixed by the Angles and the Jutes and the Saxons, and this mixture later conquered and again further mixed by the Normans, came the British Empire, which brought to the world SOMETHING BETTER in the way of rights of the common man than had been brought to it by the Pharaohs, or the Greeks, or the Romans or the heterogeneous barbarians who ran Europe in the Dark Ages following the decay and fall of the Roman Empire.

YOU never can tell.

Out of the mess that today is Western Europe may come something that is better than Western Europe has ever known before.

That wouldn't be TOO difficult. The prevailing idea in most of Europe has always been to keep the good things of life for the over-privileged few at the top at the expense of the under-privileged many at the bottom.

At any rate, it is better to be optimistic about the future than to be pessimistic. Hopeless pessimism never got anybody anywhere save deeper into the muck.

YOU leave the Embankment at Westminster bridge and stroll on past Westminster Palace, and into Westminster Abbey, where lie the great of England under inscriptions telling how they became great.

You are intrigued by one of these inscriptions which tells how a certain Bukka achieved the renown that won him a resting place in the Abbey. It seems that

BARGAIN RATES COMING

By Charles V. Stanton

The News-Review's annual bargain offer will be in effect next week, starting Monday, Oct. 8. We are late in announcing our bargain rates this year because we had hoped (although the possibility was very slight) there might be sufficient relief from newsprint quotas for the last quarter of the year to permit us to extend our offer to new subscribers, as was done in prewar years. But, according to latest information, there is little prospect of improvement in the newsprint situation until at least the first quarter of 1946, and, if strikes in the lumber industry are prolonged, it is doubtful if quotas can be expanded even by that date.

Because of inadequate newsprint supplies it is necessary for us to restrict our bargain offer to current subscribers only. We will accept renewal subscriptions, paid in advance for one year, at the reduced rate, with the added proviso that arrearages, if any, be brought up to date.

Had anyone told us a few years ago we would ever see the time when this newspaper would not be actively soliciting for advertising and new subscribers, we would have elected such person as a candidate for the booby hatch. But that condition has come to pass as a result of paper shortage induced by wartime conditions.

Many newspapers, of which the News-Review is one, are laboring under a great handicap. Our business could be greatly expanded if we could obtain larger supplies of newsprint. But until the excess demand for paper connected with military and governmental affairs is eliminated, or at least greatly reduced, or the pulp industry increases its volume of production, we will continue to be stymied. There is some belief that conditions may improve after the first of the year, but prospects are not too encouraging.

In the meantime, we will continue, as in the past, to attempt publication of the best newspaper we can furnish within the imposed limitations.

We believe the News-Review, as a Douglas county newspaper, owes its first duty to the people of Douglas county. We have, therefore, for many months, refused to accept subscriptions from points outside the county. This does not apply to subscribers who were receiving our paper prior to the time the restriction was made, and who will be permitted to renew their subscriptions at the bargain rate. But the rule has one very serious effect. The Roseburg Chamber of Commerce and the News-Review receive daily many requests from out-of-state persons who are looking at Roseburg as a prospective future home. They want our newspaper, feeling that from it they will be able to judge the tempo and conditions of life in Douglas county. We have had to reject their applications.

We cannot, under existing circumstances, campaign for new subscribers. Our circulation is growing steadily and, if we should have the experience, which marked bargain offers of prewar years, when hundreds of new readers joined our family, through our annual campaigns, we would be placed in a most difficult situation.

From a cold-blooded business viewpoint, it would be far better for us if we skipped our bargain offer, keeping our rates at their normal level, even if we lost some subscribers by so doing. Then we would have more money and wouldn't require as much newsprint.

But the News-Review annual Bargain Days have been instituted for too many years. Our regular subscribers depend upon the offer. The plan has an advantage in handling our circulation list, in that it places a large block of subscriptions on a simultaneous expiration basis, thus saving a great deal of clerical work throughout other months of the year. We can't be cold-blooded about it. We value too much the good will of the constantly growing News-Review family. We are eagerly awaiting the time when we can again go into the field with an equal opportunity for everyone to join our lists. Maybe we're being egotistical, but we believe we're publishing a darned good newspaper and we'd like to have every family in Douglas county on our subscription list.

But you can see the fix we're in. If you are now a subscriber, paying by the year, the month, or other interval, you can take advantage of the bargain rate by paying any arrears to date together with a year's subscription in advance. If you are not now a subscriber but want to join our family, we can take a limited number of subscriptions; but we will be forced to ask the full rate, because we can't, at the present time, risk an increase in paper usage in face of our limited quota.

he got his start "waiting on" Charles II when he was Prince of Wales—a sort of glorified gentleman's gentleman. He must have been pretty good at his job, for when Charles became king Bokka was elevated to the post of Gentleman's Usher, and in time he rose to be an Usher of the Black Rod.

All put together, it got him a tomb and a monument in Westminster Abbey.

It takes MORE than that to get into Westminster Abbey these days. It takes service of hand and head and heart TO THE PEOPLE, rather than pondering to the comfort of a profligate king such as Charles II.

And the men who sit today in Whitehall and in the halls of Westminster Palace, which is now the home of the British parliament, are obviously determined that it shall be more that way rather than less in the years immediately to come.

You come back from your walk with a comforted feeling that in spite of the mess that is Western Europe the world is still moving in the right direction.

Building Models to Be Exhibited at Institute

One of the interesting features of the Douglas County Teachers Institute, to be held in Roseburg Oct. 4 and 5, will be an exhibit of model buildings constructed by students in Roseburg schools. Lulu C. Gorrell, county school superintendent, reported today. The exhibit is sponsored by the State Building Congress. O. G. Hugheson, Feldman for the congress, will be present to explain the plan of this philanthropic organization, which has as sponsors about 40 of the largest building and lumber companies of Oregon.

Residents of the community are invited to visit the exhibit, which will be in Room 204 at the Junior High school throughout the two days of the institute.

The Place Was Littered

INVERNESS, Scotland.—(AP)—The mascot of the Cameron Highlanders, a shaggy black collie "marching" along with a column of troops, stopped by the wayside to give birth to two pups. Then she ran to the head of the column. Five minutes later she delivered two more pups. She repeated the performance until eight were left along the road.

Roseburg Voiture Of 40 Et 8 Raises Funds for Hospital

Roseburg voiture, 40 et 8, has introduced a novel method of raising funds to aid the U. S. Marine hospital, national leprosyarium, Carville, La., according to Jack Maris, who at the regular meeting of the Voiture last week was installed as chef de gare.

A myrtle wood lamp, manufactured by C. B. Calkins, was auctioned, each bid constituting a donation. The purchase promptly donated the lamp back to the voiture to be sent to another voiture for similar action. The lamp is expected to pass through all of the 1,250 units in the United States, as well as those in Alaska, Hawaii and France. Roseburg veterans contributed \$105.

Bert Stevens, Tillamook, grand chef de gare for Oregon, who installed Maris as head of the Roseburg unit; V. J. Miceli as chef de train; Jack Crafton, correspondent, and E. G. Stearns, commissaire indente, took possession of the lamp and will present it at the national 40 et 8 convention in Chicago.

The hospital at Carville is devoted to the care of sufferers from Hansen's disease, more generally known as leprosy. The 40 et 8 is endeavoring as a national project to raise funds for the institution to provide improved facilities, money for research, and assure adequate care and maximum comfort for patients.

DIAL-LOG

By SUSAN

Is everybody all set for the World Series? We are, and so is Mutual, and come 10:15 tomorrow morning business is going to slack off because everyone will be more interested in the ball game than in tending to business. You'll get a touch of pregame spirit tonight at 7:15 when you hear the preliminary broadcast and tomorrow it's "Play Ball." Naturally program schedules will take a beating during the series, but you'll hear the State and Local News, News-Review of the Air, and Market Reports at 1:00 o'clock if the game is over by then; otherwise, they'll follow immediately after the game broadcast. In all probability we'll be back on the beam at 1:30 anyway. We'll remind you also that you'll hear Music You Remember at 6:15; Clara's Review at 6:30 (that's Annular's at the piano during the fifteen minutes), and Snapshots in the Local Frame at 8:30.

Here's a note for tomorrow: Human Adventure will be heard at 7:00 o'clock this Wednesday, then move to Sunday night at 6:00 o'clock. First broadcast at the new time is slated for October 14th.

Opera data: Thursday night at 10:00 you'll hear Les Contes d'Hoffman, and Friday night Tristan and Isolde will be broadcast. By the way, we have a supply of the Opera Booklets on hand. Stop in and pick yours up if you wish.

Baquet Resumes Work at Veterans Facility Here

Cleora Baquet, petty officer, first class of the Seabees, has returned to Roseburg and is resuming employment at the Veterans facility, following 26 months of duty in the Pacific. A veteran of the First World War, Baquet holds four honorable discharges from military service. During the recent war he was at Pearl Harbor, Guam, The Johnson Islands, Iwo Jima and numerous other "hot spots."

Roseburg May Be Designated For Air Marker Site

Following the recent announcement by the Civil Air Patrol that it has secured the aid of General Petroleum corporation in installing an air marker program in the far Western states, a list of critical points has been compiled by General and submitted to C. A. P. for aerial surveys.

Roseburg is named as one of the points at which the company is prepared to commence work immediately on an official marker.

According to E. A. Pearson, Mobilgas distributor in this area, General's storage tanks and warehouse, located at Roseburg may be used as a base for the markings unless C. A. P.'s survey shows that another location would be more desirable from the standpoint of visibility from the air. Pearson explained that official markers should carry the name of the place, its latitude and longitude in degrees and minutes, and if space permits, an arrow enclosing the name of the nearest hard surfaced runway airport with the number of miles at the head of the arrow. The marking should be legible under good visibility conditions, from a height of at least 3,000 feet. He said the lettering and design for the Roseburg marker will be submitted to the Civil Aeronautics administration for approval as soon as aerial surveys have been completed and the site of the marker approved. General Petroleum markers will all be recognized as official, and will be designated as such on aerial maps and charts.

Capt. Weikel, Freed, Sends In Order for Home Food

Mrs. D. O. Tower of Coos Junction is preparing to meet the requests of her son, Capt. Ivan Weikel, recently released from a Japanese prison camp, for the home foods he remembers so well. In a letter airmailed from Manila, Sept. 17, Capt. Weikel, who was captured on Corregidor, writes that he wants "hot biscuits with butter, fresh milk and cream, chocolate fudge cake and applesauce cake," when he arrives.

"And you can just bet he'll get them if I have to steal the sugar to make them," Mrs. Tower declared.

Weikel, a graduate of Roseburg High school, was sent to the Philippines several months in advance of the Japanese attack. He fought through Bataan and was captured when Corregidor fell to the invaders.

Japan is one of the most completely forested nations, rivaling even Finland and Sweden.
