In the Day's News

In such fields as cancer, diabetes, the role of carbon in human teeth and bones, the utilization of fats by the human body and the mechanism of "photo-synthesis" — the little-understood phenomenon by which plants take energy from sunlight and store it as chemical energy ("photo-synthesis") is responsible for most of the stored energy used by man, such as coal, oil, wood and food.

EVIDENCE is accumulating that we face this dramatic choice: Shall we use our growing knowledge of science to SERVE or to DESTROY mankind?

WHEN you're scared, you're inclined to be GOOD. When badly enough scared, you swear off your bad habits.

IN Tennessee last week they held an election in which Senator McKellar, backed by Boss Ed Crump's political machine, administered a resounding licking to Edward Ward Carmack, backed by the national CIO-PAC political machine.

About all this writer can think of in the way of comment is that when one political machine licks another there isn't much for the ordinary, decent citizen to feel set up about.

SOMETHING else happened in Tennessee. As this is written, the cautious dispatches haven't made wholly clear what it was all about, but it sounds as if a bi-partisan slate of ex-GIs running for county office in McMinn County suspected that the local political machine run by a character named Cantrell was planning to COUNT-TTS SLATE IN by the simple process of tampering with the ballots.

So the GIs and their friends cornered the Cantrell henchmen, ballot boxes and all, in the county jail and for six hours fought a pitched battle with pistols, rifles and home-made bombs — at the end of which the Cantrellites yelled UNCLE and came out with their hands in the air.

Somewhat later the brother of the Cantrell character telephoned from a neighboring town to announce that "on behalf of my brother I wish to concede the election to the GI candidates to prevent further shooting."

Y ou will note, doubtless, that it wasn't the boss-backed candidates who did the conceding. It wasn't even the boss himself. His brother just horned in to say that because of superior weight of opposing fire-power the machine was throwing in the sponge.

That seems to be the way they run their politics in Tennessee. DON'T think too hardy of the Tennesseans. The principles are the same in all the boss-controlled places. They just smear the old oil on a little more thickly in Chicago, New York, Kansas City and similar machine-operated centers whose bosses have got so big and so glittering that they sit in on national conventions and have a big say in picking Presidential candidates. Also, as a concession to city ways, these big boys don't stage pitched battles in the jails.

In the cow counties of Tennessee, they are a little closer to nature. That is about the only difference. If we ever got scared enough in America, we might swear off some of our political bad habits. That would be GOOD.

ENTITLED TO CASH

By CHARLES V. STANTON

The United States can loan Great Britain \$3,750,000,000, it can raise the pay of members of Congress, can boost the pay of federal judges, and can support a huge army of useless employes in bureaus, agencies, authorities and departments, but when it gets around to terminal pay for enlisted men it proposes to pay off in BONDS. We don't blame some of our G.I. friends for being incensed.

The terminal pay bill would compensate for unused furloughs, and would amount to approximately \$3 billion. The plan calls for payment in cash of amounts under \$50 and in five-year non-negotiable bonds for larger sums. Although not otherwise negotiable, the bonds may be used to pay premiums on wartime or permanent government life insurance, to convert one to the other, or to pay a policy loan granted before enactment of the bill.

The terminal pay authorized in the bill goes to enlisted men. The military services had a plan called "terminal leave" for commissioned officers. The officer on terminal leave actually went back into civilian life, but continued on the payroll for a certain period of time prior to final separation from service. This caste distinction between commissioned officers and enlisted men aroused so much complaint that the terminal pay bill was passed.

The House wanted to pay in cash, but President Truman and Treasury Department officials contended release of \$3 billion in cash would be "inflationary" and the Senate, in which the Nudal still has a majority, voted the five-year bond payment plan. The House, rather than kill the legislation entirely, went along with the program in the closing period of the session, but many members pledged themselves to action in the next session to make the bonds immediately negotiable.

We can be particularly sympathetic with the G.I. peevishness we recall the "bonus" fight which followed the first World War. We can remember how we were paid off with an "adjusted compensation" certificate; how we were finally permitted to "borrow" half the amount, and how, personally, we scratched around to borrow money from kind-hearted friends to meet surgical and hospital bills, while our certificate drew dust and interest in the safety deposit box, prior to the time we were permitted to cash it in. We can recall the "bonus army" that was kicked off the White House lawn; how we were told veterans were a bunch of drunken bums who would spend the money for booze and waste it on frivolity. We can recall the bread lines and the apple sellers, and we recollect, too, the "lift" the nation received from the depth of depression when veterans of the World War finally were given permission to cash their certificates.

Today's G.I. also needs cash—and needs it, NOW. He is hard pressed for living quarters. He needs money to pay installments on the last baby. He is trying to get himself outfitted with clothing, tools, and necessities of civilian life. It certainly is hollow mockery to hand him a bond which he must hold for five years before he can benefit from it.

The G.I.'s feelings are not relieved as he reads of increased pay to congressmen, justifiable as that increase may be. Nor does it soothe his ruffled temper to read of appropriations to pay out millions of dollars for an army of OPA employes, and other executive department bureaus in order that a voting machine may be maintained for future elections.

He wonders, as he reads his daily paper, just why terminal pay would be "inflationary" with the OPA boosting prices on cotton clothing from 10 to 25 per cent, upping farm machinery 6 per cent and advancing prices quite generally in many other lines.

In our opinion, if the G.I. is entitled to terminal pay, he is entitled to receive cash and not a bond which must be held for maturity five years hence. Furthermore, if our government can afford to spend millions of dollars to lubricate its party machine, padding its payrolls with thousands of unneeded employes, while loaning billions for foreign countries to maintain trade relations, it can afford to pay its debt to its ex-servicemen in cash.

We hope the next session of Congress will quickly remedy the injustice contained in the current bill.

Pitcher-Changing Know-How Keeps Brooklyn at Top

(By The Associated Press)

Brooklyn's ability to defeat the Boston Braves and the Philadelphia Phillies with almost monotonous regularity continues and manager Durocher has the knack of vanquishing a faltering moundman at the right time.

With 101 games under their belt, the Brooks enjoy a 23-game margin over the second place St. Louis Cardinals in the National League but only 33 complete games have been turned in by the Dodger hurling crew, 26 of them victories.

In 68 Dodger contests, Durocher employed 201 hurlers in battling 36 victories and losing 32. Little Vic Lombardi leads the Dodger hurlers in turning in complete games, with 11.

The Brooks have thumped the Phils ten in a row and have taken the Braves 12 times against only three defeats. The sixth place New York Giants have won six out of 11 games from the Brooks. The Dodgers have won 11 out of 17 from the tail-end Pittsburgh Pirates and 10 out of 17 from the Cincinnati Reds.

The St. Louis Red Birds have copied 11 battles and lost four while the Chicago Bruins have won nine and dropped seven with the Brooks. However, both the Cards and Cubs have had plenty of difficulty winning from the second division clubs.

Homers Win for Dodgers The Dodgers pulled another game out of the first last night as they trimmed the Braves, 7-4.

Reese Predicts G.O.P. Majority in Congress PORTLAND, Ore., Aug. 6.—(AP)—Election of a Republican senator from Washington was described as a strong possibility by B. Carroll Reese, G.O.P. National chairman, last night. Predicting a Republican majority in the next House of Representatives and possibly in the Senate as well, Reese listed Washington, Idaho, Montana and Wyoming as states which might replace Democratic with Republican senators. Reese told a GOP picnic that a Republican congress would promptly uncover many cases of war profiteering. "It'll take nothing short of the Pentagon to hold the people who are guilty," he asserted.

Fall Opening Date Set By College at Monmouth MONMOUTH, Ore., Aug. 6.—Oregon College of Education will open the fall term on September 23 with the largest registration since 1939. This is the prediction of Registrar Ellis A. Stebbins. Applications for admission have shown a heavy increase during the last ten days. New applications are divided evenly between teacher training and junior college. Sixty per cent are from veterans. Rooms are still available and ground has been broken for a new block of FPIHA family units for married veterans. Registrations will not be closed until available housing is completely exhausted.

Manhunt Strategy CHENY, Wash., Aug. 6.—(AP)—For the first time in the school's 56-year history, men will outnumber women students at Eastern College of Education this fall. Registrar George F. Wallace reported yesterday. Two pretty coeds, he said, asked him to keep the figures secret lest the prospect attract more women. When he declined, one was philosophical: "Oh, well, 50 per cent of the men probably will be married anyway," she said. But the other insisted: "Just think of that other 50 per cent."

Owen Quits Mexico Loop, Wants to Get Back With Dodgers

BOSTON, Aug. 6.—(AP)—Mickey Owen, who left a first string catching job with the Brooklyn Dodgers last April to play in the Mexican league, was reported back in the United States today, ready to return to his old post at Ebbets Field—if organized baseball will have him.

Branch Rickey, Dodger president, disclosed that Owen had deserted the Vera Cruz club in the Mexican circuit, had arrived in Brownsville, Texas, and would seek reinstatement in the National League.

Owen himself could not be found today, but it was learned here that the catcher planned to appear personally before Commissioner A. B. Chandler to ask his reinstatement.

Rickey said he would intercede with Commissioner Chandler in Owen's behalf. Asked if he would take Mickey back into the Dodger fold, Rickey answered: "That's something I can't discuss now. It's up to Commissioner Chandler to rule on his case first."

Chandler, at the time Jorge Pasquel and his four brothers were recruiting U. S. players for their Mexican league, stated that players who jumped south of the border could not be reinstated for five years.
