SERVING YOU THROUGH SCIENCE

It's a stronger tire
It's a safer tire
It's the newest

U.S. ROYAL!

You get all the features that have long made the name "U.S. Royal" famous—plus the advantage of special rayon cord construction* to make your driving extra safe, trouble-free and luxurious.

Nine years ago when "U.S." first marketed a rayon cord tire it was proven that although rayon-bult tires are lighter, they are also stronger and safer.

That's because this super-strength rayon "U.S." uses, runs many degrees cooler :: : cuts down destructive inner heat :: : adds thousands of miles to tire life :: : and gives you far greater protection against blow-outs.

And of course in this newest U.S. Royal you get many other safety features, too—the famous Royal block tread for smooth riding—perfect balance for easy steering and parking. The fact is that U.S. Royals are every bit as modern as the fine cars on which they are standard equipment—every bit as fine as the quality name they've built up over the last thirty years—every bit as good value for your money as U.S. Royals have always been.

See these great new tires today at your U.S. Tire Dealer's—find out how soon you can be riding on rayon-built U.S. Royals!

More of what you do want

MORE TIRE LIFE—because the rayon cord U.S. Royal is tougher, stronger and longer-lasting.

MORE ROAD SAFETY—because rayon construction cuts down destructive inner heat—re-

duces the danger of blowouts.

MORE VALUE! The extra toughness of this rayon-built tire body means you can recap again and again for extra thousands of miles of safe driving.

Less of what you don't want

LESS SKIDDING—The famous Royal block tread means quicker stopping and less danger from side-slip.

LESS FREQUENT REPLACEMENT—Cooler running means longer wear, greater strength means longer life—and U.S. Royals give you both!

*Present Government regulations restrict all rayon construction to sizes 6.50 and larger.
