DAILY DEVOTIONAL

DR. CHARLES A. EDWARDS

"Seek first the kingdom of God." Anxiety over material things may cause us to lose completely our grasp on the spiritual and the eternal. We are spirits living in physical bodies, and spirits can never be completely satisfied with material things. If we allow things to crowd out God, we shall continue our quest in vain, ever seeking but never satisfied. For only God can satisfy a spirit created in His own likeness. God understands that we have need of material things in this world, but He cautions us against placing them first. "Seek first," says He, "the kingdom of God, and His righteousness; and all these things shall be added. And if material values decrease and fade out, we shall not be distracted or upset. They are but a secondary loss, and may be replaced by the original Giver. We are always rich so long as we possess those gifts of the spirit which no outsider can take away from us. "High in the heavens Eternal God, Thy goodness in full glory shines; Thy truth shall break through every cloud That veils and darkens Thy designs."—Amen.

Texas Birthplace Of Eisenhower to Be Denison Shrine

By JACK RUTLEDGE

(AP News Features)

DENISON, Tex. — Gen. Dwight D. Eisenhower is expected to go down in history with Washington and Lee as one of the great American generals of all time, and Denison is wasting no time in converting his birthplace into a shrine.

Gen. Eisenhower was born here October 14, 1890, in a neat white frame house a few yards from the railroad where his father worked.

It was in the best part of town then. Across the street was the mayor's home.

Next door was the house of a prominent lumber dealer. Both have burned since then, but the Eisenhower home still stands in the center of two large lots six blocks from the center of town.

A civic committee has bought the six-room one-and-a-half story home for \$3,000 and will repair and restore it to its original appearance.

Furniture of the 1890s will be used. The living room, bedroom, dining room and kitchen will be typical of the '90s, even to the kitchen utensils.

Miss Jennie Jackson, a school teacher who bounced Eisenhower on her knees when he was a baby, is in charge of the restoration. It is hoped that many of the general's personal articles will be on display for posterity.

At present, relics and souvenirs of World Wars I and II are being gathered.

All-Out Civic Project — The shrine is a civic project. Money is being raised through

public subscription. All civic clubs are cooperating.

School children are donating pennies and nickels. The home has been deeded to the city of Denison.

A permanent committee will be appointed to improve and maintain the property as a shrine. It will be the responsibility of the city to see that it is done properly.

Denison hopes to have the restoration completed by the time Gen. Eisenhower visits his birthplace this spring.

The date has been set tentatively for April. It will be his first return to the city of his birth.
