## Plans Completed For State Fair, to Open Labor Day

Plans were virtually completed this week for Oregon's first state fair since 1941 which opens in Salem Labor Day. Manager Leo Spitzbart reports that the 1946 fair week of Sept. 2 to 8 should be the greatest in history.

Over \$50,000 in premiums will be awarded for prize Oregon livestock and agricultural exhibits. Each building on the grounds has been repainted inside and out while the extensive floral beds are expected to be in full bloom by Labor Day.

The entertainment roster is the most complete to be presented at the fair. Six days of horse racing will begin Labor Day, with two harness events and seven running races on each daily card at the Lone Oak track. Big car auto racing will make its first appearance at the fair on Sunday, Sept. 8, when the entire afternoon will be devoted to speed by some of the west coast's top drivers.

**Vaudeville Included** — Jimmie Grier and his orchestra, musical hosts of the coast, will play nightly for the state fair dances and will also appear at the outdoor vaudeville revue. The nightly revue will feature some of the nation's top radio and vaudeville acts and will give star billing to the Helene Hughes' Precision Dances, direct from Hollywood.

For the first time, the nightly horse show will be combined with selected rodeo events. All of the old horse show classifications have been retained with increased purses. Champion rodeo performers will be on hand for the five events which will include bulldogging, saddle bronc riding, bareback bronc riding, calf roping, and Brahma bull riding.

Admission prices for all fair events will remain at pre-war levels. Admission to the fair grounds will be the same as in 1941, fifty cents, with children 14 and under to be admitted free.

S. Department of Agriculture said. It attributed the drop to scarcity and high price of feeds and the uncertainty of the sales outlook.

Further indication of the drop in the state's poultry population was seen in the 4,889,000 figure for hatching during the first seven months of 1946, compared to 7,200,000 in 1945.

## Location of Oregon's Mineral Deposits Mapped

A map showing the location of over 300 mineral deposits in the state of Oregon has just been published by the State Department of Geology and Mineral Industries. Principal localities of 43 minerals are shown in red on a base map measuring 22 inches by 34 inches. Brief explanatory notes describing 12 of the most important ores are printed on the margin. A small index map showing generalized locations of beach and stream gold placer deposits is also given. Copies of the map may be obtained at the department's office, 702 Woodlark Building, Portland, or at the field offices at Baker and Grants Pass.

## Terminal Leave Applications for Vets Slated Soon

A sample copy of the application form and instructions to enlisted men of World War II in applying for their unused terminal leave or furlough pay was received this week by the Oregon Department of Veterans' Affairs, from Maj. Gen. G. B. Erskine, retaining and reemployment administrator.

An accompanying letter to Director George E. Sandy said that all community advisory centers and county veterans' service offices would receive the sample forms shortly.

Although postoffices will receive supplies soon for veterans, the sample form will enable service officers to study the instructions and be ready to help veterans make their applications when the time comes, Sandy said. Earlier doubt as to whether photostatic copies of discharges would be accepted as proof of military service was clarified, as follows:

"We know you were glad to learn that the armed forces acted favorably on the recommendation that photostatic copies of discharge papers, as well as originals, will be accepted."

"Pass," "liberty," or periods of temporary duty are not chargeable as leave or furlough, nor

are sick, convalescent, or rehabilitation leave, but "delay en route" will be, the instructions indicate.

In addition to the pay the veteran will receive in his last pay grade before discharge, he will get 70 cents subsistence for each day of unused leave. Also, those in the top three pay grades who had dependents will receive an additional \$1.25 a day for quarters. In the army and marines this includes master, tech and staff sergeants. In the navy and coast guard it means chiefs and first and second class petty officers.

Pay is for a maximum of 120 days of earned leave, in non-negotiable bonds, maturing in five years, and is figured at the rate of 2 1/2 days per month, minus the leave actually taken in service.

**Greyhound Fares now Lowest in Oregon...Lowest in History!**

**WITHIN** the past few months Greyhound has steadily reduced fares in Oregon to a uniform *one-and-a-half cents a mile*. And now... Greyhound has *again* cut fares, between Oregon and California cities, at a time when practically everywhere else you buy costs more.

Yet Greyhound service in Oregon, and between Oregon and California cities, is steadily being increased! You now get better Greyhound service than ever before, at the lowest bus fares in the state. Greyhound believes this policy of better-than-ever service at lower fares is justified because it *knows*, intimately, the transportation needs of the communities it serves and has faith in their future development and progress.
