# A STATEMENT ABOUT PRICES

Recent announcements of higher prices on certain foods call for absolutely wasteful menu planning and more careful and economical food buying in order to "balance the budget." We sincerely believe we can help you get the most out of your food dollar, if you will shop Safeway regularly. Whether price ceilings are removed or not we pledge continuance of our long-established pricing policy—for this policy is even more important to those finding it increasingly harder to meet expenses. And this policy is fair to all.

1. Safeway prices give consumers the benefit of savings resulting from our way of doing business by pricing at the lowest point that will yield a reasonable profit. "Not how much we can get" for an item, but how low it can be sold" is the determining factor.
2. Safeway does not go in for "ballyhoo" or deep-cut below-cost prices on a few items to attract customers. Rather, all items—store wide—are sold at the very minimum prices every day. At the same time, Safeway pays legitimate market prices to farmers and other producers of food.
3. Safeway will do no speculative hoarding and will maintain largest possible supplies of foods in stores at all times—made equally available to all.
