When can I get a telephone for my farm?

We'd like to say very soon. But actually, it will take some time before we can provide a farm telephone for everyone who wants one... even though we are cutting down our waiting list every day. For there are many places where we have to install complicated switchboards... some, even, where we have to build entire new buildings. Our rate of progress will depend on how rapidly our manufacturers can supply the necessary equipment and materials. Your local Telephone representative will be glad to tell you what has to be done in your locality and give you the latest information on about how long it will take. Meanwhile, you can be certain your farm telephone is on the way and that we are doing everything possible to hurry the day we bring it to you. Note to farmer-line owners: we'll be glad to advise you on your telephone maintenance problems and check your instruments. Just call your local Telephone office.
