Restrictions on Grain for Milling Target of Grange

PORTLAND, Ore., Nov. 19.—(P)—Committee reports and resolutions occupied delegates to the National Grange convention today with its first action a request for removal of all government restrictions on use of grain for milling.

The resolution pointed out that millers now are limited to 85 percent of the amount of grain formerly used. The Grange did not ask removal of restrictions on use of grain for alcohol.

The subject of peacetime military conscription is expected to bring heated debate in the closed sessions. Traditionally the Grange has been opposed to it and National Master Albert S. Goss in the opening address said "the Grange wants no peacetime conscription." Despite a similar stand at the Oregon State Convention by State Master Morton Tompkins last spring, delegates approved a resolution favoring

conscription. Whether the national group will take a similar stand is a matter of speculation. Late yesterday Dr. Paul J. Raver, Bonneville administrator, described Columbia river development as a "paying proposition." He said that from its inception to last June the Bonneville administration had power sales totaling \$16,727,000 more than the amount needed to cover operation, interest, depreciation and amortization.

The pair pleaded guilty to charges of armed robbery in North Lakeview.
