In the Day's News

(Continued from page 1) ginning at the election next November, when all the members of the house and a third of the members of the senate will face the test of re-election.

As the temper of the voters becomes apparent as a result of these elections, new laws will be shaped and existing laws will be amended. It will be a SLOW process—not an immediate one.

So let's keep our shirts on. Let's not rock the boat.

PRESIDENT TRUMAN is apparently determined to go through with what he has started. He tells his press conference that he will use every means in his power to keep the ships running in the event of a nationwide maritime strike.

He tells his press conference that he will use every means in his power to keep the ships running in the event of a nationwide maritime strike. He says he will use the navy, the war shipping administration, the coast guard and the army—if necessary. That is quite a lot of means.

We must remember, in estimating the situation, that officially we are still at war and the President still has at his disposal all the war powers granted to him for the period of the war emergency.

If you are not to become confused, you must keep in mind that it is BIG strikes in BIG industry—industry essential to the functioning of the normal life of the nation, such as railroads, coal mines, shipping, etc.—that will be dealt with in the manner President Truman has initiated.

One can't help wondering at times if big industry and big labor aren't getting too big to handle. They are already too big to be handled by any power other than the federal government, acting for ALL the people on the sound and tested principle that the rights of all are superior to the ambitions of the comparatively few.

AS is frequently pointed out in this column, the news always LOOKS worse than it really is—because the unusual and exciting get so much more attention, both from headline writers and from readers, than the normal and the unexciting.

Employment in April, he says, climbed to 54 1/2 millions, and if it rises another 21 millions—as he says, seems certain—it will hit the 75-million mark, which is almost up to the 80-million figure that so scandalized us by its seeming impossibility when it was first suggested something like a year ago.

THAT gives us a hint of the fantastic possibilities for full employment and prosperity in America when we finally get settled down to business.

Myrtle Creek Building Permit Given by CPA E. C. Channon of Myrtle Creek has secured CPA authority for construction of a concrete-block building to house a plumbing and electrical shop.

Price Ceilings Upped On Farm Machinery An increase of 5 per cent in the list prices of farm machinery has been authorized by the OPA.

THE ROAD WE TRAVEL

The thought that nation-wide confusion is deliberately planned by radical and subversive groups, endeavoring to wreck America as the last world stronghold of the free enterprise system, may seem far-fetched, Circumstantial evidence, however, even though inconclusive, should not be entirely disregarded.

The world at large has adopted state socialism in some form or another. The United States alone preserves a somewhat shaky system of free enterprise. Even Great Britain, most conservative of all nations, has nationalized its banking system and its industries.

If paralyzing strikes are permitted to continue, the only solution lies in seizure of utilities and industries by the government. From that point it is only a step to full government ownership.

There is something sinister and insidious in the present chaotic condition of this nation. The confusion is too complete to be solely the result of circumstance.

The only defense against this plot lies with the people of this country. Several methods, however, are open. One is a clear expression of the people to our leaders in Congress that we have had enough interference and that we demand protective laws.

We do not believe the rank and file of labor desires state socialism, for history furnishes conclusive proof that labor is the first to suffer from the operation of such a system.

Cardinals Beaten Twice by Their Former Mates

(By The Associated Press) The St. Louis Cardinals, preseason favorites in the National League, may wind up among the also-rans because of their inability to win at home.

Including yesterday's double loss to the New York Giants, which dropped them three and a half games behind pace-setting Brooklyn, the Redbirds have won only six of 15 games at Sportsman's Park—a percentage of 40, and fully 190 points below their over-all pace.

A pair of former mates—Bobby Blatner and Walker Cooper—beat the Cardinals yesterday. Blatner scored the only run in the Giants won the opener 1-0, then homered in the 11th inning of the nightcap to give the New Yorkers a 7-6 decision.

Getting superlative pitching from his so-called secondary hurlers—Webber, Herring and Casey—Brooklyn gained two full games on the Cards by defeating the Cincinnati Reds 2-1 and 1-0.

The Chicago Cubs split with Boston's Braves to move into a third place tie with the Reds. The Braves, with Mort Cooper notching his third win, won the opener 6-3 and the Cubs captured the nightcap 8-2 behind Passeau, who registered his fourth victory.

Pittsburgh had to be satisfied with a split in its twin binn with the Philadelphia Phillies. The Pirates copped the opener 5-1 as Rip Sewell, returning to action for the first time since his collapse on May 5, held the Phils to four safeties.

Homer by Martin Keeps Oaks at Top Of Coast League (By The Associated Press) Heschel Martin maintained the Oakland Oaks' Pacific Coast League lead with a homer with a man on base yesterday.

Portland and San Diego play tonight at 8 o'clock, to finish up their series. Portland then goes to Sacramento, Seattle to San Diego, and Hollywood to Los Angeles for this week's other contests.

Piluso Wins Over Lynam; Angelo Is Victor Over Szasz

In a clean, fast, three-fall bout that lasted only 18 minutes and 22 seconds in its entirety, Ernie Piluso, possessor of the world's light-heavyweight wrestling crown, turned back the challenge of Joe Lynam in the main event of the weekly mat bill at the Roseburg Armory Saturday night.

The semi-final between villainous Bruno Angelo and Hungarian Al Szasz, also a three-fall affair, furnished the fireworks of the night's hilarity. Loser was Szasz, who registered only the second fall—a great following a drop kick in 10:14.

AShlund High Sprinter Sets New Mark for Mile PORTLAND, Ore., June 3.—(AP)—An unofficial 4:20.5 mile run by George Fullerton, Ashlund High School, in the Oregon A.A.U. open meet here Saturday clipped nearly a second off the official all-time mile record for American high school runners.

Merlin White, Tigard, raced the 100-yard dash in :10.2 and the 220 in :22.5 while George Rasmussen, Bend, vaulted 12 feet 10 1/2 inches.

The present system of punctuation grew out of a system developed by Aldus Manutius, Italian scholar and printer, who printed Greek classics on his press at Venice in the 15th and 16th centuries.

the FEED BAG Vol. VIII Published Weekly by the Douglas County Flour Mill, Mfrs. of Umpqua No. 20 and Sunrise Poultry and Dairy Feeds. June 3, 1946. They're Awake! "Were we directed by Washington when to sow and when to reap, we should soon want bread." The above quotation is not by a reconstituted New Dealer. Neither is it by any office seeking Republicanism. It is not even a quotation from the files of "The Feed Bag." No, it was written by Thomas Jefferson many years ago, and we believe it is as true today as it was then. We have had no way of knowing for many weeks whether the "Planners" who figure out the destinies of poultrymen were asleep in a coma, or just plain "stubborn as a mule." For all the attention that was paid to pleas to save poultrymen from bankruptcy, or predictions that the planned economy was hurling us rapidly into shortages of eggs, meat, milk and other basic foods, they may as well have been dead. Well, they are awake now, though nobody knows when the alarm went off. In a Special Hatcher Report dated at Washington May 22, it says: "Supplies of feed in the deficit producing areas of the country are smaller than was anticipated earlier in the season. THE FEED SITUATION IS GROWING MORE SERIOUS." Task! task! Just imagine! And they think chick production will be about 20% below last year, which is just exactly the way they wanted it. Swell planning, eh? Furthermore, as you have noted in the press, feed is rolling to the Great Northwest like a prairie cyclone. The Railroad trainmen and engineers just looked at those huge shipments of Oregon and Washington poultry feed and decided that, since it had to be moved anyway, they better call off the strike and get busy at the job. ("So you see, it really wasn't Pres. Truman who settled the strike. It was Sec'y. Clinton Anderson, the CCC, the OPA, the OBT, and a lot of the other ABC's we have been cussing so long, Long Live Anderson!") The paper says that up to half a million bushels of "hominy feed" and 300 cars of oats, barley and corn are headed for the Northwest. We have no confirmation that a single car has started on its western travels, but we really believe we are going to get some feed. It may be two weeks, or it may be two months. So, don't celebrate yet. Get Those Sacks Back. Remember, our country is still beset by strikes. And shortages. And deficiencies. And sometimes total absences of goods. We find it difficult to get new sacks. Al-most impossible, in fact. We have sold a heap of feed in new sacks lately, and somebody is "holding the sacks." Would you care to be caught "holding the sack?" Well, you can save yourself that embarrassing situation, and at the same time make some money. Bring back the empties, and let us hold the sacks. Feed is about the highest it has ever been. Any way to save a little on feed cost should be welcomed. Now, just figure: Egg mash at \$4.02 seems terrific. But if you return the branded sack, it really costs you only \$3.92. And that's surely cheap enough! Daughter: "Mom, what is ailment?" Mother: "It's a married man's cash surrender value, honey!" Sanicoat. Do we have something to sell, even if we are out of feed. We think you will like to use "SANICOAT" in your barns this summer. Sanicoat will keep your barn floors in excellent condition, prevent odors, and at the same time it PREVENTS FLIES. It has DDT, which kills and prevents many other harmful and pestiferous insects. Also, don't forget, for house DDT in the press, feed is rolling to the Great Northwest like a prairie cyclone. The Railroad trainmen and engineers just looked at those huge shipments of Oregon and Washington poultry feed and decided that, since it had to be moved anyway, they better call off the strike and get busy at the job. ("So you see, it really wasn't Pres. Truman who settled the strike. It was Sec'y. ("So you see, it really wasn't Pres. Truman who settled the strike. It was Sec'y. Clinton Anderson, the CCC, the OPA, the OBT, and a lot of the other ABC's we have been cussing so long, Long Live Anderson!") The paper says that up to half a million bushels of "hominy feed" and 300 cars of oats, barley and corn are headed for the Northwest. We have no confirmation that a single car has started on its western travels, but we really believe we are going to get some feed. It may be two weeks, or it may be two months. So, don't celebrate yet. Get Those Sacks Back. Remember, our country is still beset by strikes. And shortages. And deficiencies. And sometimes total absences of goods. We find it difficult to get new sacks. Al-most impossible, in fact. We have sold a heap of feed in new sacks lately, and somebody is "holding the sacks." Would you care to be caught "holding the sack?" Well, you can save yourself that embarrassing situation, and at the same time make some money. Bring back the empties, and let us hold the sacks. Feed is about the highest it has ever been. Any way to save a little on feed cost should be welcomed. Now, just figure: Egg mash at \$4.02 seems terrific. But if you return the branded sack, it really costs you only \$3.92. And that's surely cheap enough! Daughter: "Mom, what is ailment?" Mother: "It's a married man's cash surrender value, honey!" Sanicoat. Do we have something to sell, even if we are out of feed. We think you will like to use "SANICOAT" in your barns this summer. Sanicoat will keep your barn floors in excellent condition, prevent odors, and at the same time it PREVENTS FLIES. It has DDT, which kills and prevents many other harmful and pestiferous insects. Also, don't forget, for house DDT in the press, feed is rolling to the Great Northwest like a prairie cyclone. The Railroad trainmen and engineers just looked at those huge shipments of Oregon and Washington poultry feed and decided that, since it had to be moved anyway, they better call off the strike and get busy at the job.
