In the Day's News

which are wide. (Officially, we are still in a state of war.) Any way you look at it, however, it is a mess.

The house acts with suspicious speed in sustaining the Truman veto. About the only reasonable explanation of its action, is that by doing so it throws the mess back into his lap.

That is certainly where it rests at the moment.

In vetoing the bill, President Truman calls it a "sure formula for inflation." He says: "It would start prices and costs climbing. It would start the value of the dollar falling and keep it falling."

Commenting on the veto, Republican Senator Taft says: "The President's action is the most inflationary move which could be made... This takes the lid off... The administration already, by the encouragement of wage increases and other costs, has brought about a series of price increases... All the (vetoed) bill does is to force the administration to recognize increased costs in fixing prices."

On both sides, you see, the pot merely calls the kettle black.

It looks very much as this is written as if Truman has been maneuvered into a tight corner. Even if he gets an extension of OPA before the deadline tomorrow night, either by joint resolution of congress or by use of his war powers, he will still be on the spot.

He can lead congress back to the price control trough and order it to drink. But will it? Both houses of congress, in the face of all the pressure the administration could bring to bear, have already defied his wishes as to OPA legislation.

Suppose they go to work on it again and bring in a bill substantially the same as the one vetoed Saturday. Where will the President be then?

So far as may be judged by what can be seen at this distance, he will be right back in the same hole.

The President says the vetoed bill is contradictory legislation which would be impossible to administer. Well, OPA hasn't been any picnic to administer—and the administration of it has been far from good.

The hard, cold truth is that only production heavy enough to result in real competition can cure the ills that are plaguing us. If we can muddle along somehow until production finally catches up with demand our troubles will begin to iron themselves out.

If we get out of the woods, it will be the natural genius of the American people for production, rather than anything Washington has done, that will save us.

ABOUT the only conclusion that stands out clearly is that our post-war leadership in Washington has been stumbling, inefficient and timid.

How Much for the Bun?

DENVER, July 2. — (AP) — A couple ordered hamburgers at a restaurant after noting that the previous price of 30 cents had been crossed out and 35 cents pencilled in. As they were finishing their hamburgers a waitress hurried over and began altering their check. "The boss told me to change it to 40 cents—you just got caught in the middle of a change," she explained.

YOUR OWN ATOMIC BOMB

By CHARLES V. STANTON

Eyes and ears are turned this week to Bikini atoll where elaborate tests are being made of mankind's most destructive weapon of war. We shudder as we think of the atomic bomb's terrible power. We are frightened by the unknown elements released by atomic fission and the potential threat to the world and its population as contained in the bomb. But the danger of death and destruction from this newest of weapons is far more remote than that contained in an element with which man is most familiar—an element that has contributed greatly to the advance of civilization, yet is one of our most destructive agencies. That element is FIRE.

Do you have a match handy? Take it out and look at it. Now, recall, if you will, two pictures which appeared in your newspapers only a few months ago. One of those pictures showed the Japanese city of Hiroshima in ruins from the effects of atomic bombing. The other portrayed the desolation in the wake of the Tillamook forest fire.

The two atomic bombs dropped on Japan killed 70,000 people, yet here in the United States an average of 10,000 people lose their lives annually in fires.

We have heard no estimates on property losses connected with atomic bombing, although in Hiroshima the blast levelled almost every structure within an area of four square miles. We doubt, however, if the property loss even approached the average annual fire damage of \$500 million in the United States, which sum does not include forest fire losses.

We were horror stricken by thoughts of the thousands upon thousands of homes destroyed in Nagasaki and Hiroshima, and the 200,000 persons left homeless. Yet the Tillamook forest fire destroyed enough timber to have rebuilt both those cities several times over. If a statistician started using his pencil to compile comparisons, we imagine he would find that enough potential lumber to rebuild most of the war-ravaged structures of the world went up in smoke during the Tillamook blaze.

That tiny match you hold in your hand contains as much potential danger to life and property as the atomic bombs being dropped on Bikini. The test of our atomic bombs is being conducted with the utmost attention to every safeguard. No expense has been spared in providing for the safety of personnel participating in the test. Yet we flip matches and cigaret butts carelessly into dry material, giving no thought to the destructiveness stored in the tiny embers we negligently discard.

The Fourth of July period is upon us. During the latter part of the week we will be flocking into the woods for short vacations. We will be carrying matches—possibly fireworks. One of those matches, or a firecracker, carelessly used, can result in as much or more destruction than an atomic bomb dropped on the same area. A man-caused forest fire during the Fourth of July holidays could even result in loss of human life, because of the crowded condition of our forests.

It is not necessary to hold scientific tests to determine the destructive power of a match. We have had demonstrations recently in the terrible hotel tragedies which have occurred in several of our large cities. We have only to look upon our extensive forest burns; to recall the Bandon fire of 1936.

Yes, you have your own atomic bomb. It is that little match you hold in your hand.

KDND DIAL-LOG

Tuesday night has quite a few items worth mentioning. First... the American Forum of the Air, 6:30 to 7:15, considers the question "What Should We Do About Spain." The guests pull no verbal punches in these discussions which makes the debate both interesting and amusing.

Jobs, Inc., takes the air at 7:30. You may call during the broadcast if you haven't time to list your help wanted or job wanted item before five in the afternoon. Remember that we take apartment or house for rent listings, too.

At 8:30 The Falcon picks himself a sponsor... the Gem Razor Co. will aid and abet his detecting on KRNR from now on.

A special broadcast at 10:30 tonight means that your Ten-Thirty Club moves to 11:00 for this one night only. "America Without Price Control" is a special radio survey of conditions resulting from the effect of no price control. That's all we know about it.

You'll find quite a few changes coming up in the daytime schedule beginning the middle of this month... they're not quite listed as yet, but be on the lookout for them.

Advance note to sport fans: A week from today the annual all-star baseball event of the year will be broadcast over Mutual. Game will start at 9:15 A. M. Better check your little radios that you'll be wanting to take to the office with you.

Table with 2 columns: Time and Program Name. Includes items like 11:00-11:30 Sign Off, 12:00-12:30 State and Local News, 1:00-1:30 Musical Interlude, etc.

Brooklyn Keeps Up Winning Streak Against Phillies

(By the Associated Press)

The Philadelphia Phillies' surge out of the National League cellar and their threatened movement into the first division has gained popular appeal throughout the nation. The pace-setting Brooklyn Dodgers they look like the Phillies of old.

Winners of 20 out of their last 29 decisions, the Phils came into Brooklyn riding a bandwagon that included practically everybody with the notable exception of Lou Gehrig and his battling crew. The Burns lost no time in casting their dissenting votes.

In the first inning at Ebbets Field last night the Dodgers ended whatever dreams Manager Ben Chapman's aggregation had of gaining their first triumph of the year over the Brooks by blasting Lou Gehrig and his battling crew. The Burns lost no time in casting their dissenting votes.

The win was the Dodgers' sixth straight, their ninth in a row over the Phils, and it stretched their place margin over the St. Louis Cardinals to six-and-one-half games as the Red Birds bowed, 5-4 to the Cincinnati Reds in 13 innings.

Both Chicago Teams Blanked: Sewell made it two shutout victories in succession for the Pirates by blanking the Chicago Cubs, 1-0, on four hits.

At Detroit, Trucks of the Tigers whitewashed the Chicago White Sox, 2-0, to post his ninth conquest of the year.

Joe Berry, purchased yesterday by the Cleveland Indians from the Toronto Maple Leafs of the International League, celebrated the occasion by gaining credit for Cleveland's 6-4 triumph over the St. Louis Browns and batting in what proved to be the winning run.

The 38-year-old righthander, who last season twirled for the Philadelphia Athletics, entered the game in the sixth inning with the score deadlocked at 4-4 and Laabs on third with one out. Berry retired the side and in the bottom half of the stanza, he singled home Mackiewicz with the tie-breaking counter.

The New York Yankees downed the Giants, 3-0, in an exhibition game at the Polo Grounds. The Boston Red Sox, Boston Braves, Philadelphia Athletics and Washington Senators were not scheduled.

Baseball Standings

Table with 4 columns: Club, W, L, Pct. American League: Boston 50-19-.725, New York 42-28-.600, Detroit 37-39-.487, Washington 33-43-.433, St. Louis 31-47-.456, Cleveland 31-38-.449, Chicago 26-39-.400, Philadelphia 20-46-.303.

Calapooia Residents To Picnic on July 4th

An old-fashioned Fourth of July picnic and celebration has been planned for Thursday at the Calapooia clubhouse and all residents of the community are invited.

A patriotic program will be presented at 11 A. M. Prizes will be awarded the three best contributions to the entertainment. Those are:

- 12:40—State and Local News, Hansen Motors. 12:45—National News, Douglas County State Bank. 12:55—Terminal Market Reports, Sig Per. 1:00—Man on the Street, Henninger's. 1:15—The Johnson Family. 1:30—Mail Order Melodies, Montgomery Ward.

RHEUMATISM and ARTHRITIS

I suffered for years and am so thankful that I found relief from this terrible affliction that I will gladly answer anyone writing me for information. Mrs. Anna Fautz, P. O. Box 825, Vancouver, Wash. Pd. Adv.—NUEOVO Laboratories

Milk Mixture for Stomach Ulcers

A recent medical discovery now used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcers caused from excess acid. It is a hardening preparation yet so effective, in many cases the users of stomach ulcers disappear almost immediately. Also recommended for gas pains, indigestion, heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of LURIN from their druggist. LURIN contains this new discovery in its purest form. Easy to take. Easy to digest. Possibilities in a half glass of milk. Costs but little. Most satisfactory of moody refluxed.

attending are asked to bring basket lunches and table services for their own families. Coffee will be furnished by the ladies of the Calapooia Club. The picnic luncheon will be served at 1 o'clock. At 2 o'clock, contests, including races, will be sponsored for all age groups. A nail driving contest will be followed by a tug of war. Horseshoe pitching will be held and water sports will be enjoyed.

News of 4-H CLUBS

Judging contests in livestock, poultry, forestry and crops closed the class sessions for boys at the annual 4-H Club Summer School held on the Oregon State College campus June 18-28. The girls held judging contests in homemaking, clothing and cooking. Boys and girls from Douglas County placing in various contests were Mona Raper, Yoncalia, tied for third place in homemaking, Ruby Jo Findlay, Route 2, Roseburg, tied for third in clothing; Carmen Dysert, L. G. Route, second in cooking; Bill Ward, Days Creek, tied for third in poultry judging; Ted Schattenger, tied for third in livestock judging, Keith Coats was second in the sheep weight guessing contest.

Mrs. Margaret Kimmel was awarded her 15 year 4-H leadership pin at a special assembly program during 4-H Club Summer School conducted by members of the Oregon Bankers Assn. Leaders pins were presented to a number of the leaders by Mr. A. L. Mills, first vice-president of the U. S. National Bank of Portland. Leaders pins are now presented to all 4-H leaders throughout the State of Oregon by the same bank.

Mrs. Winnie L. Dewey, Azalea, will be leader for a group of eight girls who have organized a canning club, Nancy Ellis is the club president. Mary Lee Rust secretary, and Jane Rust secretary. Others enrolled are Richard and Shirley Pankey, Judith Rae Johnston, Ruth McCallister and Ellen Coyle.

Catholic Order to Develop Donated Tract on M'Kenzie

Fr. Wm. Coughlan, of St. Joseph's Catholic Church, spent Sunday at McKenzie Bridge, where an 80-acre woodland tract together with several buildings on the banks of the McKenzie River was dedicated by the Capuchin Franciscan Fathers, to which the property was deeded by Kenyon L. Reynolds, Pasadena, Calif.

The property, located 50 miles east of Eugene, is to be developed as an educational and religious center. As soon as practicable, a monastery will be erected. The donor, Mr. Reynolds, whose wife died in June of last year, is a convert to the Catholic church. His elder brother, now deceased, was also a convert and well known classical scholar at Yale University. Following his conversion, he became a priest and taught classics at the Catholic University of America, Washington, D. C. Mr. Reynolds, following the pattern set by his brother, now is studying for the priesthood under the Benedictine Fathers in the diocesan seminary at New Westminster, B. C.

Desiring that the beautiful McKenzie Bridge property be devoted to religious purposes, Mr. Reynolds expressed the desire that Mass be offered daily in the beauty spot at the foot of the Cascades and the Capuchin Fathers will perpetuate the practice. The order of Capuchin Franciscan Fathers has served in Oregon for 36 years, at Bend, Hermiston and Roseburg.

Fr. Isadore Kennedy, who has been appointed Superior at the newly acquired property, served as an assistant in the Roseburg parish for considerable time, leaving here about three years ago.

Band Postpones Next Concert Until July 11

The second summer concert by the Roseburg Municipal Band, previously scheduled for Thursday at 7:30 P. M. at the City Library Park, has been postponed until July 11. Director Les Irvin announced Monday. The weekly band practice will be held on

Tuesdays at the Elks Lodge beginning tonight, he added. In the time of Queen Elizabeth, the English were required by law to eat fish on 155 days of the year. Geologists estimate that 1,500,000 square miles in the United States are potential oil territory.

JULY 4TH Celebrate by having a treat of FRESH DRESSED RABBIT From GIBSON'S RABBITRY Green Station at Overhead Crossing

Through the cooperation of the Modern Furniture Store we were able to secure a spanking brand-new State Electric Range, all the better to serve you Veterans and your Guests. DELICIOUS LUNCHEONS SERVED DAILY — 12 to 2 JOIN US FOR Good Food Fine Atmosphere

\$400,000,000 five-year expansion program under way on the Pacific Coast

Millions of man hours of work will be created directly or indirectly by the expansion; millions of dollars will be added to payrolls. This program, the largest in our company's history, is already under way and is going ahead steadily.

An ever-improving telephone service at the least cost consistent with good wages and working conditions for our employees and a reasonable return to the thousands of people who have invested in the business. The Pacific Telephone and Telegraph Company 121 South Stephens St. Telephone 71

During the next five years, we have scheduled a four hundred million dollar expansion program on the Pacific Coast. In 1946 alone, for example, we are hurrying construction on more than 140 building projects, 270,000 new central office lines, 200,000 miles of toll and long distance circuits.

For it is our purpose to provide service for all who are now waiting just as rapidly as possible and to improve service in every way we can. We want to make the telephone more valuable and useful to everyone... to grow with the West and to help the West grow.
