DAILY DEVOTIONS

DR. CHARLES A. EDWARDS

Not the least among the blessings of a Christian experience is the ability to see the bright side of things. It would seem that it is not only our privilege but our duty to see the bright light which is in the clouds, and every cloud has a silver lining. There is an ancient proverb which says, "All sunshine makes the desert." Everyone must have days of difficulty and seasons of cloudiness, but not all assume the same attitude toward them. Jesus said there are those who have eyes and see not. The light is there, but the shades must be lifted by prayer and with faith. When days are cloudy, happy are we if we can say:

"When darkness veils His lovely face,
I rest on His unchanging grace."

In Pilgrim's Progress, Evangelist said to the weary Pilgrim, "Do you see yonder shining light." Keep that light in your eye, and go up directly thereto, so shalt thou see the gate. If we see the light in the cloud, then we shall know that all things work together for good to them that love God.

"The inner side of every cloud is bright and shining,
I therefore turn my cloud about,
And always wear it inside out,
To show the Silver lining."

—Amen.

Gen. Clark's Promotion Urged Despite Protests

WASHINGTON, June 18.—(AP)—The Senate Military Committee recommended today that Gen. Mark Clark be promoted to the permanent rank of major general despite objections from some men who fought under him.

A group of Texas war veterans had contended that lives of their comrades were wasted in the Clark-directed battle of the Rapido River in Italy.

Chairman Elbert Thomas of the Military Committee said the action was taken after two hours of closed door discussion.

"Without getting into the merits of the Rapido River crossing it was the opinion of this committee that Gen. Clark was worthy of promotion," Thomas told reporters. "He has a very fine record."

Morals of GIs in Europe Being Sapped, Assertion

WASHINGTON, June 18.—(AP)—Dr. Otto Pipe of Princeton seminary told a Senate Judiciary Subcommittee today that famine and disease in Germany threaten to undermine the morals of American occupation troops.

The theological teacher, testifying on a bill that would authorize the War Department to supply inhabitants of occupied countries with a minimum of 1,550 food calories daily, said returning soldiers had told him that crime conditions in Germany were affecting American troops.

"Hunger has driven hundreds of thousands of women of the occupied countries into prostitution," Piper declared. "When you have slum conditions, you have vice and crime. Add famine to that and the situation is accentuated. It is affecting our GI's."

He said many occupation soldiers had come to regard German women as "fair prey", and that this attitude could not be easily converted when they return.
