MEANWHILE Republicans in congress are talking of a DEFINITE FORMULA for ending price ceilings. They are mulling these two points:

- 1. Redefine OPA's powers in such a way as to prevent their use to control the nation's economy.
2. Remove ceilings in each industry as and when its production reaches 75 per cent of normal.

THE fact that Republicans in congress are considering ANY sort of definite, POSITIVE program is interesting, and perhaps significant.

So far the Republican party has been PURELY NEGATIVE. It has criticized and complained, but has offered no constructive plan of its own.

IN Bombay there are ANTI-AMERICAN demonstrations.

A mob of Indians (meaning people who live in India), including a number of persons wearing the uniform of the Royal Indian Navy, tears a U. S. flag down from above one of our government offices and BURNS IT in the street.

The motives back of the flag burning incident are unclear from the dispatches, but a spokesman for the mob said to a group of American correspondents:

"This is not an anti-American demonstration. It is anti-British. But the Americans should get out of India too. What right have you here when you are not Indian?"

WHAT hits us with a jolt is the obvious fact that America's reputation is not what it ONCE WAS throughout the world.

In Bombay, apparently, there are people who look upon us as UP-HOLDERS OF OPPRESSION.

There was a time when America stood forth as the FOE of oppression.

THESE are admittedly difficult times. The world is filled with fear and hatred. AS ONE OF THE VICTORS, America is naturally under suspicion.

Maintaining our historic reputation unscathed, under such conditions, is a task of staggering proportions, calling for leadership of almost superhuman excellence.

But, in incident after incident, it has seemed to this insignificant writer that our foreign policy has FAILED to dramatize to the world the genuine good will of the American people toward other peoples.

If that is true, the failure is a tragedy.

SPEAKING of dramatic incidents, the dispatches picture one for us.

HIROHITO comes forth from his palace and WALKS among the people of Tokyo, pausing repeatedly among working men at their benches for a few brief words.

Duane Hennessy, AP correspondent, comments: "It wasn't like prewar days, when everyone was cleared from upper floors of buildings so they could not look down on the descendant of the sun goddess."

Hirohito is smart. He knows how to adapt himself to new ways.

Taken to Penitentiary: Deputy Sheriff Al Smith yesterday delivered John Ross Casey, Tacoma, Wash., to the state penitentiary at Salem, to begin his five-year term for the robbery of Max Pennie's barber shop, N. Jackson St.

LEADERS FOR LIBERTY

As we celebrate the 214th anniversary of the birth of George Washington, we are impressed by the thought that we need today, as in the Revolutionary period, men willing to lead out with their fortunes and their lives in the cause of Liberty.

The cause for which George Washington and his gallant armies fought did not have unanimous approval from the people of the Colonies. A large part of the aristocracy was definitely opposed to the Revolution.

Many of the common people preferred to follow the easy course of accepting domination from The Crown, unwilling to seek independence and, in fact, contending that the Colonies lacked military strength to combat the power of Great Britain, freely predicting failure of the "uprising."

The authors of our national independence did not envision an easy course. Subsequent events proved that rugged indeed was the path which led to eventual agreement between States and organization of Constitutional government.

Freedom and Liberty are threatened by statist doctrines. State socialism is spreading throughout the world. Doleful prophets openly predict inability of the United States to escape engulfment by totalitarianism and propose the easy course of drifting with the tide, rather than struggling to maintain our hard-won and bitterly-defended independence.

National emergency led to restriction of freedom through bureaucratic administration, perpetuation in power, subjugation of states' rights. We saw the breakdown of our Constitutional system of checks and balances.

Today, although the emergency no longer exists, we still find ourselves regimented, controlled and directed. We see in the making an effort to substitute regional "authorities," in place of our present system of government by states, for states' rights would be practically eliminated, except in token form, by the so-called "authorities."

We find our people lulled into a sense of false security by clever leftist propaganda, failing to realize the threat to liberty, free enterprise, and those rights of freedom for which Washington and our Revolutionary patriots so gallantly fought.

We have our "Tories" today, just as they existed two centuries ago. We have our defeatists, our vested interests, our political cowards.

We need today men like Washington and his associates who place Freedom above selfish interest and personal gain; men—and women—willing to sacrifice, if need be, to maintain the democratic principles for which our forefathers fought and died.

Numerous Types Of Positions Open At Vets Hospital

Due to increasing activities, the Roseburg Veterans Administration hospital is now accepting applications for numerous types of positions. The recruiting officer reports that applications are being accepted for various medical personnel, including doctors, dentists, nurses, laboratorians and ward attendants. There is an immediate shortage in these types of positions, especially the latter. To provide the patients with the high standard of service established by the Veterans Administration, it is necessary that there be employed a sufficient number of medical personnel. No previous experience is required for the position of ward attendant, as a continual course of instruction is given in the care of patients to all personnel engaged in this type of work. Applications are also being accepted for positions of clerk, clerk-typist and stenographer. All applications will be considered for appointment in the following order: (1) disabled veterans; (2) veterans; (3) former federal employees, and (4) others. Up to the present time, very few veterans have applied for work, and the recruiting officer stated that in certain positions there is very little competition, and for this reason anyone interested should place his application on file.
