He announced his organization had hired an attorney—and if this nip, nip, nipping doesn't stop, bitten postmen are going to sue.

Elephants Work as Well as Perform

"DOUBLING IN BRASS"—Three of the performing elephants with the Clyde Beatty Circus move a heavy wagon into the big show's menagerie, showing here today.

Even though they "double in brass" nowadays with the big show—that is, they are actors and workers, too, the elephants are the most even tempered and obliging creatures on the lot, and that does not except any of the human troupeurs, either.

When the big Clyde Beatty Railroad circus comes to Roseburg Friday, June 14, at the Garden Valley and Walnut St. grounds, the elephants will be seen in the dawn's early light unloading the show's railroad cars, hauling cages and wagons along the strings of flat cars to the ramps, jerking them aside into the clear and then heading for the lot to start work all over again.

Need of Continued China Lend-Lease Cited by Truman

WASHINGTON, June 14.—(AP)—President Truman told Congress today it cost the United States \$300,000,000 to transport four Chinese armies by air to place them in position to disarm the defeated Japanese after V-J Day.

The president disclosed this in his 22nd report on lend-lease operations in explaining why it was deemed necessary to continue such aid to the nationalist forces after lend-lease had been terminated for all other nations.

Total lend-lease aid to all countries from March 11, 1941, through Dec. 31, 1945, amounted to \$49,096,000,000, the president said.

In addition to the "gigantic lend-lease operation" of ferrying Chinese troops by air, Mr. Truman revealed that \$68,000,000 in vehicles and \$50,000,000 in ammunition were lend-leased to China from American Army supplies in the Far East.

The president's report disclosed that this and other post-V-J Day aid more than doubled the total lend-lease assistance furnished China before that date. The total through Dec. 31, 1945, now stands at \$1,335,632,000.

More than 60 per cent of all wartime lend-lease went to the British Empire which got \$30,753,304,000; Russia was next with \$11,141,470,000, followed by France and its possessions with \$2,377,072,000.

China ranked fifth, followed by Brazil with \$319,494,000; the other South American republics \$14,646,000; The Netherlands \$178,064,000; Belgium \$52,384,000; Greece \$76,838,000; Norway \$37,708,000 and other countries \$100,186,000.

83 Veterans Training In Apprenticeships

Long Distance Calls Soaring; Patience Asked

"If by chance you have had to wait a few minutes or longer before having your long distance call connected, rather than having the call go through while you remain on the line, there is a reason," says W. M. McEachern, for the Pacific Telephone and Telegraph Company here.

The reason, according to McEachern, is that the number of long distance calls placed by Roseburg telephone users has zoomed to an all-time high and is far above the busy war years.

The average number of daily long distance calls from Roseburg in May this year was 918, or 40 per cent above the same month last year when the war with both Germany and Japan was in progress.

"Our people are doing everything possible to handle this unprecedented number of long distance calls promptly," declared McEachern, "but at peak periods there are occasions when the seven long distance switchboard positions which we have simply are not enough. New switchboard positions have been engineered and ordered but, due to general shortages, it may be many months before these can be manufactured and installed."

"We have increased the number of people on our operating force from 21 to 31 in the past year and these girls are doing an outstanding job."

McEachern also pointed out that the total number of calls, including both local and long distance, also had soared to unprecedented levels in Roseburg since the war ended. In May the average number of total daily calls was 11,195, or 56 per cent above the average number of 7,179 in May a year ago.

Chance of Accord At 4-Power Meet Regarded Poor

PARIS, June 14.—(AP)—Secretary of State Byrnes was the first of the foreign ministers to arrive today for the fateful four-power conference which is expected to decide whether Europe will be united or divided into eastern and western spheres.

Both Byrnes and Bevin have indicated the meeting starting tomorrow might be the last attempt of the foreign ministers to resolve differences, and that the United States and Great Britain might execute separate peace treaties with defeated European nations if they are unable to agree with Russia. Previous foreign ministers' conferences in London, Moscow and Paris since the war have failed to produce accords.

A member of the American delegation who reached Paris earlier said Byrnes would stand firm on American policy on disputed points in European peace treaties and would maintain his position in the face of Russian opposition. The informant predicted a short and fruitless session unless Russia yielded.

Peace treaties must be drafted for Italy, Rumania, Hungary, Bulgaria, Finland as well as Germany. Some agreement also is contemplated for Austria, which the Allies treat as an independent country rather than as part

Kin of Roseburg Man Hurt in Illinois Tornado

Gene Palmer, until recently proprietor of Palmer's Grocery, received word today that his brother-in-law and sister, Mr. and Mrs. Wm. Kattohofer, and their small son, Billy, had been injured in a tornado at Peru, Ill. The condition of Mr. and Mrs. Kattohofer was described as "serious," while the child was reported "critically" injured. No further details were given in the message, which was dispatched by Mr. Palmer's mother, a resident of Ladd, Ill.

Palestine Admission of Jews Still Urged by U. S.

WASHINGTON, June 14.—(AP)—The United States still is urging admission of 100,000 refugee Jews to Palestine, President Truman said today and is trying to work out the problem with Britain.

He said that his special cabinet committee of Secretaries Byrnes, Patterson and Snyder was sending a delegation to England to tackle the issues raised by the proposed immigration.

In London, the British foreign office announced today that Britain would await the outcome of these negotiations before deciding to accept or reject the Anglo-American commission's recommendation for admission of the 100,000 Jews to the Holy Land.

British Foreign Secretary Bevin previously had indicated that the proposal would be turned down.

Two Asked to Be Heard On Vinson's Nomination

WASHINGTON, June 14.—(AP)—Action on the nomination of Fred M. Vinson as chief justice of the United States today was delayed until next Wednesday when two persons asked to be heard by a Senate Judiciary Subcommittee.

The men were Robert Gray Taylor of Media, Pa., and Edwin J. Creel of Washington, D. C. Taylor told newsmen "I have not questioned the integrity of Mr. Vinson and I do not question it." He said he was interested generally in the integrity of the judiciary.

Seed Loan Rates For 1946 Set By PMA for Oregon

A ladino clover support price 15 cents a pound less than for 1945 is the new provision of the 1946 hay and pasture seed loan program most important to Oregon producers, points out E. Harvey Miller, chairman of the state PMA committee.

Under the 1946 schedule, top quality certified ladino clover seed will command a loan rate of \$1.35, compared with last year's \$1.50. More than 75,000 pounds of the 1945 crop were placed under loan by Oregon producers.

Loan rates for two other seed crops have been lowered one cent a pound to eight cents for biennial sweet clover and three cents for farm-stored sudan grass. Rates for other kinds of seed remain unchanged from 1945.

Unchanged are alfalfa, common at 33 cents and certified at 40 cents; alsike clover, 25 cents; red clover, common at 28 cents and certified at 34 cents; certified orchard grass, 15 cents; white clover, 30 cents.

These loan rates are for seed meeting basic germination and purity requirements. Appropriate discounts are provided for seed of lower quality. With the exception of sudan grass, loans will be made only on seed stored in approved warehouses. Details can be obtained from county agricultural conservation committees.
