This drug, the vitamin P-W, the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son. ## Gen. Franco Proves Evasive on Issue Of Restoring King

By DeWITT MacKENZIE

MADRID, Jan. 28.—The question of whether the kingship shall be revived in Spain continues to be a subject of eager speculation and naturally was one of the points which I raised in my interview with Generalissimo Franco.

Franco replied that this is a matter which will be dealt with "when this is suitable to the interests of the nation" and that "it will have to be the Spaniards themselves who pronounce themselves in its favor." In short, I take it Spain isn't paying foreign nations for advice.

I broached the matter by calling Franco's attention to the fact that his ambassador to Washington recently was quoted as saying that "Spain is steadily and progressively restoring a political situation with a more representative system." He added:

"What really interests Spain is the content of its political regime, not its external expression, which is considered secondary. For this reason the problem of the monarch is not a thing which troubles us, and it will be approached when this is suitable to the interests of the nation. When this time comes it will have to be the Spaniards themselves who pronounce themselves in its favor."

"The important things today for nations are freedom of conscience and the free exercise of human rights within a climate of peace, order, justice and social rights, which the Spanish bill of rights effectively guarantees. The possession by the nation of its traditional institutions and the fact that progress in the spiritual, scientific, economic and social orders reaches the greater part of the nation are the important things."

I also asked Franco a question relating to the Big Three declaration at Potsdam excluding Spain from membership in the United

Nations Organization. I put it like this:

"In view of the declaration of Potsdam what plans, if any, does Spain have to cooperate with the United Nations Organization?"

"Spain knows what happened at Potsdam," the generalissimo said, "and at the proper time referred to Spain. The war is still recent and the passions and rashes which it provoked are not yet calm and the world is not agreeable to look at."

"Let us leave to those who are faced with responsibility of the hour the solution of the difficult political problems which are pending. Spain need not be present in order to give within its sphere and means its collaboration to peace among peoples."

## Two Thefts, 3rd Attempt Reported at Reedsport

REEDSPORT.—Two burglaries and a third attempt were reported to police here over the weekend. The Hays Fish Market was ransacked Sunday night, but nothing of value was taken. The same night a window was broken to gain entrance to the S. P. depot, where \$5 was taken from the cash drawer. The front door of the Rainbow restaurant was jammed Saturday night, but the burglar apparently was frightened away instead of entering the building.
