If you don't want soap shortages to get worse...

Save More Used Fats!

YOUR country's supply of industrial fats is so low that the government itself has to decide just how much can be released to make soap...and how much for other peacetime goods. If you let up on saving used fats, our supplies will go still lower, and the amount allowed for soaps may have to be cut accordingly. If that happens, you will find even less soap on dealers' shelves!

Don't be fooled just because you can now buy butter, shortening and lard without points. Industrial fats are still very scarce. Keep saving used fats and help speed greater supplies of soaps. Turn yours in and get 4¢ a pound.

Your used fats are an important part of the fats that go to make soaps. Any falling off in your saving of kitchen fats may cut down the soap supply to your dealer...and available to you!

Where there's fat, there's soap
Keep Saving Used Fats — Help Prevent Soap Shortages

...if yours is a busy holiday season

You ought to see our Long Distance switchboards... especially on December 24 and 25. And this year they'll be busier than ever. The eagerness of service men in camps and hospitals to make holiday Long Distance calls is sure to increase greatly our huge traffic volumes.

You can help a lot...by helping us keep the lines open for service men.
