FEDERAL TIRES

At all
ASSOCIATED DEALERS

Federal Classic has new wedge-grip tread design. Concentrated at center of tread are hundreds of sharp wedges facing in both directions to grip the road firmly ... to provide greater driving safety on slippery pavements.

Skid-Resisting slot edges bite through slippery road film and assure quick straight stops. This, combined with the wedge-gripping edges at the center gives you, in one tire, the utmost in modern safety.

Extra Blowout protection is built in by saturating the cotton cords in pure liquid rubber latex. In addition, layers of protective cushion rubber between the cord plies provide greater resistance to heat and road shock.

Effective January 1st, Tide Water Associated Oil Company became sole distributor, on a nation-wide basis, of FEDERAL Tires and Tubes.

Your Helpful Associated Dealer thus becomes the man to see for new, top-quality Federal Tires and Tubes, as well as for regular, all around tire maintenance and repair service. (His stocks will be limited for a time, of course, but if he cannot fill your needs immediately he will take your order now for delivery as soon as possible.) As good as these famous tires have always been, the 1947 Federals have been materially improved. You'll find your new Federals second to none for mileage, for smooth, quiet running and easy steering, for traction, for bulldog resistance to skidding. Federal Tires look good—they are good! See them today, at your Helpful Associated Dealer's, and ask him for complete information on Federal Tire quality, prices and deliveries.
