RHS Quintet Wins From Gaels, 36-35

Free Toss by Nichols in Last 15 Seconds Decides First Conference Battle

By ROYAL S. DENTON Coach Jack Newby's Roseburg High Indians squeezed out a hard earned, 36-35 thriller over St. Mary's Gaels Saturday night on the local court in their opening conference hoopfest.

Roseburg's junior-varsity Warriors won the preliminary over the St. Mary's Jayvees, 40-21, in a free-throwing fray.

The outcome of the major game was doubtful throughout, with the Indians on the bottom as St. Mary's held Roseburg to an 8-8 tie at the end of the first stanza, led the Indians 17-14 at halftime and 27-24 as the fourth period got under way.

Tied up three times in the closing period, Nichols, Indian forward reserve, clinched the contest by one point in the final seconds on a gift shot.

The Gaels and Indians displayed uncanny skill in basket-making when either team trailed in the final period and both held up strong on defense, the Gaels switching from the zone of the second quarter to their one-man man-to-man guarding.

Indians Below Par Roseburg, showing fatigue resulting from eight of the mainstays' trip to San Francisco last week with the football squad, failed to display the driving and breaking ability of previous warm-up games, while St. Mary's rangy crew surged ahead with fast breaks and set shots.

Pope broke the 8-8 tie in the second quarter with a crisp, only to see Withner of the Gaels even the count and start the visitors on a hot-potting jaunt in which they hit 100 per cent of their shots to lead the Indians three points at halftime.

Benson, Indian forward, broke back into pre-season form in the final period and began the scoring with a pivot shot from the keyhole to set the Indians on their way to tying the tally.

At this point the game became even more of a rough-and-tumble affair, Roseburg bringing their total fouls committed up to 14 and St. Mary's getting the whistle for 18 fouls.

A thriller throughout the final period, as each team scrapped aggressively for ball control, Roseburg finally took the lead in the final four minutes of play by a 33-31 count, which was evened by Greig of the visitors. Benson connected on a push-in for a momentary lead, only to be followed up by Gaels' Popinski's goal as the clock indicated a possible overtime period finale.

Nichols, deadeye junior of the Indians, proved himself hero of the game in the final 15 seconds. Replacing Piper, who was shaken up in a midcourt scramble, Nichols made a desperation break into the keyhole for a shot from his forward slot and was fouled, his free shot deciding the victors as the clock's secondhand rounded its final circuit.

Pope, aggressive guard, turned in his best performance of the season both offensively and on defense and took top scoring honors with 15 points. St. Mary's Bartholomew, guard, rated second with 13.

The Indians travel to Eugene for a return match with the Gaels next Friday and meet Elmiria in their conference tilt Saturday night.

W. R. Medley, Native of Oakland, Passes Away

William Robert (Bob) Medley, 75, brother of C. H. Medley, Oakland land, died Sunday in Portland after a long illness. He was born in Oakland, March 30, 1871, and was an employee of the Southern Pacific Co. for the last 35 years. He had lived in Portland for 25 years.

LODER PICTURE COMING

By CHARLES V. STANTON

The Roseburg Rod and Gun Club has announced it has arranged to present James Loder's picture "Beautiful Oregon" at the Armory, Thursday, Jan. 9. We have been greatly interested in securing local sponsorship for this picture, because it is something every Oregon resident should see.

We recounted previously how Loder, a Salem automobile distributor, started a hobby of motion pictures while engaged in ferrying cars from the factory to his Oregon agency. It was a new process and competing salesmen claimed cars were damaged in the transfer. Loder took motion pictures to show the care given automobiles in transit, and enlivened the scenes with glimpses of scenery en route. Calls to show these pictures before service clubs, schools, etc., caused him to become interested in a pictorial record of Oregon scenery, and for the past 10 years he has devoted the major portion of his time to his hobby of color photography and developing a library of more than 40,000 feet of motion picture film almost exclusively concerned with the State of Oregon and its recreational and scenic resources.

This, of course, is 16 mm. film, commonly used by amateurs, but Loder is no amateur in photographic ability. He is an artist with a camera and nature's gorgeous coloring has been captured in its full beauty.

Perhaps we have spoken too enthusiastically of these pictures. It is possible that our comment will raise expectations of spectators to a level causing disappointment when they see the picture. But we believe this is a picture everyone should see. It has exceptional value from an educational standpoint alone, for it shows all sections of Oregon—places the average resident with limited vacation time probably could not visit in a lifetime.

We believe that persons who take time to see this picture will commend the Roseburg Rod and Gun Club for arranging presentation of the film.

The show is to be free. The club will introduce its plans for a membership campaign and will offer memberships to those persons who may be interested. Attendance, however, involves no obligation to purchase a club membership and there will be no sales pressure, club officers report.

The Roseburg Rod and Gun Club is an organization of men and women interested in conservation and recreation. It has been most active in promotion of legislation to preserve, conserve and propagate fish and game life. It has been conducting a program of land acquisition and has succeeded in obtaining several most desirable tracts, particularly along the Umpqua River and its north fork, for perpetual public use, the land being deeded to Douglas County for recreational purposes only. The club also has purchased a 105-acre site at Winchester, with 3500 feet of river frontage. It is installing trapshooting equipment, building roads to open up a public picnic grounds, and plans construction of a clubhouse, improvements to the picnic grounds, installation of archery and indoor rifle ranges, and numerous other recreational facilities.

We believe this program to deserve cooperation of all residents, and would urge those interested in the projects supported by the club to give their support by becoming members. However, whether interested in participation in the Rod and Gun Club's program, we believe anyone who has the time to see Jim Loder's picture will find it exceptionally interesting entertainment.

Achiu Wins Over Lipscomb; Lynam, Weidner Draw

After perpetrating one foul after another in his customary villainous fashion, Jack Lipscomb received his come-uncance in a decisive manner at the hands of "Sinezee" Achiu, the Chinese Jujitsu specialist, in the headliner of the weekly wrestling bill at the Roseburg Armory Saturday night.

Lipscomb won the first fall of the bout with a Boston crab hold in 15 minutes, but he was unable to resume hostilities after the Oriental finished him in the second round with a "sleeper" that left him insensible on the mat and gave him a journey to the dressing room on the shoulders of Referee Elton Owen. The conquering hold, registered in 17 minutes, was a form of jujitsu paralyzing the region of neck and throat, leaving the victim unconscious. Most of the crowd of 800 present roared approval of Achiu's triumph over his unpopular opponent.

In the semi-final of the program, Al Weidner and Joe Lynam battled to a one-fall-apiece draw. Weidner was baffled in all his attempts to put his clever foe into an airplane spin—his favorite weapon—but he managed to clamp a full Nelson on Joe to register the first fall, in 24 minutes. Lynam took only four minutes of the second round to retaliate on Weidner with an abdominal stretch. In the remaining two minutes of the bout, neither grappler gained the fall needed for victory.

Jack Poppenheimer and "Frenchy" LaBelle staged a no-fall draw in the 20-minute opener.

U. S. National Bank's Resources Reported

The United States National Bank, in its report to the Comptroller of the Currency as of December 31, 1946, showed total resources of \$378,277,534 and deposits of \$350,771,354, according to an announcement by P. L. Metcalf, manager of the Roseburg branch.

Commercial Hoop Leaguers Slated For Tilts Tonight

By ROYAL S. DENTON The first whistling of the Douglas County Commercial basketball league sounds tonight at Senior High School gymnasium as four quintets of the Southern Division make their initial appearances in league play in the first half of the double round robin series. Tonight's games were previously slated for the Junior High School court.

The only other game of the league tonight is at Canyonville, where the loggers will play host to the Roseburg Elks.

In the opener of tonight's local doubleheader, Umpqua Valley Hardware faces a highly-touted "Huddle" Town team. The night-capper will be between Kenney's Tavern of Myrtle Creek and Rainbow Grill.

The Hardware club, composed of former Roseburg High School hoopers, all mentioned by James K. Watts prior to the war, boasts a smooth-working five which specializes in running set plays and fast-breaking. Coached by Plin Laurence, this club edged out J. K. Sports quintet 9-5 in the earlier season jamboree.

Riddle, coached by A. C. Davis, swamped the Veterans' Hospital five 16-6 in the jamboree. Rainbow Grill and Myrtle Creek are rated tops of the entire league, both teams having won all warmup contests among the league members and specializing in high scores.

The Grillers, captained by ex-University of Oregon basketball player Stan Short, won their jamboree contest with Drain, 19-5. Ward Cummings, guard, is the Grillers' main scorer, averaging 22 points per game in pre-season tilts, while Myrtle Creek has a similar record in early season play, but were edged out by Sutherland in the feature game of the jamboree, 12-10. Ken Laurence heads the southern aggregation.

The Elks, led by Norman Seifarth, also won their tournament game, downing the V. F. W. 17-8 with deadeye tactics and a fast break, while the Canyonville club, a darkhorse in the league, was just recently added to the schedule. Admission for tonight's doubleheader is 35c and 25c with the first game scheduled for 7:30.

RHS, Gaels Dated For Return Game

Tri-County hoopers face a busy schedule this week with games slated for Monday, Tuesday, Friday, and Saturday nights. Roseburg's Indians get a return match with St. Mary's at Eugene Friday on the Gaels' court. The Indians squeezed to a 36-35 win over St. Mary's Saturday night on the local court.

League action Tuesday night will send Springfield to Junction City and Cottage Grove to Elmiria. Eugene will play host to Albany for a Big-Six game and St. Mary's will go to Lowell for a non-league tussle. Junction City will play 32-28, over Cottage Grove in both teams' league opener Friday night, while Eugene High decisively bounced Springfield 49-35.

Cougar Hoopsters Trim U. of O., 52-49

(By the Associated Press) The vaunted Oregon State Beavers get their initial northern division cage test tonight as hosts to the underrated Washington State Cougars, whose surprising 52-49 triumph over Oregon Saturday night stamped them as definite title contenders.

The Cougar triumph came after the Ducks had posted an impressive pre-season record of 12 straight wins and captured the opening tilt of the series.

As a result, Washington, with its twin win over Idaho, headed the race today with Washington State and Oregon in second place. Washington trounced the defending Idaho titlists 62-41 Saturday night.

Washington State tangles with the Beavers tonight and Tuesday, with conference play then lapsing until Saturday when the Cougars continue their travels with a game at Moscow, and Oregon trots to Oregon State. Washington entertains Western Washington in a non-conference tilt Friday night.

Bob Elliott, a sophomore guard from Colfax, Wash., sparked the Cougars in their upset win. His 10 points were high for the victors and his final four layups overcame a three-point deficit and sent the Staters out to a one-point lead in the final seconds. Williamson topped the Oregon cause with 13 points.

Rezoning Places RHS, Coos Teams In Same Bracket

Roseburg High School's football coach, Mel Ingram, stated Saturday upon hearing of the rezoning of the Western Oregon grid districts, that he was greatly pleased, as the Indians will compete in zone three with Coos County teams.

Ingram also stated that he had not heard any official word as to his name being listed among University of Idaho mentor candidates and said at present he plans to retain the Roseburg position for next fall.

The rezoning is intended to get more evenly balanced districts and to spare overzoned District 3, where several unbeaten teams have emerged each year without being able to participate in the state title play-off.

It means Roseburg's future opponents will consist of Myrtle Point, Marshfield, North Bend, Coquille, Reedsport and Grants Pass.

The Oregon High School Activities Association and the board of control said these men took part in the rezoning; Chairman O. D. Byers, Milwaukie; Eldon Jenne, Portland; M. E. Winslow, Grants Pass; Henry Tetz, Pendleton; John Cox, Hillsboro.

Eight high school teams will participate in next fall's football play-off as the result of the rezoning plan that carves the huge Western Oregon district into four smaller districts.

The whole state was redivided into eight districts in the plan disclosed to the OHSAA Saturday with the major changes in Western Oregon.

In that area several unbeaten teams have emerged each year with lack of time preventing all of them from taking part in the championship play-offs.

Motorized Bikes Need Operator's License

Motorized bicycles and motor-scooters definitely require an operator's driver license, a representative in Roseburg of the Oregon Motor Vehicle department reminded Saturday.

Classed under the same law as motorcycles, all such vehicles require licenses to operate and are not issued to applicants who are not at least 16 years of age. Operating without such license or permit are subject to arrest.

"Wildcat" as a description of a highly speculative and unsound venture originated before the Civil War when a Michigan bank failed and its name which was decorated with a picture of a panther became worthless.

GOP War Chest Now Tops Demos'

WASHINGTON, Jan. 3.—(AP)—Both the Republican and Democratic national committees came through the 1946 election campaigns with cash in the bank. But their financial reports to Congress showed that: The Democrats began the new year with \$589,806 less than they started the old one.

The Republicans not only won the election but boosted the size of their bank account. George Killion, treasurer, said the Democrats began 1946 with a bank balance of \$731,294, took in \$1,147,871, paid out \$1,737,677 and wound up on Dec. 31 with \$141,488.

Ray R. Dobson, assistant treasurer of the Republican committee, listed contributions of \$1,097,404 and expenses of \$817,728 for last year, leaving the GOP \$279,676 to the good.

Just how much the Republicans now have in the till was not disclosed, as Dobson did not report what the committee had in the bank at the start of 1946.

The Republicans reported only contributions for the last two months of the year. Earlier donations were reported previously, as law imposes a \$5,000 limit.

LETTERS to the Editor

Labor Shortage for County Work Blamed On Low Wage Rates

In comment on the County Court's reply to current petitions seeking their recall, I would like to bring to attention and discussion the present shortage of manpower to fill county jobs.

In order to maintain the county's many miles of roads in a satisfactory state, the County Court must depend upon a goodly number of reliable and capable men to fill such positions as county engineer (roadmaster), bridge construction and maintenance supervisors, district patrolmen, motor graders operators, power shovel operators, shop foremen and mechanics, bridge carpenters, truck drivers — men capable of and willing to do anything, and many others we are not able to mention due to lack of space.

The question arises in my mind how an intelligent body of men, such as our County Court must be, can possibly expect to obtain and retain in employment good reliable men when they grudgingly pay just a little over half the salary these men could obtain at like jobs in private enterprise.

As a former employee of Douglas County, I can well understand why the positions do draw some steady, able men, because after all they are dependent when thinking in terms of years of employment and location. It is true that the county does have many good men. They retain their present positions primarily because they have struggled along so many years on county pay supplemented by what they could raise on their small ranches and farms; it would take complete reorganization of their lives to change employment.

In a present and future taxpayer in this county, I feel that a more liberal use of tax funds to establish positions desirable enough to draw and hold good men is definitely in order. The increase in efficiency, improvement in our roads, and better maintenance of equipment will pay us dividends and give us a good deal more for our money over a period of time.

LEE OWEN JONES, Myrtle Creek, Oregon, Rural Route.

Ulterior Motive Seen In Recall Proposal

The projected recall of the present county administration is something to think about seriously. Undoubtedly the roads are not maintained as well as a few years ago, but most of the criticism undoubtedly comes from interests which have other fish to fry.

Most of the timber lands of Douglas County are held in what may be termed as tight hands, either by private parties or by the federal government. Some of these lands are held by the county, having been taken over for taxes years ago.

Many small mills have come into the county and plan to enter the field. Certain of these have little or no timber available for operation. These want the district opened up to indiscriminate cutting, harvesting ripe and immature timber just as fast as the timber can be sawed. This has been the American fashion in Minnesota, Washington and in Northern Oregon.

And these want the county court recalled, and new court chosen, to follow their policy. There has been criticism of the county court for sales made

before the war, because the prices received do not compare with those offered now. Well, Judge Buisenbark was not in office then, and even if he had been, the policy at that time was to get the reasonable value of the property, and put it back on the tax rolls.

Now as to the sustained yield unit policy, do we want this county in twenty years like other parts of the country, or would you rather have the present production continue for a century or longer?

We have a conservative county court with money sense; an honest county court, which is running the county for the best interests of Douglas County. It's policy is to have Douglas County timber manufactured in Douglas County, and has done what it can to stop log exports to Lane County, and elsewhere.

W. J. MATHEWS, Sutherlin, Oregon.
