And if all this didn't give you a smile, here's something that should. As our good friend Gabriel Heater says, "Ah-here's good news today." Corn is down another fifteen cents a sack and all kinds of mash is down another dime.

Gosh, it's going down so fast the EDITOR can't keep track of it any more. Better come and check the price list. Anyway, UMPQUA MILK EGG MASH is now selling for FOUR DOL-LARS a sack. That may not be eggactly cheap, but if anybody else quoted such a figure we would consider it a typographi-cal error.

Also, this ten cent drop means that UMPQUA PIG RA-TION will be down to \$3.90. With good stock, kept free of parasites, both external and internal, and a chance for dry feet and beds, we think you can produce pork on this feed for just about fifteen cents a pound. And that is cheaper than buying it.

That's All for Now.

And if all this didn't give you a smile, here's something that should. As our good friend Gabriel Heater says, "Ah-here's good news today." Corn is down another fifteen cents a sack and all kinds of mash is down another dime.

Gosh, it's going down so fast the EDITOR can't keep track of it any more. Better come and check the price list. Anyway, UMPQUA MILK EGG MASH is now selling for FOUR DOL-LARS a sack. That may not be eggactly cheap, but if anybody else quoted such a figure we would consider it a typographi-cal error.

Also, this ten cent drop means that UMPQUA PIG RA-TION will be down to \$3.90. With good stock, kept free of parasites, both external and internal, and a chance for dry feet and beds, we think you can produce pork on this feed for just about fifteen cents a pound. And that is cheaper than buying it.
