## DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

Thy Will Be Done  
Not in dumb resignation  
We lift our hands on high;  
Not like the nervous fatalist,  
Content to do and die;  
Our faith springs like the eagle  
Who soars to meet the sun,  
And cries exulting unto Thee  
O Lord, thy will be done.

When tyrant feet are trampling  
Upon the common meal,  
Thou dost not bid us bend and  
write  
Beneath the iron heel.  
In Thy name we claim our  
right.  
By sword, or tongue, or pen;  
And even the headsman's axe  
may flash  
Thy message unto men.

Thy will it bids the weak be  
strong.  
It bids the blind be just;  
No lip to fawn, no hand to beg,  
No brow to seek the rust;  
Wherever man oppresses man,  
Beneath Thy beloved sun,  
O Lord, be there, Thine arm  
made bare,  
Thy righteous will be done.

—John Hay.

## Reedsport Fire Dept. Has Busy Morning

REEDSPORT—The Reedsport fire department was quite busy last Thursday morning when two calls were sounded within the hour. A bonfire on the west side of the town, near the highway, was the cause of the first call. The ready response of the department and the use of a high-power fire extinguisher and plenty of sand soon brought that fire under control. The second alarm took the department to the Franklin Building, where a stovepipe fire in a barbershop caused minor damage.

## Strike Paralyzes U. S. Steel Industry

concentration in cities whose names have become synonyms for steel—like Pittsburgh, Johnstown and Bethlehem. Pickets there, trapped to their posts in swirling snow.

Henry J. Kaiser's steel mill at Fontana, Calif., was one of the few not affected by the strike. Kaiser signed a contract with the union Saturday, accepting the 181 cents hourly pay raise recommended by the United States Steel Corporation by President Truman.

**Seizure Not Considered**  
U. S. Steel, bellwether of the industry, turned down the President's proposal, after the union had accepted it, and no further government effort was made to halt the strike. The steel companies' highest offer was 15 cents. Original demand of the union was 25.

A high government official said last night government seizure of the steel industry was not seriously considered as yet. If the stoppage continues for a week, he added, the situation might change.

## Staying Out Till Raise Obtained, Declaration of Steel Strike Captain

HOMESTEAD, Pa., Jan. 21.—(AP)—"We're going to stay out till we get that raise..."

In those words a steel strike captain summed his view as he stood in a raging snowstorm early today outside the darkened Homestead works of Carnegie-Illinois Steel Corporation.

A dozen men slowly trudged a lone oval pattern in the snow, picking the plant entrance, some wore boots and hunting clothes as protection against the wet and cold.

One by one they took turns raising hands and feet at a flaming coal fire built in an empty oil drum, a "salamander."

The strike captain, Barney Shields, was enthusiastic.

"We have about a thousand men picketing I guess," he said. "We have about 8,000 members in all here, including about 800 women and every one will get a postcard telling when and where to report for strike duty."

"Each will picket one day a week. On that day he'll picket two hours, go off two hours, then picket two hours more."

"A man has got to have a good excuse, a very good one, not to report for picket work. If he fails to show up he gets fined \$5. If he refuses to show up he gets fined \$10 and he won't be able to hold any union office for two years. I don't think we'll have any refusals or any failures."

## Snow at Diamond Lake Very Deep

According to latest reports from Diamond Lake, snow there is much deeper than usual and of a greater water density than normal. The report came from George L. Howard, manager of the Diamond Lake resort, to V. V. Harpham, supervisor of the Umpqua National Forest.

Howard wrote to Harpham that on his latest trip from Medford to the lake, he had walked over "eight feet of very loose snow; that is, three feet of loose snow had fallen the day before."

Six feet of snow was reported on the roofs of the Forest Service guard station buildings.

Greener water density in the snow, Harpham explained, means that it packs into ice more readily and is less easily melted. Stream levels are maintained.

"Also it means that the mosquitoes will grow faster, bigger and more vigorous, and will have longer bills," Harpham said. "Mosquitoes are always more numerous around snow banks."

Surviving are his wife, Florence Anna Chamberlin, of Roseburg; one son, Clarence Albert, Jr., of North Chicago, Ill.; one daughter, Ida C., of Roseburg; one brother, Eugene of Portland; three sisters, Mrs. Geneva Morrison of Corey, Penn.; Mrs. Mabel Preston, of Meadville, Penn., and one grandson.

Funeral services will be held in the chapel of the Roseburg Funeral Home Thursday, at 2 P. M., with Dr. Morris Roach officiating. Interment will be in the Odd Fellows Cemetery.

## Says Denial of Loan to Britain Spells Disaster

CLEVELAND, Jan. 21.—(AP)—The State Department's international trade expert said today rejection of the pending \$3,750,000,000 loan to Britain would touch off a world-wide economic war which would cost this country billions of dollars.

"If there should be an economic war, we could doubtless win," Clair Wilcox, director of the department's international trade policy office, said in a speech to Cleveland's City Club. "But it would be a sorry victory."

"The division of the world into contending economic blocs would be a tragedy, not only for Britain, but for us and for every other nation on earth."
