Southworth Again With Boston; Dyer To Boss Cardinals

BOSTON, Nov. 7.—(AP)—William H. "Billy the Kid" Southworth who since his departure as team captain from the Boston Braves more than two decades ago led the St. Louis Cardinals to two world championships, will return today to sign as new tribe manager.

The deal bringing Southworth back to Boston is the second big money transaction completed by the club owners who, when they took over more than a season ago, vowed they would spend to build the Braves into a pennant contender.

CONSOLIDATE CAMPAIGNS

By Charles V. Stanton

If some Douglas county residents are confused concerning various money-raising activities, receiving publicity at the present time, we cannot be surprised.

Roseburg is completing a Community Chest campaign, the Victory Loan drive is under way, and the Oregon War Chest is being organized for territory outside the city of Roseburg.

Throughout the greater part of the state the Oregon War Chest campaign was conducted during October. But organization in Douglas county was not undertaken in time to make a solicitation last month.

The city of Roseburg, however, organized a Community Chest campaign, in which the War Chest, representing federal and state agencies, is included, together with local activities. This campaign is nearing an end, although the goal has not yet been reached.

But nothing has been done outside the city with reference to the War Chest campaign. L. L. (Jim) Powers was named county chairman last week and will organize the canvass, which probably will be postponed until late in November or early in December, depending upon the duration of the Victory Loan campaign.

The Victory Loan drive has not started rolling in earnest, as Earl Wiley, chairman, and his committee have been holding off launching their program until the Community Chest has been filled. Some high-powered action on sale of Victory bonds can be expected this week, with the campaign growing in intensity until the county's quota is reached. Our goal on E bond sales to individuals is \$375,000.

We hope that overlapping of campaigns can be avoided in the future, and that a more satisfactory system can be worked out.

The Victory Loan, of course, marks the end of special War bond campaigns. This is the eighth and last of the series.

This year probably will terminate the United War Chest, of which Oregon War Chest is a part. We will, however, be required to continue support for numerous national, state and local charities, and we believe it is far better practice to combine our solicitations into one major campaign than to maintain scores of continuing, overlapping and duplicating drives.

We would like to suggest a county-wide Community Chest for future years to embrace all except the Red Cross and March of Dimes, which, by the nature of their organizations, probably will require separate fund-raising campaigns.

It would be necessary, of course, to adjust the budget by consideration of purely local agencies. The county at large, for instance, should not be expected to contribute to Roseburg's Recreation program, a department included in the city's Community Chest. Nor would rural districts, where no Boy Scout troops can be organized, be expected to raise funds for that purpose. But these adjustments would not be difficult to make. Quotas could be assigned each community and our charities lumped into one county-wide Community Chest drive, thus saving time, confusion and annoyance, with resultant saving in campaign expenses.

Lt. Col. Irving to Be in Roseburg for Army Recruiting

Lt. Col. Robert L. Irving, of the Army recruiting station, Eugene, will be in Roseburg Tuesday, Nov. 13, instead of the usual Monday visitation, as Nov. 12 will be celebrated as Armistice day. Colonel Irving will be at the armory between the hours of 9 A. M. and 12 noon and may be contacted by any persons desiring information concerning Army enlistment.

Men discharged since May 12, 1945, who propose to re-enlist, should do so before Nov. 21 if they desire to retain their former grade and take advantage of re-enlistment furlough privileges, Col. Irving states. Men discharged after Nov. 1, 1945, are required to re-enlist within 20 days after discharge to retain their former rating.

Men granted re-enlistment furloughs may receive 30 days' leave for each year of service with a maximum limit of 90 days. Overseas service counts double time toward furloughs.
