

Monarchs, Eugene Softballers Dated

An outstanding combination of players representing the Eugene Chamber of Commerce softball team will meet the local Monarch club July 6 at the Roseburg ball park.

Local league team managers decided that the leading team in the local league at the date of play will be the Roseburg opponent to all out-of-league opponents in pre-season play for the Oregon State softball playoffs. The Monarchs were undisputed choice for this opening game against Eugene, having finished the first-half round-robin series undefeated.

The Eugene club is reputed as one of the strongest in the state, having won contests against seven different Eugene teams and several representatives from surrounding towns. Umpires for the July 6 game will be Floyd Bruton and Bill Evans. The game will begin promptly at 8 P. M.

Vocational Class for Women to Be Organized

The State Vocational Education Department announces that a new class is to be organized in Roseburg to open Monday night, July 1, at 7:30 o'clock at the Junior High School, for all women of the community interested in learning how to make slip covers. The class will have eight lessons and will be completed within a three weeks' period. Each class meeting

will be conducted as a regular workshop with the ladies bringing their own materials. Mrs. Alta Simonson, Roseburg, and Miss May Van Deusen, Salem, itinerant instructors for the state department, will have charge of the class instruction. All women interested are asked to attend the first meeting Monday night.

Hot Spell Impending For Douglas County

Douglas County residents are in for several days of hot weather this summer in spite of the recent rain and windy weather, the local U. S. Weather Bureau reports. Reaching an all-time high mercury point last week of ninety-three degrees, the warmest day in Roseburg of the year, many more sultry days like it are soon to follow.

As explained by the weather office yesterday, the air from the inland plateau region of the Northwest met the cool air of the North Pacific ocean and stagnated this area, thus causing a minor heat-wave around the Roseburg and Douglas County vicinity. After the stronger currents of the Pacific loosened up, the held-back ocean air moved in and Roseburgers were cooled off by a light rain and the present cooler weather.

About 25 per cent of the world's known oil reserves are controlled by British-Dutch interests.

American interests control 56.4 per cent of the world's known oil reserves.

Russian Thrust at Control Plan Only Strengthens U. S. Aim to Keep Atomic Secrets

By J. M. ROBERTS, JR.
AP Foreign Affairs Analyst.

Pravda's outburst against the American atomic control plan has brought the to-be-expected reaction—a re-statement of our determination to keep such secrets as we can until unbreachable safeguards have been set up against boomerangs, and an expression of belief

There is resentment that America's goodwill is not accepted at face value; that we are accused of desiring world domination in the face of our altruistic record. Although admittedly working in

our own interest in attempting to set up controls before every nation, large or small, becomes a potential threat to peace, there

is bitterness that we should be expected just to give up, without quid pro quo, the fruit of the expenditure of billions of dollars and the greatest concentration of channeled genius in history. Even the British and Canadians, who contributed in every way they could, have not expected the United States to yield information which is peculiarly hers. But of course the British and Canadians do not foresee a time when they might be seeking to expand militant ideology at the danger of a clash with the capitalist world.

However, the point is that the actual circumstances surrounding the prospects for atomic control reduce today's argumentation to the status of mere fulmination. These are the sketchiest of

opening skirmishes. The truth is that control of atomic power involves the same principle as control of air itself, no less; that neither is likely to come without the other; and that many years, with great changes in the attitudes of both Russia and the United States, are likely to come first.

Bernard Baruch, with his singular ability to strike to the heart of a problem, hinted that any ultimate control plan might develop into an over-all peace formula. He was assigned merely to present a plan for atomic control. Others are assigned to the peace job. Otherwise the Baruch report might have placed greater stress on this angle.

Since any really workable control plan would need merely the

substitution of "implements of war" for the words "atomic bomb" to accomplish the entire desire, a great many observers are wondering if a concentrated overall peace might not have been the better procedure.

Safeway Food Price Policies Pledge Protection for You!

Regardless of what happens to OPA ceiling prices on foods these Safeway price policies are a pledge that Safeway prices will be kept as low as possible.

1. In setting its retail prices Safeway will continue to give consumers the benefit of savings resulting from our way of doing business by pricing at the lowest point that will yield a reasonable profit. For many years Safeway's profit has averaged less than two cents on every dollar of sales.

2. Safeway will do no speculative hoarding. Stores will maintain the largest possible supplies of foods at all times and they will be made available to all customers.

3. Safeway will pay full legitimate market prices to farmers and other producers of food.

DARIGOLD

400 UNITS
VITAMIN D₃
PER PINT

THE
SUNSHINE
VITAMIN

*In Darigold Evaporated Milk the Vitamin D content has been increased by the addition of 23 USP units of tasteless vitamin D₃ per fluid ounce. This provides not less than 400 USP units per quart when equal volumes of Darigold Milk and water are mixed. Vitamin D₃ increases nutritive value for infants, children and adults. Darigold Milk is homogenized for easier digestibility and safeguarded by sterilization and airtight sealing in the can. Ask your physician for his formula for preparing Vitamin D increased Darigold Milk for your baby.

ACCEPTED TESTED
The nutritional claims for Darigold Evaporated Milk are acceptable to the Council on Food and Nutrition of the American Medical Association.
The Vitamin D content of Darigold Evaporated Milk is periodically tested by the Wisconsin Alumni Research Foundation.
