DAILY DEVOTIONS DR. CHARLES A. EDWARDS

The changeless Christ in a changing world. "Jesus Christ the same yesterday, today and forever." Look for a moment at our unchangeable Christ. He is unchangeable to sin because of what sin is in itself and of what it does to men. Sin is rebellion against God. Sin is destructive to man for whom Christ died, and for whom He continues to suffer the throes of death, as long as man remains in sin. Christ is unchangeable in His love for men, in spite of their sin and waywardness. He is unchangeable in His power to save. He has the same power today as when He said to the sick of the palsy, "Arise, take up thy bed, and go unto thine house." He is unchangeable in His search for lost men. Down through the ages He continues to be the Shepherd, seeking the lost sheep until He finds it. His purpose and goal for man are unchangeable. "Be ye therefore perfect, even as your Father which is in heaven is perfect." The plan of salvation is unchangeable: viz: conviction, penitence, faith, surrender, forgiveness. A new creature in the changeless Christ. "Hold thou the cross before my closing eyes, Shine through the gloom and point me to the skies, Heaven's morning breaks, and earth's vain shadows flee: O Thou who changest not, Abide with me."—Amen

She was also a member of the Order of Eastern Star of Roseburg and the Congregational Church of Kensington, N. H. Surviving are her husband,

MAY FREE SHOES OF PRODUCTION LIMIT

WASHINGTON, April 27.—(AP)—Suspension of all production controls over shoes will be proposed to footwear makers and retailers on Monday, the civilian production administration announced today.

If the industry concurs, OPA said, it would lift its "Order N-217" which for nearly four years has regulated the country's shoe production in order to maintain quality standards in normal price ranges.

Shoe output has reached "an all-time high of 42,000,000 pairs a month," OPA said, compared to an average of 34,100,000 pairs in the period, 1936 to 1940. "Barring raw material or labor shortages this year, it is expected that shoe producers will turn out between 500,000,000 and 550,000,000 pairs of shoes in 1946—an output never before attained," the announcement said.

The prosecution agency said OPA concurred in the proposed lifting of control even though an OPA official recently revealed that the price agency planned shortly to increase price ceilings on low-priced shoes in order to spur production.

LEGAL NOTICES

SUMMONS IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR DOUGLAS COUNTY. EVA ACKERMAN and CAROL W. ACKERMAN STINGLEY, Plaintiffs, vs. THE ATHENAIA, a dissolved corporation, and All Other Persons or Parties Unknown claiming any right, title, interest or estate in the real estate described in the amended complaint herein. DEFENDANTS: All Other Persons or Parties Unknown claiming any right, title, interest or estate in the real estate described in the amended complaint herein.

IN THE NAME OF THE STATE OF OREGON. You are hereby required to appear and answer the complaint filed against you in the above entitled Court and cause, within four weeks from the date of publication of this summons, and if you fail to so appear and answer, for want thereof, plaintiffs will apply for and set forth the relief demanded therein, a subpoena, in and to which is as follows: That you be notified of the nature and character of your adverse claims to the following described real property in Douglas County, Oregon, to-wit:

Beginning at the Northwest corner of the above described Plot in the Town of Myrtle Creek, Douglas County, Oregon, the same being the intersection of Main and First Streets, in said town; thence in a Southwardly direction along the Main Street 100 feet; thence in an Easterly direction parallel with First Street thence Northwardly along Block Seven (7); being the junction of said Block Seven (7) and Oak Street thence Northwardly along the Westerly line of Oak Street 150 feet to the Southern line of First Street; thence Westwardly parallel with First Street to the place of the beginning. And that upon the hearing thereof it be decreed that the plaintiffs are the owners as tenants in common of the real property described herein and that you have no right, title, estate, lien or interest in or to said real property or any part thereof and that the title of the plaintiffs therein be forever quieted against you and that you be enjoined from asserting or claiming any right, title, estate, lien or interest in or to said real property.

This summons is served upon you by publication in the Roseburg News-Review, a newspaper of general circulation, published in Douglas County, Oregon, pursuant to an order of the Honorable Carl E. Wimbler, Judge of said Court, duly made and entered on the 17th day of April, 1946.

Dated and first published this 15th day of April, 1946. GEDDES & FELKER, Attorneys for Plaintiffs, 515 National Bank Bldg., Roseburg, Oregon.

Tax Sources Vary Widely in Three States on Coast

OREGON STATE COLLEGE—How much the three states of Oregon, Washington and California differ in their tax structures is emphasized by a table prepared by Dr. W. H. Dreesen, professor of economics at Oregon State College.

Dr. Dreesen, who is the author of various bulletins on tax matters resulting from extensive research, says the table cannot be made strictly comparable but is accurate enough to indicate the general sources of major tax revenue in the three states.

In California, for example, a property tax is collected on automobiles, while Oregon depends on licenses and gas tax. On the other hand Washington has a public utility tax while Oregon includes public utilities in the general property tax. The table includes collections for state, county, city and school levies, but not city franchise taxes. California figures are for the biennium 1943-45, while Washington and Oregon figures are for the fiscal year 1944-45.

PERCENTAGE DISTRIBUTION OF MAJOR REVENUE

Table with 2 columns: Source of Revenue, Percentage. Includes General property tax, Liquor revenue, Insurance companies, Auto license, gas, etc., Sales tax, Income tax, Inheritance, gift, etc., Cigarette tax, Business and Occup. tax, Public Utilities tax.

Marines Recruiting Dated Recruiting of men for general and aviation duty in the U. S. Marines for two, three or four years will take place at the Roseburg Army, from 8 to 4:30 o'clock Thursday, May 2, according to an announcement made by S-Sgt. M. C. Sliv, Eugene, who will be in Roseburg that day.

ALFAFA WAS CULTIVATED BY THE PERSIANS FOR CENTURIES BEFORE THE CHRISTIAN ERA.

In the United States, dog grease once was considered a cure for tuberculosis, deer suet for dysentery, and beaver oil for paralyzed limbs and aphasia.

SUGGESTIONS, NOT ADVICE.

Yeah, we will stick to our guns. We won't offer advice. But the situation gets worse by the hour. And it's getting close to midnight.

As we all know now, President Truman last week offered wheat growers a 30c bonus for all wheat sold before May 25th, and the same bonus for 50 million bushels of corn. This, as you must know, covers sales to the Government. All other buyers must abide by the OPA ceiling prices.

"All other buyers" means flour mills, feed manufacturers, food processors, distillers, etc. And it doesn't take a psychologist to figure out how much wheat a miller could buy at \$1.80 with the Federal Government bidding \$2.10.

One even wonders if the farmer who still holds his wheat will tear into town and sell to the Government when said Government is daily raising its own bid. That's debatable, but it's a cinch he won't sell to anybody else for \$30 less.

And what can the millers and feed mixers do? We hate to admit it, but we can only hope, beg, pray and plead that the Government will sell, loan, give, transfer, or otherwise let us have enough to keep the poultrymen, dairymen and turkeys and the working men able to buy at least cornmeal and whole wheat flour (oh, well, we run out of bread, we won't notice the butter shortage!)

It appears the "Government" prefers to fulfill its "commitments" regardless of what happens to Americans. And, by the way, we talk so glibly these days about "the Government." Just what do you understand by the term? Government used to be laws and rules laid down for the American people to follow, passed by a Congress and run out of a building elected by said American people, and interpreted by a Supreme Court provided by the Constitution.

Nowadays, "Government" appears to mean a set of Direc-
