Assails Use of Lumber For Prizefight Strands

COLUMBUS, O., June 10.—(AP)—Ray Pennell, secretary of the Columbus Housing Advisory Commission, declared here it was "a terrible thing to see" 600,000 feet of lumber authorized for construction of stands for the Louisville fight in New York, June 19. He asserted he was forwarding a protest to the Civilian Production Administration in Washington.

Remarking that the lumber was sufficient to build 35 low cost homes, Pennell added in a formal statement: "With many returned veterans living in garages, or trying desperately for temporary housing, it is a terrible thing to see that our federal government has allowed all this material to go for such a purpose."

Ex-War Captive Claims Kin Wasted His Fortune

LOS ANGELES, June 10.—(AP)—He hasn't a cent and is dependent upon friends, Harrison Post charged here, because his half-sister and her husband dissipated \$500,000 while he was in a German concentration camp. The adopted brother of Guy Bates Post, the actor, filing suit in superior court, demands an accounting of his fortune from Charles and Gladys Crooks, who, he alleges, had him kept virtually incommunicado under care of a male nurse and finally sent him abroad, where he was interned by the Nazis invading Norway. The money, said Post, was taken to him by the late William A. Clark, Jr., millionaire copper magnate. Post was Clark's secretary and confidant.

New Crosley Is 1000-Pound Midget

Here's the postwar Crosley, and its ease of judgment by comparison with the young woman beside it. Big feature of the car is the 59-pound, four-cylinder engine, built in thin sheet steel stampings instead of heavy forgings and castings. Cylinder walls, of chromolybdenum steel, are only one-sixteenth inch thick. Power windows, a gallon of gas will take the car 50 miles at 35 mph. Entire car weighs 1000 pounds, is two-door sedan with streamlined aluminum body, 80-inch wheelbase and 145-inch overall length.

Thousand-Dollar Baby

If the six-day-old cocker spaniel above can retain his pure-white coat, it will be worth \$1000 to his owner, Irving S. Wagner of Topeka, Kan. A California kennel owner offered that much to Wagner, who says he knows of only one other pure-white cocker in the United States.

Douglas Posse Receives Plaque for Festival Role

The Douglas County Sheriff's Posse, which entered 32 horses and riders in events at Portland's Rose Festival, had the largest mounted organization participating. Captain Dick Baker reported today, Klamath Falls, with 30 riders, was second in size. Posses were not judged in competition but the Douglas county group won third place for mounted organizations, receiving a beautiful bronze relief plaque from Nudelman Bros., as a trophy.

The posse members spent five hours and 20 minutes in their saddles Friday as they took part in the parade and exhibition drill. They traveled a total of 24 miles on horseback during the two days in Portland.

DAILY DEVOTIONAL

DR. CHARLES A. EDWARDS

Rev. Ira Gillett, missionary in Portuguese East Africa, a graduate of O. S. C. Oregon, tells the story of a group of natives who made a long journey, and walked past a government hospital to come to the mission hospital for treatment. When asked why they had walked the extra distance to reach the mission hospital when the same medicines were available at the government institution, they replied, "The medicines may be the same, but the hands are different." What a debt we owe to those whose "hands are different." Such are the hands of our missionaries, who are ministering in the far and difficult places of the earth. It is our privilege to support them with our money, our interest, and our prayers. How insignificant our own trials seem compared with the difficulties and dangers endured by those who have gone out in our stead into mission areas! As we hold up those helping hands, we too are ministering to God's far-off children whom personally we cannot reach. "Hark, the voice of Jesus calling. Who will go and work today? Fields are white, and harvest waiting. Who will bear the sheaves away? Loud and long the Master calleth. Rich reward He offers thee Who will answer gladly saying, Here am I, send me, send me." —Amen.

Sacrifices Better Than Another War, Sen. Morse Says

PORTLAND, June 10.—(AP)—America must work for the objectives of the San Francisco charter because the task is easier than another war, Senator Wayne Morse told a Reed College graduating class here yesterday. "I am firmly convinced that the best interests of America call for the making of whatever immediate seemingly economic sacrifices we may have to make as a nation to implement the United Nations' Morse declared. "Whatever the price, it would be cheap indeed compared with the cost of war, which is certain to follow if we as a nation break away from the objectives of the San Francisco charter." Morse asserted that the atomic age means the world cannot live as nations, but as continents and oceans already "made tiny in terms of time space" in the new era of science. He also urged that the United States accept compulsory jurisdiction of the world court at The Hague, noting that the U. S. and Soviet Russia are the only two great nations that have refused to do so.

Housing Shortage Slows Oregon Lumber Output

PORTLAND, June 10.—(AP)—A housing shortage in upstate cities and logging areas hampers employment progress in the state, Lee C. Stoll, state U. S. employment service director, reported. Unemployment in Oregon was 61,000 on May 1, of which 70 per cent was in the Portland area. Stoll reported. He said shipyards that a location of a new mill for had been laying off workers at a cutting and shaping of timber for rate of 1,500 a month in recent months and that the industry's conv. of Portland, is being sought

Food Story, 1946

BUTTER	11 lbs. '46	10.5 lbs. '45
SUGAR	Over 73 lbs. 1945 & '46	96.5 lbs. pre-war
MEAT	150 lbs. '46	129 lbs. '45
EATS	6% more food	21% less margarine
DAIRY	Less milk and cream	More cheese, canned milk
POULTRY	Same amount chickens	More turkeys
FRESH FOODS	Same amount fresh fruit	9% less vegetables
CANNED GOODS	Not enough canned meats, fish, fats to meet demand	
GRAIN PRODUCTS	Not enough to meet demand	

NEA Newschart

The Department of Agriculture says that Americans will eat more food in 1946 than ever before, although some items will be "substantially" below demand. Newschart above shows how 1946 supplies of some food compare with 1945 and pre-war years.

payroll was down to 10,578 compared to 90,000 at the wartime peak.

Stoll said he had notified Washington that the housing-caused "bottleneck" in employment in logging and lumber areas would prevent a 25 per cent boost in Oregon's lumber production asked by National Housing Expediter Wilson Wyatt.

He reported lack of skilled personnel and transportation, also the job turnover, was hampering lumber production.

Long and Thin
SKOKIE, Ill., June 10.—(AP)—If the owner of a single lot in this Chicago suburb wants to build a house the dimensions, under the law, must something like a bowling alley. Many lots in Skokie are 30 feet wide. However, the village's building ordinance specifies that no house may be built which does not have at least 1,000 square feet of floor space, and also requires that a house be four feet distant, on either side, from property lines. Thus, on a 30-foot lot, a house can't be more than 22 feet wide, and must be slightly more than 45 feet deep.

Doernbecher Co. Seeks Location at Reedsport

REEDSPORT—It is understood that a location of a new mill for cutting and shaping of timber for the Doernbecher Furniture Company is being sought.

by that company, which recently contracted for the cutting of a large stand of timber owned in this vicinity. Crews are already in the woods under direction of Warren Waggoner, superintendent, making preliminary surveys and arrangements for cutting, hauling and refitting logs to this city for car loading and shipping to Portland.

JOIN THE FAMINE FIGHTERS

Help save 28,000,000 bushels of vitally needed grain that will be wasted in 1946 unless we act now... it can be saved... Here's how we can do it...

1. There are in America today 8000 self-propelled combines... many in your vicinity. Self-propelled combines save ALL of the grain on the opening cut while tractor-drawn combines lose over 50% of the opening swath.
2. Each self-propelled combine owner has been requested to help fight famine by opening fields for their farm neighbors. If all self-propelled owners open 200 miles of fields each in 1946 in addition to their normal work, they will recover 28,000,000 bushels of grain that would otherwise be wasted.
3. You may be able to have your fields opened by a grain-saving self-propelled combine—then finish the job with a tractor-drawn combine. You'll help add 28,000,000 bushels of grain to America's food supply... provide food for starving millions abroad. And you'll get more grain from your crop... and more profits. Over \$30,000,000 worth of extra grain can be saved.

Act At Once!
Contact a self-propelled combine owner immediately and arrange to have your fields opened. See us now for full information.
