Bill to Outlaw Closed Shop Put In Senate Hopper

WASHINGTON, Jan. 8. — (AP) — Senator Ball (R. Minn.) today introduced legislation to bar all labor contracts which make either membership or non-membership in a union a condition of employment.

The bill would outlaw:

1. Closed shop contracts. These require a worker to join a union before he can be hired.
2. Union shop agreements. Under these an employer may hire a non-union man, but he must join within a certain period.
3. Maintenance of membership contracts. Under such contracts, no one is compelled to join a union, but those who do join must maintain membership during the life of the contract, or lose their job.

Ball's bill also would specifically prohibit the so-called "yellow-dog" contract, under which employers make non-membership in a union a condition of employment.

Actually, these contracts already are banned under the Norris-LaGuardia act of 1932. They also are classified as an "unfair labor practice" under the National Labor Relations act of 1945.

Ball said in a statement that 90 days after enactment of his bill any person "thereafter entering into or attempting to enforce" any of the agreements declared to be outlawed, would be guilty of a misdemeanor punishable by a maximum penalty of a \$5,000 fine and a year in jail.

administration to effect greater cooperation between the three groups. Following the annual dinner, a joint meeting will be arranged of all chambers of commerce in Douglas County, with a view toward reactivation of a county-wide chamber.

The annual dinner itself will be the "kick-off" for a series of weekly forum luncheons to be sponsored by the Roseburg Chamber of Commerce.

The directors adopted a motion last night to urge the Forest Service to preserve as a tourist attraction the world's largest California incense cedar tree, located in the Diamond Lake district of the Umpqua National Forest.

During World War II war death claims paid by commercial U. S. insurance companies (not including National Service Life Insurance) was only 6.2 per cent of the total for the period.

Nearly two-thirds of the 150,000,000 pounds of fresh water fish produced in the United States annually comes from the American waters of the Great Lakes.

United States ships have rights of navigation on the St. Lawrence River under a treaty signed in 1872.
