DAILY DEVOTIONAL

DR. CHARLES A. EDWARDS

In the year 1861 during the dreadful crisis of the War Between the States, the secretary of the Treasury of the United States wrote a letter to the director of the mint at Philadelphia in which he said: "No nation can be strong except in the strength of God or safe except in His defense." He recommended that the trust of the people in God be declared on their coins. Accordingly orders were given to prepare a motto to express national recognition and trust in God. At first, this read, "God Our Trust." Later the inscription was changed to read, "In God We Trust." Religious idealism was the principle upon which the founding fathers came to America and built a new nation. It has been the guiding star of all truly great statesmen since that time. And we shall do well to make it the guiding star of our lives today. Some, indeed, put their trust in riches, power or influence, in armies, navies, air force or mechanized equipment; but let us, in the words of the Psalmist "remember the name of the Lord our God" and put our trust in Him. "Trust in the Lord and do good; so shall thou dwell in the land and verily thou shall be fed."—Amen.

Long Distance expansion program in full swing

Millions of dollars will be spent broadening service on the Pacific Coast

In 1946 alone, on the Pacific Coast, millions of dollars worth of long distance equipment will be installed—some 200,000 miles of new circuits, for example...vacuum tube

systems that boost the number of calls present wires can handle.

This is a part of our unprecedented \$400,000,000 five-year program to provide an ever expanding, ever improving telephone service here on the Coast.

Yes, we are on our way to providing a broader, faster, long distance service than you ever thought possible. For it is our purpose to grow with the West and help the West grow in every way we can.
