Drunken Driving Charged to Two

Two persons were charged with driving while under the influence of intoxicating liquor today, Justice of the Peace Hartfiel reported.

Clarence Blazier, arrested by state police on the Pacific Highway south of Roseburg, entered a plea of not guilty and was released on \$500 bail.

Harvey Doud Duke, 19, discharged sailor, was granted a delay in entering a plea and is held in the county jail in default of bail set at \$500.

Duke was also charged with taking and using an automobile owned by Rhoda E. Wheelock without the consent of its owner. Duke told Sgt. Paul Morgan of the state police that he was employed on the Wheelock farm at Brockway, and had merely borrowed the Wheelock car. He was arrested by state police near Coos Junction while in an allegedly intoxicated condition.

Bail on the second charge was set at \$250.

Forgery in Sugar Buying Draws 5-Year Prison Rap

GRANTS PASS, Ore., July 30.—(AP)—William Richard Alderman doubtless wishes now that he had acquired a taste for black coffee because his desire for sugar led to his being sentenced to five years in the state penitentiary at Salem in circuit court here last Friday.

By misrepresenting himself and forging a purchase order, Alderman bought a 100-pound sack of the sweet staple from the Kamper Grocery saying he was buying it for the Del Rogue Coffee Shop. Store employees became suspicious when he called a taxicab to transport the sugar, and notified the police.

After a hectic pursuit Alderman was captured at the county fairgrounds. County Attorney Millard pointed out that the sugar theft, amounting to a value of \$6.75, was but one of numerous brushes the man had had with the law.

Because he had three previous convictions against him for having robbed taxicab drivers in or near Portland, he was sentenced to the penitentiary as an habitual criminal.

OPA Eyes Request of Bakers for Price Boosts

WASHINGTON, July 30.—(AP)—OPA may decide today whether to eliminate price controls on all bread and bakery products, an official disclosed.

A request of the baking industry for a one-cent a loaf increase in bread prices and a 25 per cent boost in biscuit and cracker prices precipitated the issue, said this official who asked anonymity.

Under the new OPA revival law, prices are not controlled on wheat from which most bread is made.

If the OPA decides to continue the bread price ceilings, informed officials forecast that at least part of the baking industry demand will be granted. This would be justified, they said, because of the termination of federal flour subsidies and recent sugar price increases which have pushed up bakers' costs.

In addition to the bread and biscuit increases the industry has asked a 15 to 25 per cent rise on cookies, doughnuts and similar sweetened products.

Spree Draws \$25 Fine
John T. Davis was fined \$25 for drunkenness, City Recorder Geddes reported this morning.

U. S. Will Stand By Pledges, Byrnes Tells Conference

PARIS, July 30.—(AP)—U. S. Secretary of State Byrnes told the Paris peace conference today the United States would stand by the conference's recommendations in event it opposes by a two-thirds majority any of the peace treaties drafted by the Foreign Ministers Council.

Byrnes spoke in the general assembly of the conference shortly after the rules committee had proposed unanimously that all committee meetings and general conference sessions be thrown open to the press of the world—a step toward the Wilsonian ideal of a generation ago of "open covenants openly arrived at."

Soviet Foreign Minister Molotov was not present in the hall when Byrnes made his speech, an answer to French President Bidault's inaugural address of yesterday. The Russian delegation, which has insisted upon unanimity of the four principal powers on recommendations to the peace conference, was headed by the vice foreign minister, Vishinsky at the moment.

"The United States will stand by its agreements in the Council of Foreign Ministers," Byrnes said. "But if the conference should, by a two-thirds vote of the governments here represented, make a contrary recommendation, the United States will use its influence to secure the adoption of that recommendation at the moment."

Democracy Needs Good Will
Beginning his short speech with an object lesson on democracy, Byrnes said:

"Democracy cannot be imposed or taught at the point of a bayonet. As terror inspires terror, so good will can inspire good will."

The rules committee recommendation on freedom of the press to the peace conference was scheduled to be acted upon by the general assembly later today. Secretary Byrnes had sponsored the move.

Byrnes was loudly applauded when he said, "however difficult may be the paths of international cooperation, the United States is determined not to return to a policy of isolation."

The secretary of state said the United States insisted that "those who fought the war should make the peace."

"I hope that the delegates will feel free to express the views of their respective states on the proposed treaties," he added. "No nation, large or small, can be insensitive to world opinion."

Seattle-Hawaii First Commercial Flight Begun

SEATTLE, July 30.—(AP)—The Skytrain took off at 7:15 A. M. today for Honolulu on the first commercial payload flight of passengers and cargo from the Pacific Northwest to the Hawaiian Islands.

The plane was to pick up two other passengers at Portland and a ton of freight cargo, including fresh fruits, berries and a shipment of radios. It was to leave Portland by 10 A. M. and make the flight to Honolulu in 12 hours.

The flight is an unscheduled one as the line has been denied an application to the Civil Aeronautics Board for such a route.

U. S. Out \$2,600,000,000 On Overseas Surplus Sale

WASHINGTON, July 30.—(AP)—Acting Secretary of State Acheson said today overseas war surpluses which cost \$3,600,000,000 have been sold for more than \$1,000,000,000.

Acheson called this disposal record a "substantial achievement" in a letter transmitting to congress a quarterly report.

The report said, however, that two great "properties" which cost this country a total of \$172,000,000 have been abandoned. They are the Stilwell road from Burma into China and the aid-to-Russia road through Iran and Iraq.

Use of Electric Power On Increase, Report Says

PORTLAND, July 30.—(AP)—Small industries, farms and homes have stepped up their electric power consumption and more than offset the drop caused by shut-down of war industries, the Portland General Electric Company reported today.

In its annual report the company said residential and farm use of electricity has increased to twice the national average while it reported the average kilowatt-hour cost at 1.76 cents, half the national average.

The report outlined a three-year \$8,500,000 expansion program.
